## Review report on condensed consolidated interim financial statements to the Directors of Sharjah Islamic Bank PJSC

### Introduction

We have reviewed the accompanying consolidated interim statement of financial position of Sharjah Islamic Bank PJSC (the "Bank") and its subsidiaries (together "the Group") as at 31 March 2020 and the related condensed consolidated interim statements of profit or loss, condensed consolidated interim statement of comprehensive income, condensed consolidated interim statement of cash flows and the condensed consolidated interim statement of changes in equity for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

### Scope of our review

We conducted our review in accordance with the International Standards on Review Engagements 2410 "Review of interim financial information performed by the independent auditor of the entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

(Currency: Thousands of U.A.E. Dirhams)

**1. Legal status and activities**

SHARJAH ISLAMIC BANK PJSC (the "Bank") was incorporated in 1975 as a public joint stock company by Emiri Decree issued by His Highness the Ruler of Sharjah, United Arab Emirates and is listed on the Abu Dhabi Securities Exchange. The Bank is engaged in banking, financing and investing activities in accordance with its articles of incorporation, Islamic Shari'a principles and regulations of the UAE Central Bank, which are carried out through its 35 branches (2019: 36 branches) established in the United Arab Emirates.

At an extraordinary shareholder's meeting held on 18 March 2001, a resolution was passed to transform the Bank's activities to be in full compliance with Islamic Shari'a rules and principles. The entire process was completed on 30 September 2002 ("the transformation date"). As a result the Bank transformed its conventional banking products into Islamic banking products during the three month period ended 30 September 2002 after negotiation and agreement with its customers.

The condensed consolidated interim financial statements of the Bank comprise the Bank and its fully owned subsidiaries incorporated in the United Arab Emirates, Sharjah National Hotels (SNH), Sharjah Islamic Financial Services LLC (SIFS) and ASAS Real Estate as well as special purpose vehicles established in the Cayman Islands, SIB Sukuk Company III Limited and SIB Tier 1 Sukuk Company Limited, (all together referred to as "the Group"). SNH through its divisions is engaged in operating hotels and resorts, catering and related services, whereas SIFS is involved in conducting intermediation in dealing in local market Shari'a compliant shares. ASAS is involved in the business of real estate. SIB Sukuk Company III Limited and SIB Tier 1 Sukuk Company Limited were established for the Bank's Sukuk program.

The registered office of the Bank is Post Box No.4, Sharjah, United Arab Emirates.

**2. Basis of preparation****a) Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Selected explanatory notes, particularly in relation to the adoption of IFRS 16, are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2019. These condensed consolidated interim financial statements do not include all of the information required for a full set of annual consolidated financial statements, and should be read in conjunction with the annual consolidated financial statements of the Group as at and for the year ended 31 December 2019.

**b) Basis of measurement**

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for the following material items in the condensed consolidated interim statement of financial position:

- financial assets at fair value through profit or loss (FVTPL);
- financial assets at fair value through other comprehensive income (FVTOCI); and
- investment properties at fair value.

**2. Basis of preparation (continued)**

**c) Functional and reporting currency**

These condensed consolidated interim financial statements have been prepared in UAE Dirhams (AED), which is the Group's functional and presentation currency. All information presented in AED has been rounded to the nearest thousand, except when otherwise stated.

**d) Key accounting estimates & judgments**

The preparation of condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the condensed consolidated interim financial statements are described as follows:

*Measurement of the expected credit loss allowance*

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and FVTOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL ("expected credit loss"), such as:

- Determining the criteria for significant increase in credit risk;
- Determining the criteria and definition of default;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purpose of measuring ECL.

**3. Summary of significant accounting policies**

The accounting policies applied by the Group in preparation of these condensed consolidated interim financial statements are consistent with those applied by the Group in its annual consolidated financial statements as at and for the year ended 31 December 2019.

**4. Financial risk management (continued)**

**b) Impact of Covid-19 and revision to forward looking information with respect to expected credit losses**

On 11 March 2020, the World Health Organization ("WHO") officially declared COVID-19 a global pandemic. In light of the rapid spread of COVID-19 across the globe, various economies and sectors have faced significant disruptions and uncertainty as a result of measures taken by governments to contain or delay the spread of the virus. This note describes the impact of the outbreak on the Bank's operations and the significant estimates and judgements applied by management in assessing the values of financial assets and liabilities as at 31 March 2020.

**I. Credit risk management**

In response to the COVID-19 outbreak, the Bank's Risk management division identified the vulnerable sectors that are significantly impacted by this stressed situation, and reviews are being conducted on a more frequent basis. The existing corporate credit lines are being reviewed and the utilization is being closely monitored. As at 31 March 2020, 36% (31 December 2019: 27%) of the Bank's investment in Islamic finance consist of GRE and Government sector. Upon internal assessment of the Bank's remaining portfolio, other than GRE and Government, the management has concluded that there has not been any significant increase in credit risk due to well diversification of portfolio, posing minimal direct COVID-19 threat.

The Bank has been extra vigilant in underwriting to companies in the vulnerable sectors, especially for any first time customers. Extra measures, such as requiring additional approvals for disbursements of facilities have been implemented to ensure a high level of scrutiny over the credit management process. The Bank is conducting frequent reviews of the Loan to Value ("LTV") ratios on the securities held against facilities, specifically securities which are illiquid in nature. Moreover, the management has reviewed all of its credit lending policies to address the current increasing economic risk for different sectors.

**II. Liquidity risk management**

The effects of COVID-19 on the liquidity and funding risk profile of the banking system are evolving and currently being frequently monitored and evaluated, as Government's around the world reel into provide relief measurements to mitigate the adverse effects of the global economic crisis.

The UAE Central Bank, referred to as "CBUAE", has announced AED 256 billion stimulus package in an attempt to combat the above effects of COVID-19 and ease the liquidity constraints in the UAE Banking sector, by providing relief to the local economy. The stimulus package includes the following:

- 1) Launch of the Targeted Economic Support Scheme ('TESS'), which allows banks to grant temporary relief to impacted customers in the way of deferring payments for up to 6 months, and allowing banks to apply for zero-cost funding from the CBUAE;
- 2) Granted an extension of the capital buffer relief to 31 December 2021 for banks participating in the TESS program;
- 3) Reduction of the reserve requirements by half for demand deposits for all banks, from 14% to 7%;
- 4) Planned implementation of certain Basel III capital requirements will be postponed to 31 March 2021; and
- 5) Reduction in minimum required ELAR from 10% to 7%.

**b) Impact of Covid-19 and revision to forward looking information with respect to expected credit losses (continued)**

**II. Liquidity risk management (continued)**

The Bank's management of liquidity risk is disclosed in note 4 (ii) (b) to the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2019. In response to the COVID 19 outbreak, the Bank is evaluating its liquidity and funding position and has taken into consideration all the reliefs provided by the CBUAE. Further, the Bank has taken the following actions to manage liquidity risks:

- 1) Monitoring the movements and composition of its deposits on a daily basis;
- 2) Monitoring the adherence to regulatory ratios, including ELAR and LSRR on a daily basis. As of reporting date ELAR stands at 16%, well above the minimum requirement of 10% (without incentive from CBUAE) and 7% (after reduction in the requirement from CBUAE), whereas LSRR stands at 71.57% as against the maximum allowed of 100% by CBUAE.
- 3) Developing contingency plans and opening up new funding lines in the treasury and inter-bank markets of other GCC countries;
- 4) Developing stress testing scenarios to assess the impact on the Bank in extreme stress; and
- 5) Bank as of the reporting date holds sovereign marketable securities amounting AED 1.3 billion which can be utilised in case of extreme liquidity shortage, if required.

**III. Use of estimates and judgements**

*SICR, EAD, LGD and macroeconomic scenarios for computation of ECL*

The Bank exercises significant judgement in assessing and estimating areas such as Expected Credit Losses. Given the lack of availability of precise data and limited changes in customers' behavior in the first quarter, the Bank has taken the approach of stressing different input factors in the computation of the ECL model by incorporating forward-looking information. As the situation is fast evolving, the full economic outcomes of the COVID 19 pandemic are currently unknown and difficult to predict, Upon reassessment of stage 1 and stage 2 customers as of the reporting date, there is no increase in credit risk profile of the bank.

The Bank considers a range of possible outcomes and their respective probabilities, and to apply judgement in determining what constitutes reasonable and forward looking information. The volatility caused by the current situation has been reflected through adjustment in the methods of forward looking scenario construction. The most significant period-end assumptions used for ECL estimate includes next 5-year average oil price ranging between US\$ 28.5/barrel to US\$ 64.9/barrel, equity price index growth volatility ranging between -16% to 6%, non-oil UAE GDP range falling 4.4% to rising 5.4% and UAE CPI index range falling 3.6% to rising 4.3%.

Management will continually monitor how the economic conditions change over the next quarter and will re-evaluate the adequacy of downside weight, and adverse effect, if any, will be accounted for.

Judgement is also required in estimating EAD, particularly for Islamic financing commitments, including letters of credit and guarantee, and revolving credit facilities such as credit cards, where deterioration in the macro economic environment is generally accompanied by an increase in the volumes and duration of the drawdowns. Credit conversion factor used by the Bank for unutilized limits has been set at 20%, thus stressing EAD to current situation.

The COVID 19 related impact on LGD, the Bank has computed ECL using stressed BASEL LGD of 60% for real estate, construction and contracting and consumer home financing sectors. Islamic financing to individuals' accounts for 10% of the total gross portfolio; ECL on which has been computed based on stressed LGD of as high as 91.9%. Had the Bank increased its weightage to the pessimistic scenario by another 10%, the Bank would have recognised an additional ECL provision of AED 28 million.

**4. Financial risk management (continued)**

**b) Impact of Covid-19 and revision to forward looking information with respect to expected credit losses (continued)**

**IV. Business continuity plan**

In light of current scenarios caused by COVID 19, the Bank has activated its business continuity policy (BCP). In light of the BCP, the Bank has established a system of a secured remote access management system with dual authentication access and functioning of its operations, IT systems and client's digital channels. For this purpose the Bank has designed standard operating procedures which are duly followed. The Bank also has appropriate cyber security architecture to support its commercial assets and customers without any interruption to business activities through its comprehensive digital channels. Moreover, the bank has engaged with a third party to review the security of the current working environment.

**c) Capital adequacy initiatives**

The outreaching impact of COVID 19 is expected to impact the Bank's Risk Weightage Assets via higher charges arising from increased volatility and higher counter party risks. The implementation of the requirements of IFRS 9 Expected Credit Losses in a less favorable economic outlook is expected to increase the credit risk weights of financing and also increase provision allowances and hence impacts the Bank's strong capital adequacy, which currently stands at 21.11% (31 December 2019: 22.79%). The Bank expects CAR in an extreme stressed scenario to remain well above the UAE banking sector average and the baseline CBUAE BASEL III requirement of 13%, including capital conservation buffer of 2.5%.

In order to relieve the pressure on financial institutions, the CBUAE, vide its official paper issued on 5 April 2020, has allowed banks to apply a prudential filter to IFRS 9 expected loss provisions. The prudential filter aims to minimize the effect of IFRS 9 provisions on regulatory capital, in view of the expected volatility due to the COVID 19 crisis. The filter will allow Banks to partially add incremental ECL provisions back to their Tier 2 capital for the purpose of calculating capital adequacy ratios. Banks are however required to reverse this capital benefit in a gradual and phased manner over a period of 5 years (ending on 31 December 2024). The CBUAE has also granted extension of the capital buffer relief to 31 December 2021 for banks enrolled in the TESS program. The Bank's Risk Committee, in liaison with the Risk Management department is constantly monitoring the developments in relation to the outbreak and is continually monitoring the Bank's ability to maintain adequate capital levels at all times, in both existing and stressed scenarios.

**14. Tier 1 sukuk**

In July 2019, the Bank issued Shari'ah compliant Tier 1 sukuk through an SPV, SIB Tier 1 Sukuk Company Limited, ("the issuer") amounting to USD 500 million (AED 1,836.5 million) at par.

Tier 1 sukuk is a perpetual security in respect of which there is no fixed redemption date and constitutes direct, unsecured, subordinated obligations (senior only to share capital) of the Bank subject to the terms and conditions of the Mudarabah Agreement. These sukuk are expected to pay profit semi-annually of 5% each year, commencing from 02 July 2019. The expected profit rate will be reset to a new fixed rate on the basis of the then prevailing reoffer spread of 321.30 bps on 02 July 2025 ("the first reset date") and every 6 years thereafter. These sukuk are listed on Euronext Dublin and Nasdaq Dubai and are callable by the Bank on 02 July 2025 ("the first call date") or any profit payment date thereafter subject to certain redemption conditions. The net proceeds of Tier 1 are invested by the Bank in its general business activities on a co-mingling basis.

At the Issuer's sole discretion, it may elect not to make any Mudarabah profit distributions expected and the event is not considered an event of default. In such an event, the Mudarabah profit will not be accumulated but forfeited to the issuer. If the issuer makes a non-payment election or a non-payment event occurs, then the Bank will not (a) declare or pay any distribution or dividend or make any other payment on, and will procure that no distribution or dividend or other payment is made on ordinary shares issued by the Bank, or (b) directly or indirectly redeem, purchase, cancel, reduce or otherwise acquire ordinary shares issued by the Bank.

**17. Fair value measurement (continued)**

The valuation techniques and the inputs used in determining the fair values of level 3 assets is consistent with those applied by the Group in its annual consolidated financial statements as at and for the year ended 31 December 2019.

**18. Interim measurement**

The nature of the Group's business is such that income and expense are incurred in a manner, which is not impacted by any form of seasonality. These condensed consolidated interim financial statements were prepared based upon the accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

**19. Dividends**

During the annual general meeting of the shareholders held on 22 February 2020, a cash dividend of 5% and stock dividend of 5% of the paid up capital, each amounting to AED 146.7 million was approved for the year ended 31 December 2019 (2019: 8% dividend, amounting to AED 234.8 million for the year ended 31 December 2018).
