Under the U.S.\$3,000,000,000 trust certificate issuance programme described in this Base Prospectus (the **Programme**), SIB Sukuk Company III Limited (in its capacities as issuer and as trustee, the **Trustee**), subject to compliance with all applicable laws, regulations and directives, may from time to time issue trust certificates (the **Certificates**) in any currency agreed between the Trustee and the relevant Dealer (as defined below).

Certificates may only be issued in registered form. The maximum aggregate face amount of all Certificates from time to time outstanding under the Programme will not exceed U.S.\$3,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

Each Series (as defined herein) of Certificates issued under the Programme will be constituted by: (i) an amended and restated master trust deed (the **Master Trust Deed**) dated 28 May 2020 entered into between the Trustee, Sharjah Islamic Bank PJSC (**SIB**) and Citicorp Trustee Company Limited as delegate of the Trustee (the **Delegate**, which expression shall include any co-Delegate or any successor); and (ii) a supplemental trust deed (the **Supplemental Trust Deed**) and, together with the Master Trust Deed, each a **Trust Deed** in relation to the relevant Series. Certificates of each Series confer on the holders of the Certificates from time to time (the **Certificateholders**) the right to receive certain payments (as more particularly described herein) arising from a *pro rata* ownership interest in the assets of a trust declared by the Trustee in relation to the relevant Series (the **Trust**) over the Trust Assets (as defined below) which will include, *inter alia*: (i) the relevant Portfolio (as defined herein); and (ii) the relevant Transaction Documents (as defined below).

The Certificates may be issued on a continuing basis to one or more of the Dealers (each a **Dealer** and together the **Dealers**) specified under "Overview of the Programme" and any additional Dealer appointed under the Programme from time to time by the Trustee and SIB, which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the **relevant Dealer** shall, in the case of an issue of Certificates being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Certificates.

The Trustee will be limited recourse obligations of the Trustee. An investment in Certificates issued under the Programme involves certain risks. For a discussion of these risks, see "*Risk Factors*".

This Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland (the **Irish Central Bank**) as competent authority under Regulation (EU) 2017/1129 (the **Prospectus Regulation**). The Irish Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the Irish Central Bank should not be considered as an endorsement of the Trustee or SIB or of the quality of the Certificates. Investors should make their own assessment as to the suitability of investing in the Certificates.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin (**Euronext Dublin**) for Certificates issued under the Programme during the 12 months from the date of this Base Prospectus to be admitted to the official list (the **Official List**) and trading on its regulated market (the **Euronext Dublin Regulated Market**). Such approval relates only to the Certificates which are to be admitted to trading on the Euronext Dublin Regulated Market or any other regulated markets for the purposes of Directive 2014/65/EC on markets in financial instruments, as amended (**MiFID II**) (each such regulated market being a **MiFID Regulated Market**) or which are to be offered to the public in any member state of the European Economic Area (each a **Member State**).

The DFSA does not accept any responsibility for the content of the information included in this Base Prospectus, including the accuracy or completeness of such information. The liability for the content of this Base Prospectus lies with the Trustee, SIB and such other persons, such as experts, whose opinions are included in the Base Prospectus with their consent. The DFSA has also not assessed the suitability of the Certificates to which this Base Prospectus relates to any particular investor or type of investor and has not determined whether they are Shari'a compliant. If you do not understand the contents of this Base Prospectus or are unsure whether the Certificates to which this Base Prospectus relates are suitable for your individual investment objectives and circumstances, you should consult an authorised financial advisor.

References in this Base Prospectus to Certificates being **listed** (and all related references) shall mean that such Certificates have been (a) admitted to listing on the Official List and admitted to trading on the Euronext Dublin Regulated Market or, as the case may be, another MiFID Regulated Market and/or (b) admitted to listing on the DFSA Official List and admitted to trading on Nasdaq Dubai. The Programme provides that Certificates may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Trustee, SIB and the relevant Dealer. The Trustee may also issue unlisted Certificates and/or Certificates not admitted to trading on any market.

Notice of the aggregate face amount of Certificates and any other terms and conditions not contained herein which are applicable to each Series will be set out in a final terms document (the **applicable Final Terms**) which, with respect to Certificates to be listed on Euronext Dublin, will be published on the website of the Euronext Dublin on or around the date of issue of such Series.

The Trustee and SIB may agree with any Dealer that Certificates may be issued with terms and conditions not contemplated by the Terms and Conditions of the Certificates herein, in which event a supplemental Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Certificates.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Certificates which are to be admitted to trading on a MiFID Regulated Market. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

(**Fitch**) with a stable outlook, A- by S&P Global Ratings Europe Limited (**S&P**) with a negative outlook and A3 by Moody's Investors Service Cyprus Ltd (**Moody's**) with a negative outlook. The Programme has been assigned a provisional rating of A- by S&P. Each of Fitch, Moody's and S&P is established in the European Union or the United Kingdom and is registered under the Regulation (EU) No. 1060/2009 (as amended) (the **CRA Regulation**). As such, each of Fitch, Moody's and S&P are included in the list of credit rating agencies published by the European Securities and Markets Authority (ESMA) on its website (at <https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) in accordance with the CRA Regulation. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Certificates issued under the Programme may be rated or unrated. When a Series of Certificates is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the rating applicable to the Programme. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The Certificates have not been nor will be registered under the United States Securities Act of 1933, as amended (the **Securities Act**) nor with any securities regulatory authority of any state or other jurisdiction of the United States and the Certificates may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act (**Regulation S**)) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, Certificates may be offered or sold solely to persons who are not U.S. persons (as defined in Regulation S) outside the United States in reliance on Regulation S. Each purchaser of the Certificates is hereby notified that the offer and sale of Certificates to it is being made in reliance on the exemption from the registration requirements of the Securities Act provided by Regulation S.

The transaction structure relating to the Certificates (as described in this Base Prospectus) has been approved by the Internal Shari'a Control Committee of SIB in liaison with the Global Shari'a Supervisory Committee of Standard Chartered Bank. Prospective Certificateholders should not rely on such approvals in deciding whether to make an investment in the Certificates and should consult their own Shari'a advisers as to whether the proposed transaction described in such approvals is in compliance with their individual standards of compliance with Shari'a principles.

## IMPORTANT NOTICES

This Base Prospectus complies with the requirements in Part 2 of the Markets Law (DIFC No. 1 of 2012) and Chapter 2 of the Markets Rules, and comprises a base prospectus for the purposes of Article 8 of the Prospectus Regulation and for the purpose of giving information with regard to the Trustee, SIB and the Certificates which, according to the particular nature of the Trustee, SIB and the Certificates, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Trustee and SIB.

Each of the Trustee and SIB accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge of each of the Trustee and SIB, the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

Certain information under the headings “*Risk Factors*”, “*Description of Sharjah Islamic Bank PJSC*”, and “*The United Arab Emirates Banking Sector and Prudential Regulations*” has been extracted from information provided by: (i) the Central Bank of the United Arab Emirates (the **UAE Central Bank**), in the case of “*Risk Factors*”; (ii) the United Arab Emirates (UAE) and Sharjah governments, and the UAE Central Bank, in the case of “*Description of Sharjah Islamic Bank PJSC*”; and (iii) the Abu Dhabi Securities Exchange, the Dubai Financial Market and the UAE Central Bank, in the case of “*The United Arab Emirates Banking Sector and Regulations*”, and, in each case, the relevant source of such information is specified where it appears under those headings.

Each of the Trustee and SIB confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by the relevant sources referred to, no facts have been omitted which would render the reproduced information inaccurate or misleading.

This Base Prospectus should be read and construed together with any amendments or supplements hereto and, in relation to any Series of Certificates, should be read and construed together with the applicable Final Terms.

Copies of Final Terms will be available from the registered office of the Trustee and the specified office (set out below) of the Principal Paying Agent (as defined below) save that, if the relevant Certificates are neither admitted to trading on a regulated market in the European Economic Area or the United Kingdom nor offered in the European Economic Area or the United Kingdom in circumstances where a prospectus is required to be published under the Prospectus Regulation, the applicable Final Terms will only be obtainable by a Certificateholder holding one or more Certificates and such Certificateholder must produce evidence satisfactory to the Trustee or, as the case may be, the Principal Paying Agent as to its holding of such Certificates and identity.

No person is or has been authorised by the Trustee or SIB to give any information or to make any representation not contained in or not consistent with this Base Prospectus in connection with the Programme or the Certificates and, if given or made, such information or representation must not be relied upon as having been authorised by the Trustee, SIB, the Dealers (as defined under “*Overview of the Programme*”), the Delegate, the Agents (each as defined herein) or any other person. Neither the delivery of this Base Prospectus or any Final Terms nor any sale of any Certificates shall, under any circumstances, constitute a representation or create any implication that the information contained herein is correct as of any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Delegate and the Dealers expressly do not undertake to review the financial condition or affairs of the Trustee or SIB at any point, including during the life of the Programme, or to advise any investor in the Certificates of any information coming to their attention.

None of the Dealers, the Delegate or the Agents has independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by any of them as to (i) the accuracy, adequacy, reasonableness or completeness of the information contained in this Base Prospectus or any other information provided by SIB in connection with the Programme or (ii) the acts or omissions of the Trustee or SIB or any other person (other than the relevant Dealer, the Delegate or Agent) in connection with the issue or offering of any Certificates.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Certificates is: (i) intended to provide the basis of any credit or other evaluation; or (ii) should be considered as a recommendation by the Trustee, SIB, the Dealers, the Delegate or the Agents that any recipient of this Base Prospectus should purchase any Certificates. Each investor contemplating purchasing any Certificates should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Trustee and SIB. None of the Dealers, the Delegate or the Agents accepts any liability in relation to the information contained in this Base Prospectus or any other information provided by the Trustee and SIB in connection with the Programme.

The Certificates of any Series may not be a suitable investment for all investors. Each potential investor in Certificates must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the relevant Certificates, the merits and risks of investing in the relevant Certificates and the information contained in this Base Prospectus;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Certificates and the impact the relevant Certificates will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Certificates, including where the currency of payment is different from the potential investor's currency;
- (d) understands thoroughly the terms of the relevant Certificates and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks.

Some Certificates are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (i) Certificates are legal investments for it; (ii) Certificates can be used as collateral for various types of borrowing; and (iii) other restrictions apply to its purchase or pledge of any Certificates. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Certificates under any applicable risk-based capital or similar rules.

No comment is made or advice given by the Trustee, SIB, the Dealers, the Delegate or the Agents in respect of taxation matters relating to any Certificates or the legality of the purchase of the Certificates by an investor under any applicable law.

**EACH PROSPECTIVE INVESTOR IS ADVISED TO CONSULT ITS OWN TAX ADVISER, LEGAL ADVISER AND BUSINESS ADVISER AS TO TAX, LEGAL, BUSINESS AND RELATED MATTERS CONCERNING THE PURCHASE OF ANY CERTIFICATES.**

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Certificates in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction.

The distribution of this Base Prospectus and the offer or sale of Certificates may be restricted by law in certain jurisdictions. None of the Trustee, SIB, the Dealers, the Delegate or the Agents represents that this Base Prospectus may be lawfully distributed, or that any Certificates may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Trustee, SIB, the Dealers, the Delegate or the Agents which is intended to permit a public offering of any Certificates or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Certificates may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Certificates may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of the Certificates. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Certificates in the United States, the European Economic Area, the United Kingdom, the Cayman Islands, Japan, the United Arab Emirates (excluding the Dubai International Financial Centre), the Dubai International Financial Centre, the Kingdom of Saudi Arabia,

the Kingdom of Bahrain, the State of Qatar (excluding the Qatar Financial Centre), Singapore, Hong Kong and Malaysia, see “*Subscription and Sale*”.

This Base Prospectus has been prepared on the basis that any offer of Certificates in any Member State of the European Economic Area or the United Kingdom (each, a **Relevant State**) will be made pursuant to an exemption under the Prospectus Regulation, as implemented in that Relevant State, from the requirement to publish a prospectus for offers of Certificates. Accordingly, any person making or intending to make an offer in that Relevant State of Certificates which are the subject of an offering contemplated in this Base Prospectus as completed by Final Terms in relation to the offer of those Certificates may only do so in circumstances in which no obligation arises for the Trustee, SIB or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. None of the Trustee, SIB or any Dealer have authorised, nor do they authorise, the making of any offer of Certificates in circumstances in which an obligation arises for the Trustee, SIB or any Dealer to publish or supplement a prospectus for such offer.

None of the Dealers, the Trustee, SIB, the Agents or the Delegate makes any representation to any investor in the Certificates regarding the legality of its investment under any applicable laws. Any investor in the Certificates should be able to bear the economic risk of an investment in the Certificates for an indefinite period of time.

- audited consolidated financial statements as at and for the financial year ended 31 December 2019 which include unaudited comparative financial information as at and for the year ended 31 December 2018, together with the accompanying notes thereto (the **2019 Financial Statements**); and

The Financial Statements have been prepared in accordance with the guidance of the UAE Central Bank and Islamic *Shari'a* principles and applicable requirements of the Federal laws relating to Islamic banks. The 2019 Financial Statements and the 2018 Financial Statements have been prepared in accordance with International Financial Reporting Standards (**IFRS**) issued by the International Accounting Standards Board (the **IASB**), the Q1 2020 Financial Statements in accordance with International Accounting Standards 34 – Interim Financial Reporting (**IAS 34**). The 2019 Financial Statements and 2018 Financial Statements have been audited in accordance with International Standards on Auditing (**IAS**) by PricewaterhouseCoopers (Dubai Branch) (**PwC**) without qualification. PwC has reviewed, without qualification, the Q1 2020 Financial Statements in accordance with the International Standard on Review Engagements 2410, "*Review of interim financial information performed by the independent auditor of the entity*", as stated in PwC's review report appearing in the Q1 2020 Financial Statements. See note 3 (*Summary of Significant Accounting Policies*) to the 2019 Financial Statements for information regarding the significant accounting policies adopted by SIB, including certain updates between the 2018 Financial Statements and the 2019 Financial Statements (such as the adoption of IFRS 16 with effect from 1 January 2019).

*From 1 January 2019, SIB has adopted a new lease standard IFRS 16 Leases (which supersedes IAS 17 Leases) and which has resulted in changes in accounting policies. IFRS 16 provides a single accounting model for the lessee, requiring tenants to recognise the assets and liabilities of all leases, which represents a significant change from IAS 17. For further information, see note 3 (Summary of significant accounting policies) to the 2019 Financial Statements. SIB has adopted IFRS 16 on a modified retrospective basis and has not restated comparative figures for 2018. Accordingly, the comparative figures for 2018 have not been adjusted and may not be directly comparable to the 2019 figures.*

SIB presents its financial statements in UAE dirham.

Unless otherwise indicated, the statement of financial position, the statement of comprehensive income, the statement of cash flows and the statement of changes in equity information incorporated by reference in this Base Prospectus relating to SIB have been derived:

- in respect of the financial information as at and for the years ended 31 December 2018 and 31 December 2017 from the 2018 Financial Statements, except for those 2018 financial information which were subsequently reclassified and hence are extracted or derived from the unaudited comparative column of the 2019 Financial Statements (see "*- Reclassifications to 2019 comparatives*" below for further detail);

### ALTERNATIVE PERFORMANCE MEASURES

A number of the financial metrics in the analysis of SIB's business and financial position presented by SIB in this Base Prospectus are not defined in accordance with IFRS and SIB considers such metrics to constitute Alternative Performance Measures (APMs), as defined in the European Securities and Markets Authority Guidelines on APMs dated 5 October 2015 (the **ESMA Guidelines**).

Although not defined in accordance with IFRS, SIB believes such metrics provide useful supplementary information to both investors and SIB's management, as they facilitate the evaluation of company performance. It is to be noted that, since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies. Accordingly, these financial measures should not be seen as a substitute for measures defined according to IFRS. Certain of these APMs are presented below, along with their reconciliation to the extent that such information is not defined according to IFRS and not included in SIB's Financial Statements incorporated by reference into this Base Prospectus:

### **CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

Some statements in this Base Prospectus may be deemed to be “forward-looking statements”. Forward-looking statements include statements concerning SIB’s plans, objectives, goals, strategies and future operations and performance and the assumptions underlying these forward-looking statements. When used in this Base Prospectus, the words “anticipates”, “estimates”, “expects”, “believes”, “intends”, “plans”, “aims”, “seeks”, “may”, “will”, “should” and any similar expressions generally identify forward-looking statements. These forward-looking statements are contained in the sections entitled “*Risk Factors*” and “*Description of Sharjah Islamic Bank PJSC*” and other sections of this Base Prospectus. SIB has based these forward-looking statements on the current view of its management with respect to future events and financial performance. Although SIB believes that the expectations, estimates and projections reflected in its forward-looking statements are reasonable, if one or more of the risks or uncertainties materialise, including those identified below or which SIB has otherwise identified in this Base Prospectus, or if any of SIB’s underlying assumptions prove to be incomplete or inaccurate, SIB’s actual results of operation may vary from those expected, estimated or predicted. Investors are therefore strongly advised to read the sections “*Risk Factors*”, “*Description of Sharjah Islamic Bank PJSC*” and “*The United Arab Emirates Banking Sector and Prudential Regulations*”, which include a more detailed description of the factors that might have an impact on SIB’s business development and on the industry sector in which SIB operates.

The risks and uncertainties referred to above include:

- macro-economic and financial market conditions;
- credit risks, including the impact of a higher level of credit defaults arising from adverse economic conditions (in particular in relation to the real estate sector), the impact of provisions and impairments and concentration of SIB’s portfolio of Islamic financing and investing assets;
- liquidity risks, including the inability of SIB to meet its contractual and contingent cash flow obligations or the inability to fund its operations; and
- changes in profit rates and other market conditions.

Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under “*Risk Factors*”.

Any individual intending to invest in any investment described in this Base Prospectus should consult his professional adviser and ensure that he fully understands all the risks associated with making such an investment and that he has sufficient financial resources to sustain any loss that may arise from such investment.

This Base Prospectus and any related offering documents have not been and will not be registered as a prospectus with the CBB. Accordingly, no securities may be offered, sold or made the subject of an invitation for subscription or purchase nor will this Base Prospectus or any other related document or material be used in connection with any offer, sale or invitation to subscribe or purchase securities, whether directly or indirectly, to persons in the Kingdom of Bahrain, other than to accredited investors (as such term is defined by the CBB) for an offer outside the Kingdom of Bahrain.

The CBB has not reviewed, approved or registered this Base Prospectus or any related offering documents and it has not in any way considered the merits of the Certificates to be offered for investment, whether in or outside the Kingdom of Bahrain. Therefore, the CBB assumes no responsibility for the accuracy and completeness of the statements and information contained in this Base Prospectus and expressly disclaims any liability whatsoever for any loss howsoever arising from reliance upon the whole or any part of the content of this Base Prospectus. No offer of Certificates will be made to the public in the Kingdom of Bahrain and this Base Prospectus must be read by the addressee only and must not be issued, passed to, or made available to the public generally.

#### **NOTICE TO RESIDENTS OF THE STATE OF QATAR**

Any Certificates to be issued under the Programme will not be offered, sold or delivered, at any time, directly or indirectly, in the State of Qatar (including the Qatar Financial Centre) in a manner that would constitute a public offering. This Base Prospectus has not been and will not be reviewed or approved by or registered with the Qatar Central Bank, the Qatar Stock Exchange, the Qatar Financial Centre Regulatory Authority or the Qatar Financial Markets Authority in accordance with their respective regulations or any other regulations in the State of Qatar. The Certificates to be issued under the Programme are not and will not be traded on the Qatar Stock Exchange.

#### **NOTICE TO RESIDENTS OF MALAYSIA**

Any Certificates to be issued under the Programme may not be offered for subscription or purchase and no invitation to subscribe for or purchase the Certificates in Malaysia may be made, directly or indirectly, and this Base Prospectus or any document or other materials in connection therewith may not be distributed in Malaysia other than to persons falling within the categories set out in Schedule 6 or Section 229(1)(b), Schedule 7 or Section 230(1)(b) and Schedule 8 or Section 257(3) of the Capital Market and Services Act 2007 of Malaysia (CMSA) and subject to any amendments to the applicable laws from time to time.

The Securities Commission of Malaysia shall not be liable for any non-disclosure on the part of the Trustee or SIB and assumes no responsibility for the correctness of any statements made or opinions or reports expressed in this Base Prospectus.

#### **MiFID II PRODUCT GOVERNANCE / TARGET MARKET**

The Final Terms in respect of any Certificates may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Certificates and which channels for distribution of the Certificates are appropriate. Any person subsequently offering, selling or recommending the Certificates (a distributor) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, MiFID II) is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the MiFID Product Governance Rules), any Dealer subscribing for any Certificates is a manufacturer in respect of such Certificates, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

#### **NOTIFICATION UNDER SECTION 309B(1)(C) OF THE SECURITIES AND FUTURES ACT (CHAPTER 289) OF SINGAPORE, AS MODIFIED OR AMENDED FROM TIME TO TIME (THE SFA)**

Unless otherwise stated in the applicable Final Terms in respect of any of the Certificate, all Certificates issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment

Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

#### **VOLCKER RULE**

The Volcker Rule, which became effective on 1 April 2014, but was subject to a conformance period for certain entities that concluded on 21 July 2015, generally prohibits “banking entities” (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from (i) engaging in proprietary trading, (ii) acquiring or retaining an ownership interest in or sponsoring a “covered fund”, and (iii) entering into certain relationships with “covered funds”. The general effects of the Volcker Rule remain uncertain; any prospective investor in the Certificates and any entity that is a “banking entity” as defined under the Volcker Rule which is considering an investment in the Certificates should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment. If investment by “banking entities” in the Certificates is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Certificates. No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Certificates, and accordingly none of the Trustee, SIB, the Arranger, the Delegate, the Agents or the Dealers, or any of their respective affiliates makes any representation regarding (a) the status of the Trustee under the Volcker Rule (including whether it is a “covered fund” for their purposes) or (b) the ability of any purchaser to acquire or hold the Certificates, now or at any time in the future.

#### **STABILISATION**

IN CONNECTION WITH THE ISSUE OF ANY SERIES, THE DEALER OR DEALERS (IF ANY) NAMED AS STABILISATION MANAGER(S) (OR ANY PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN THE APPLICABLE SUBSCRIPTION AGREEMENT MAY EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE CERTIFICATES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE ISSUE DATE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT CERTIFICATES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT CERTIFICATES. ANY STABILISATION ACTION SHALL BE CONDUCTED BY THE STABILISATION MANAGER (OR PERSONS ACTING ON BEHALF OF THE STABILISATION MANAGER) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

#### **USE OF BENCHMARK**

Amounts payable on certain Certificates issued under the Programme may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011, as amended (the Benchmarks Regulation). If any such reference rate does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmarks Regulation. Transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the Final Terms. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Trustee does not intend to update the Final Terms to reflect any change in the registration status of the administrator.

All payments in respect of Certificates by the Trustee shall be made without withholding or deduction for, or on account of, any taxes, levies, imposts, duties, fees, assessments or governmental charges of whatever nature imposed or levied by or on behalf of any Relevant Jurisdiction. Whether or not each credit rating applied for in relation to the relevant Series of Certificates will be issued by a credit rating agency established in the European Union or the United Kingdom and registered under the CRA Regulation will be disclosed in the applicable Final Terms.

Certificates may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets agreed between the Trustee, SIB and the relevant Dealer in relation to the Series. Certificates which are neither listed nor admitted to trading on any market may also be issued.

The applicable Final Terms will state whether or not the relevant Certificates are to be listed and/or admitted to trading and, if so, on which stock exchanges and/or markets.

Transaction Documents:

The transaction documents are the Master Trust Deed, each Supplemental Trust Deed, the Agency Agreement, the Master Purchase Agreement, each Supplemental Purchase Contract, the Service Agency Agreement, the Purchase Undertaking and the Sale Undertaking (each, a **Transaction Document** and, together, the **Transaction Documents**).

The Certificates of each Series and any non-contractual obligations arising out of or in connection with the Certificates of each Series will be governed by, and construed in accordance with, English law.

The Master Trust Deed, each Supplemental Trust Deed, the Programme Agreement, the Agency Agreement, the Service Agency Agreement, the Purchase Undertaking, the Sale Undertaking and any non-contractual obligations arising out of or in connection with the same will be governed by English law. In respect of any dispute under any such agreement or deed to which SIB is a party, SIB has consented to arbitration in London under the LCIA Arbitration Rules. Any dispute may also be referred to the courts in England (which shall have exclusive jurisdiction to settle any dispute arising from such documents) or any other court of competent jurisdiction.

The Master Purchase Agreement will be governed by the laws of Sharjah and, to the extent applicable in Sharjah, the federal laws of the UAE, and will be subject to the non-exclusive jurisdiction of the Sharjah courts. Each Supplemental Purchase Contract, each Sale Agreement entered into under the Purchase Undertaking and each Sale Agreement or Transfer Agreement entered into under the Sale Undertaking will be governed by the laws of Sharjah or, in the case of Real Estate Ijara Assets located in any other Emirate, the laws of that Emirate and, to the extent applicable in Sharjah or, as the case may be, that other Emirate, the federal laws of the UAE, and will be subject to the non-exclusive jurisdiction of the Sharjah Courts or, as the case may be, the courts of that other Emirate.

The Corporate Services Agreement will be governed by the laws of the Cayman Islands and will be subject to the non-exclusive jurisdiction of the courts of the Cayman Islands.

Waiver of Immunity:

To the extent that SIB may claim for itself or its assets or revenues immunity from jurisdiction, enforcement, prejudgment proceedings, injunctions and all other legal proceedings and relief and to the extent that such immunity (whether or not claimed) may be attributed to it or its assets or revenues, SIB will agree in the Transaction Documents to which it is a party not to claim and will irrevocably and unconditionally waive such immunity in relation to any legal proceedings. Further, SIB will irrevocably and unconditionally consent to the giving of any relief or the issue of any legal proceedings, including, without limitation, jurisdiction, enforcement, prejudgment proceedings and injunctions in connection with any legal proceedings.

Shari'a Compliance:

Each Transaction Document provides that, to the extent permitted by law, each of the Trustee (to the extent it is a party to the relevant

Transaction Document) and SIB (to the extent it is a party to the relevant Transaction Document), as the case may be, agrees that it has accepted the Shari'a compliant nature of the Transaction Documents to which it is a party and further agrees that: (a) it shall not claim that any of its obligations under the Transaction Documents to which it is a party (or any provision thereof) is ultra vires or not compliant with the principles of Shari'a; (b) it shall not take any steps or bring any proceedings in any forum to challenge the Shari'a compliance of the Transaction Documents to which it is a party; and (c) none of its obligations under the Transaction Documents to which it is a party shall in any way be diminished, abrogated, impaired, invalidated or otherwise adversely affected by any finding, declaration, pronouncement, order or judgment of any court, tribunal or other body that the Transaction Documents to which it is a party are not compliant with the principles of Shari'a.

Limited Recourse:

Each Certificate represents solely an undivided ownership interest in the relevant Trust Assets. No payment of any amount whatsoever shall be made in respect of the Certificates except to the extent that funds for that purpose are available from the relevant Trust Assets.

Certificateholders will otherwise have no recourse to any assets of the Trustee and/or its directors, officers, administrators or shareholders, or SIB in respect of any shortfall in the expected amounts due under the relevant Trust Assets to the extent the Trust Assets have been exhausted, following which all obligations of the Trustee shall be extinguished.

## **RISK FACTORS**

The purchase of Certificates may involve substantial risks and is suitable only for sophisticated investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and merits of an investment in the Certificates. Before making an investment decision, prospective purchasers of Certificates should consider carefully, in the light of their own financial circumstances and investment objectives, all of the information in this Base Prospectus.

Each of the Trustee and SIB believes that the factors described below represent the principal risks inherent in investing in the Certificates, but the inability of the Trustee to pay any amounts on or in connection with any Certificate may occur for other reasons and neither the Trustee nor SIB represents that the statements below regarding the risks of holding any Certificate are exhaustive.

Although the Trustee and SIB believe that the various structural elements described in this Base Prospectus mitigate some of these risks for Certificateholders, there can be no assurance that these measures will be sufficient to ensure payment to Certificateholders of any Periodic Distribution Amount or the Dissolution Amount or any other amounts payable in respect of the Certificates on a timely basis or at all. There may also be other considerations, including some which may not be presently known to the Trustee or SIB or which the Trustee or SIB currently deems immaterial, that may impact any investment in the Certificates.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. Words and expressions defined in "Terms and Conditions of the Certificates" shall have the same meanings in this section.

### **Risk factors relating to the Trustee**

The Trustee was incorporated in the Cayman Islands on 11 March 2013 as an exempted company with limited liability and has a limited operating history. The Trustee will not engage in, and has not as at the date of this Base Prospectus engaged in, any business activity other than the issuance of the Certificates, the acquisition of the Trust Assets as described herein, acting in its capacity as Trustee and other activities incidental or related to the foregoing as required under the Transaction Documents to which it is a party.

The Trustee's only material assets, which will be held on trust for the Certificateholders, in its capacity as Trustee, will be the Trust Assets, including its right to receive payments under the Transaction Documents. Therefore the Trustee is subject to all of the risks to which SIB is subject, to the extent that such risks could limit SIB's ability to satisfy in full and on a timely basis its obligations under the Transaction Documents to which it is a party (see "*Risk factors relating to SIB and its business*" for a further description of these risks).

The ability of the Trustee to pay amounts due on the Certificates will primarily be dependent upon receipt by the Trustee of all amounts due under the Transaction Documents. Such amounts are to be paid by SIB. In the aggregate these amounts may not be sufficient to meet all claims under the Certificates and the Transaction Documents. Because the Trustee is a Cayman Islands company, it may not be possible for Certificateholders to effect service of process on it outside the Cayman Islands.

### **Risks relating to SIB and its business**

#### ***Political, economic and related risks***

The UAE is seen as a relatively stable political environment. Although the UAE enjoys domestic political stability and generally healthy international relations, because it is located in the MENA region, there is a risk that it could be impacted by regional geopolitical instability. The effects of such risk and geopolitical uncertainty can be varied, and it is not possible to predict the occurrence of events or circumstances such as war or hostilities, or the impact of such occurrences, and no assurance can be given that the UAE would be able to sustain its current economic growth levels if adverse political events or circumstances were to occur.

In particular, since early 2011 there has been political unrest (leading in certain circumstances to a change in political regime) in a range of countries in the MENA region, including Libya, the Republic of Iraq (Kurdistan), the Republic of Yemen and Syria. This unrest has ranged from public demonstrations to, in extreme cases, armed conflict (including the multinational conflict with Islamic State (also known as Daesh, ISIS or ISIL)) and the overthrow of existing leadership, and has given rise to increased political uncertainty across the region. Further, the UAE, along with other Arab states, is currently participating in the Saudi Arabian led military intervention in the Republic of Yemen which began in 2015 in response to requests for assistance from the Yemeni government. The UAE is also a member of another Saudi Arabian led military coalition formed in December 2015 to combat

Islamic extremism and, in particular, Islamic State. Additionally, in June 2017 a number of MENA countries including the UAE, the Kingdom of Saudi Arabia, the Kingdom of Bahrain and the Arab Republic of Egypt severed diplomatic relations with the State of Qatar, citing Qatar's alleged support for terrorism and accusing Qatar of creating instability in the region. The termination of diplomatic relations included the withdrawal of ambassadors and imposing trade and travel bans. Furthermore, since the United States withdrawal from its nuclear deal with Iran in 2018, there has been increased tension between these two countries. In January 2020, the United States carried out a military strike which killed a senior Iranian military commander. As a result of this military strike, Iran launched missiles at a U.S. base in Iraq. Furthermore, in September 2019, an attack on two Saudi Aramco oil facilities forced the Saudi government to shut down a significant amount of oil production temporarily and led to a temporary increase in oil prices.

These situations have caused significant disruption to the economies of affected countries and have had a destabilising effect on international oil and gas prices. Continued instability affecting the countries in the MENA region could adversely impact the UAE although to date there has been no significant impact on the UAE.

Challenging economic conditions and the sharp decline in oil prices since mid-2014 (which prices were approximately 83.6 per cent. lower in April 2020, as compared to June 2014, according to the monthly OPEC basket price of oil) have resulted in larger budget deficits across the GCC economies coupled with reduced fiscal budgets and public spending (see further "*Market risk*"). While the UAE Government's policies (such as adjusting public spending to a weaker medium-term outlook for oil prices, upgrading the prudential framework and diversifying revenues) have generally resulted in improved economic performance, there can be no assurance that such level of performance can be sustained or that the UAE Government will not implement regulations, fiscal or monetary policies (including regulations, policies or new legal interpretations of existing regulations) relating to or affecting taxation, interest rates or exchange controls, or otherwise take actions which could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

Furthermore, the OPEC Reference Basket price has fallen throughout 2020. In early March 2020, OPEC officials proposed a plan to the members of OPEC and other non-OPEC member countries, including Russia, to cut global production by 1.5 per cent. No agreement was reached, ending a three-year partnership between OPEC and major non-OPEC oil exporters. This also resulted in 'OPEC plus' failing to extend the agreement of cutting 2.1 million barrels per day that was set to expire at the end of March 2020. In March 2020, Saudi Arabia announced that it would raise oil output and discount its oil in April 2020. As a result of the above factors and the COVID-19 outbreak (discussed further below), the OPEC Reference Basket prices fell significantly and as at 15 May 2020, the OPEC Reference Basket price was U.S.\$26.54. Furthermore, certain oil prices turned negative during April 2020 (with the West Texas Intermediate benchmark falling as low as minus U.S.\$37.63 a barrel), as weakened demand as a result of the COVID-19 outbreak led to buyers being paid to take oil due to storage capacity concerns.

The macro-economic environment (both globally and within the UAE) has also been materially affected by the novel coronavirus which causes the disease known as COVID-19, which was first identified in Wuhan, Hubei Province, China in December 2019. In response to the highly contagious and sometimes fatal COVID-19 virus that infected tens of thousands of people in China, the Chinese government imposed travel restrictions and quarantines to help control its spread. However, while the spread of the COVID-19 virus has slowed in China, it has spread to many countries around the world. As it has spread, other countries, such as Iran, Italy, the United Kingdom and the United States, have also been similarly impacted. In March 2020, the United States, certain EU countries and countries in the Middle East, including the UAE, began imposing travel restrictions, as well as other restrictions, which aim to reduce in-person interactions. These measures, while aimed to slow the spread of the COVID-19 virus, have significantly reduced economic activity in many countries around the world. It is currently unclear how long these restrictions will be in place and what their ultimate impact will be on global and local economies, as well as the price of oil. The economic impact of the COVID-19 virus has already included significant volatility in financial markets and reduced global liquidity and investment, and it may lead to lower economic growth in the GCC and globally.

In response to the COVID-19 impact on their domestic economies, various governments around the world have announced fiscal stimulus packages and numerous central banks have cut interest rates. Specifically, on 3 March 2020, the U.S. Federal Reserve cut its target range for the federal funds rate from 1.50 to 1.75 per cent. to 1.00 to 1.25 per cent. and, on 15 March 2020, it was cut further to 0 to 0.25 per cent. On 16 March 2020, the UAE Central Bank cut the interest rate applicable to one-week certificates of deposit by 75 basis points from 1.00 per cent. to 0.25 per cent. and reduced rates applicable to the interim margin lending facility and the collateralised murabaha facility by 50 basis points to 50 basis points above the repurchase rate for UAE Central Bank certificates of deposits. Further announcements could be forthcoming and it is unclear what impact these measures will ultimately have on their respective economies.

There can be no assurance that either the economic performance of, or political stability in, the countries in which SIB currently operates or may in the future operate can or will be sustained. Whilst SIB believes that it has implemented the appropriate policies, systems and processes to control and mitigate these risks (see further "*Description of Sharjah Islamic Bank PJSC – Risk Management*"), investors should note that a worsening of current financial market conditions, instability in certain sectors of the UAE or regional economy or major political upheaval therein could lead to further decreases in investor and consumer confidence, further market volatility and decline, further economic disruption, further decline in real estate markets and, as a result, could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

### ***Liquidity risk***

Liquidity risk is the risk that SIB may be unable to meet its payment obligations when they fall due under normal and stressed circumstances. Liquidity risks could arise from the inability of SIB to fund an increase in assets and meet obligations as they become due (structural funding risk) or the inability to convert assets into cash at reasonable prices (market liquidity risk). The risk arises from mismatches in the amount and timings of cash flows.

A dislocated credit environment creates the risk that SIB will not be able to access funds on favourable terms. For instance, although SIB has access to a diverse liquidity pool, including in the form of deposits, interbank borrowings, syndicated financing and capital market instruments, the movement of global interest rates can cause a negative effect on liquidity (see "*Market risk*" and "*Political, economic and related risks*" in relation to current instability of interest rates across global markets, including in light of the COVID-19 outbreak). Moreover, although SIB considers that it has adequate access to sources of funding, the withdrawal of a significant proportion of its largest deposits may have an adverse on SIB's liquidity position (see further "*Concentration Risk*"). These and other factors could also lead creditors to form a negative view of SIB's liquidity, which could result in less favourable credit ratings, higher funding costs and less accessible funds. Furthermore, in circumstances where financial institutions generally have ongoing limitations on their access to other sources of funding such as wholesale market derived funding, SIB's access to funds and its cost of funding (profit paid or expected to be paid) may be adversely affected. All of these factors related to liquidity risk could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

### ***Liability mismatch risk***

As at 31 December 2019, 69.70 per cent. of SIB's customers' deposits, including short-term profit-sharing investment accounts, carried a maturity of less than three months. There may therefore be a potential mismatch in the asset and liability profile of SIB. The existence of maturity profile mismatches may increase SIB's vulnerability to price competition as SIB may face increased liquidity risks to the extent that SIB becomes unable to offer an adequate rate of return to customers. This could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

### ***Credit risk***

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Credit risks arise from adverse changes in the credit quality and recoverability of financings, advances and amounts due from counterparties are inherent in the business of SIB. In particular, SIB is exposed to credit risk through financing receivables, ijarah receivables, balances with banks and financial institutions, international murabaha and wakalah with financial institutions, other assets and debt securities.

Credit risks could arise from a deterioration in the credit quality of specific counterparties of SIB, from a general deterioration in local or global economic conditions or from systemic risks within the financial systems, all of which could affect the recoverability and value of the assets of SIB which would require an increase in the provisions for the impairment of its assets and other credit exposures. As at the date of this Base Prospectus, the prevailing unstable macro-economic climate has prompted reduced fiscal budgets and public spending plans in recent years in the UAE and across the GCC economies, with particular concerns around the ongoing impact of the volatility of global crude oil prices, the effects of the economic slowdown in emerging markets generally, volatility in the Chinese economy in particular, and the broader impact thereof on global debt and equity markets, and the COVID-19 outbreak (see further "*The UAE's economy is highly dependent upon its oil revenues*" and "*Political, economic and related risks*").

As a result of these recent adverse market conditions (see "*Market risk*"), certain customers to which SIB directly extends credit and counterparties of SIB may experience decreased revenues, financial losses, insolvency, difficulty in obtaining access to financing and increased funding costs and some of these companies have been unable to meet

their service obligations or other expenses as they become due, including amounts payable to SIB. For instance, the COVID-19 outbreak could have a material adverse effect on the businesses of customers and counterparties of SIB in the aviation, hospitality, real estate and retail sectors, resulting in them defaulting on amounts payable to SIB. Although SIB maintains a credit risk management strategy (see further "*Description of Sharjah Islamic Bank PJSC – Risk Management*"), there can be no assurance that such measures eliminate or reduce, or will continue to eliminate or reduce, credit risks. Accordingly, SIB may experience a higher level of credit defaults (including non-performing financings and consequential increases in impairment allowances for doubtful financings and advances) in the immediate future, which could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

***A substantial increase in new impairment allowances or losses greater than the level of previously recorded impairment allowances for doubtful loans and advances to customers would adversely affect SIB's results of operations and financial condition***

In connection with lending activities, SIB periodically establishes impairment allowances for loan losses, which are recorded in its income statement. SIB's overall level of impairment allowances is based upon its assessment of prior loss experience, the volume and type of lending being conducted, collateral held, industry standards, past due loans, economic conditions and other factors related to the recoverability of various loans. Although SIB endeavours to establish an appropriate level of impairment allowances based on its best estimate of the amount of incurred loss, it may have to significantly increase its impairment allowances for loan losses in the future as a result of increases in non-performing assets, deteriorating economic conditions leading to increases in defaults and bankruptcies, or for other reasons. For more information, see "*Political, economic and related risks*" and note 4(b) (*Impact of COVID-19 and revision to forward looking information with respect to expected credit losses*) to the Q1 2020 Financial Statements. Any significant increase in impairment allowances for loan losses or a significant change in SIB's estimate of the risk of loss inherent in its portfolio of non-impaired loans, as well as the occurrence of loan losses in excess of the impairment allowances allocated with respect thereto, would have an adverse effect on its business, results of operations and financial condition.

***Concentration risk***

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations in the financing and deposit portfolio of SIB subject it to further credit risks in the form of default by its larger borrowers, exposure to particular sectors of the UAE economy and/or withdrawal of large deposits. Concentration of credit risk by (a) industrial sector for income from Islamic financing and (b) geographical distribution for (i) cash and balances with banks and financial institutions and (ii) international murabaha and wakalah arrangements with financial institutions, are set out in the 2019 Financial Statements (which are incorporated by reference in this Base Prospectus).

In addition, SIB's 10 largest private sector borrowers represented 11.82 per cent. of SIB's total gross financings and receivables as at 31 December 2019. As at 31 December 2019, SIB's largest funded exposure to a private sector borrower was AED 701 million, which constituted 2.67 per cent. of SIB's total gross financings and receivables (as at 31 December 2019) and 9.39 per cent. of its total regulatory capital (total regulatory capital being AED 7.5 billion as at 31 December 2019).

In terms of the industry concentration of SIB's loan portfolio, as at 31 December 2019, financing to individuals (including high net worth individuals) accounted for 21 per cent. of SIB's gross loans (compared to 27 per cent. as at 31 December 2018), the Government of Sharjah, other local governments and their respective dependencies accounted for 27 per cent. (compared to 29 per cent. as at 31 December 2018), trade and manufacturing accounted for 9 per cent. (compared to 7 per cent. as at 31 December 2018), construction and real estate combined accounted for 29 per cent. (compared to 25 per cent. as at 31 December 2018) and other sectors accounted for 14 per cent. (compared to 12 per cent. as at 31 December 2018).

As at 31 December 2019, SIB's wholesale banking customers represented 82.6 per cent. of its combined total deposits (compared to 82 per cent. as at 31 December 2018). Although SIB considers that it has adequate access to sources of funding, the withdrawal of a significant portion of these large deposits may have an adverse effect on the financial condition and results of operations of SIB as well as its ability to meet the UAE Central Bank target stable resources ratio of 100 per cent. (see further "*Liquidity risk*").

A downturn in the fortunes of any of SIB's depositors or in the sectors in which they operate, such as aviation, hospitality, real estate and retail (for example, as a result of the COVID-19 outbreak discussed in "*Political,*

*economic and related risks*" and "*- Credit risk*"), could have an adverse effect on the business, results of operations, financial condition and prospects of SIB.

Further, investors should note that SIB is incorporated in, and has all of its material operations and assets located in, the UAE. SIB has no material operations or assets outside of the UAE. Accordingly, SIB may have insufficient assets located outside the UAE to satisfy in whole or in part any judgment obtained from an English court relating to amounts owing in connection with the Certificates. If investors were to seek enforcement of an English judgment in the UAE or to bring proceedings in relation to the Certificates in the UAE, then certain limitations would apply (see further "*Risk factors relating to enforcement*" and "*Risk factors relating to the Assets – Transfer of the Assets*").

Additionally, as all of SIB's material operations and assets are located in the UAE, its business may be affected by the financial, political and general economic conditions prevailing from time to time in the UAE and/or the Middle East (see further "*- Political, economic and related risks*"). Investors are advised to make, and will be deemed by the Dealers, the Delegate, the Agents and SIB to have made, their own investigations in relation to such factors before making any investment decisions in relation to the Certificates. The UAE and Middle East markets are subject to greater risks than more developed markets, including in some cases significant legal, economic and political risks. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in the light of those risks, their investment is appropriate. Generally, investment is only suitable for sophisticated investors who fully appreciate the significance of the risk involved.

### ***Operational and compliance risk***

Operational risk is the risk of a direct or indirect loss arising from a wide variety of causes associated with SIB's processes, personnel, technology and infrastructure and from external factors, other than credit, market and liquidity risks, such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks and losses can result from fraud, error by employees, failure to document transactions properly or to obtain proper internal authorisation, failure to comply with regulatory requirements and conduct of business rules, lapses in any operational controls, the failure of internal systems, equipment and external systems (e.g., those of SIB's counterparties or vendors) and occurrence of natural disasters.

Compliance risks include the monitoring of and compliance with codes of conduct, fraud investigations and adherence to anti money laundering (AML) and know your customer (KYC) policies, as well as SIB's internal policies and procedures and other regulatory requirements (see further "*Description of Sharjah Islamic Bank PJSC – Risk Management*"). Although SIB's policies are designed to mitigate these risks, it is not possible to eliminate compliance risks entirely.

Should any of the foregoing risks materialise, this could have a material adverse effect on SIB's business, reputation, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

### ***Market risk***

Market risk refers to the risk that SIB's income and/or value of a financial instrument will fluctuate because of changes in market rates such as profit rates, foreign exchange rates and market prices of equity. SIB is exposed to market risk through its diverse financial instruments including sukuk, equities, investment funds and foreign currencies.

SIB, in common with other financial institutions, is susceptible to changes in the macro-economic environment and the performance of financial markets generally. As at the date of this Base Prospectus, global debt and equity markets have again been adversely impacted by the ongoing volatility in the macro-economic climate. For instance, the prevailing macro-economic climate has prompted reduced fiscal budgets and public spending plans in recent years in the UAE and across the GCC economies, with particular concerns around the ongoing impact of the volatility of global crude oil prices, the effects of the economic slowdown in emerging markets generally, the impact of the COVID-19 outbreak (see further "*- Political, economic and related risks*" below), and the broader impact thereof on global debt and equity markets, as well as the current uncertainty of interest rates across global markets. Contributing factors to such uncertainty include the decisions between December 2015 and December 2018, of the U.S. Federal Reserve to increase U.S. overnight interest rates by an aggregate 225 basis points (in nine separate increments of 25 basis points each). Throughout 2019, the U.S. Federal Reserve lowered the U.S. overnight interest rate by an aggregate 75 basis points (in three separate increments of 25 basis points each), and in response to the COVID-19 outbreak, the U.S. Federal Reserve rates were lowered further as discussed in "*-Political, economic and related risks*" below. Any future movements in such rates could further exacerbate the reduced liquidity environment. Additionally, the pressures faced by regional oil producing countries in response to the ongoing oil crisis to remove the foreign exchange "peg" of their domestic currencies to the U.S. dollar poses systemic risks to

the banking systems in the GCC (see further "*Foreign exchange movements may adversely affect the profitability of SIB*").

The performance of global financial markets has also been affected by the hostile economic environment, with international equity markets being particularly impacted by the economic slowdown in emerging markets generally and volatility in the Chinese economy in particular, where economic growth slowed during 2018 to 6.6 per cent. of GDP, representing a 28-year low (source: World Bank). These volatile market conditions have resulted in reduced liquidity, widening of credit spreads and lack of price transparency in credit and capital markets.

These adverse market conditions have impacted investment markets both globally and in the UAE, with increased volatility in interest rates and exchange rates. The business, results of operations, financial condition and prospects of SIB may be materially adversely affected by these trends and may be further materially adversely affected by a continuation of the general unfavourable economic conditions in the other countries of the GCC and emerging markets generally as well as by United States, European and international trading market conditions and/or related factors.

Although SIB has implemented market risk limits and regularly monitors its exposure, it is not possible to eliminate market risks entirely, and major fluctuations in profit rates, foreign exchange rates or market prices of equity could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

#### ***Foreign exchange movements may adversely affect the profitability of SIB***

SIB maintains its financial statements and reports its results in UAE dirham. The UAE dirham has been pegged at a fixed exchange rate to the U.S. dollar since 22 November 1980 and remains pegged as at the date of this Base Prospectus.

In response to the continuing oil price crisis, certain regional oil producing countries that have traditionally "pegged" their domestic currencies to the U.S. dollar have faced pressure to remove these foreign exchange "pegs". As at the date of this Base Prospectus, each of Kazakhstan and Azerbaijan have chosen to unwind the U.S. dollar peg of their domestic currencies. While the likelihood of the GCC states pursuing a similar course of action is unclear (the UAE Central Bank has publically stated its intention to retain the UAE dirham peg against the U.S. dollar), there remains a risk that any such future de-pegging by the GCC states (in the event that the current challenging market conditions persist for a prolonged period) would pose a systemic risk to the regional banking systems by virtue of the inevitable de-valuation of any such de-pegged currency against the U.S. dollar and the impact this would have on the open cross-currency positions held by regional banks, including SIB. Further, any de-pegging could adversely impact SIB's net profit margins and borrowing costs. As at 31 December 2019, 97.3 per cent. of SIB's total borrowings were denominated in U.S. dollars (88 per cent. as at 31 December 2018 and 81.3 per cent. as at 31 December 2017).

Should any of the foregoing materialise, this could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

#### ***Limited profitability***

SIB maintains a conservative outlook towards its growth plans which are based on a prudent risk management approach of increasing the size of its financing portfolio and investment securities (predominantly sukuk investments) by focusing only on medium to long term financing with a limited number of counterparties. Whilst this is a prudent approach that is consistent with SIB's cautious attitude to risk, the maintenance of a small financing portfolio may restrict SIB's potential to maximise profit, which could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

#### ***Impact of regulatory changes and legal risk***

Legal risk is the risk of losses occurring due to legal or regulatory action that invalidates or otherwise precludes performance by SIB or any of its counterparties under the terms of its contractual agreements. Additionally, SIB may face certain legal risks from private actions brought against it.

SIB is subject to the laws, regulations, administrative actions and policies in the UAE. These regulations may limit SIB's activities and changes in supervision and regulation could materially adversely affect SIB's business, the products or services offered, the value of its assets, and its financial condition. Future changes in regulatory, fiscal,

taxation or other policies which have a material adverse effect on the businesses, results of operations, financial condition and prospects of SIB cannot be predicted and are beyond the control of SIB. For example, Federal Law No. (14) of 2018 Regarding the Central Bank & Organization of Financial Institutions and Activities (the **2018 Federal Law**) (Article 116) indicates that the UAE Central Bank shall establish a resolution framework for financial institutions, pursuant to which, in the case of a deficiency in an institution's financial position, the UAE Central Bank may take certain actions for the protection of the concerned institution and its depositors. These may include (without limitation) requesting a court to liquidate or declare bankrupt such institution, or prepare a plan for transfer of its assets and liabilities, in accordance with established laws. The timing and content for any such framework are uncertain. The exercise (or perceived likelihood of exercise) of any such action by the UAE Central Bank or any suggestion of such exercise could materially adversely affect the value of the Certificates and could lead to holders losing some or all of their investment in Certificates.

As a participant in the regulated financial services industry, it is likely that SIB may experience, from time to time, a level of litigation and regulatory scrutiny related to its businesses and operations which may, if adversely determined, have a material adverse effect on SIB's business, reputation, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

***If the Trustee or SIB fails to comply with applicable anti-money laundering, anti-terrorism financing, sanctions and other related regulations, it could face fines and damage to its reputation***

The Trustee and SIB are required to comply with applicable anti-money laundering, anti-terrorism financing laws, sanctions and other regulations. These laws and regulations require the Trustee and SIB, among other things, to adopt and enforce KYC policies and procedures and to report suspicious and large transactions to the applicable regulatory authorities. The Trustee and SIB have adopted KYC/AML policies and procedures and reviews them regularly in light of any relevant regulatory and market developments. To the extent the Trustee or SIB may fail to fully comply with applicable laws and regulations, the relevant government agencies to which it reports have the power and authority to impose fines and other penalties on the Trustee or SIB, as applicable. In addition, the Trustee and SIB's business and reputation could suffer if customers use the Trustee or SIB for money laundering or other illegal purposes.

***The UAE's economy is highly dependent upon its oil revenues***

Although the UAE has a more diversified economy than most of the other countries in the GCC, the UAE's economy is highly dependent upon its oil and affiliated sectors' revenues. According to the OPEC website, the price of the OPEC Reference Basket has fluctuated significantly in recent years, although with some recovery to a monthly average price of U.S.\$ 66.48 per barrel in December 2019. However, the OPEC Reference Basket price has fallen throughout 2020 (see further "*Political, economic and related risks*") and as at 15 May 2020, the OPEC Reference Basket price was U.S.\$26.54. If there is a continued downward trend in international prices for hydrocarbon to previously seen lows into the future, this could therefore have a material adverse effect on SIB's clients, customers and depositors and therefore on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents.

Oil prices have fluctuated in response to changes in many factors over which SIB has no control. These factors include, but are not limited to:

- economic and political developments in oil producing regions, particularly in the Middle East;
- global and regional supply and demand dynamics, and expectations regarding future supply and demand, for oil products;
- the ability of members of OPEC and other crude oil producing nations to agree upon and maintain specified global production levels and prices;
- the impact of international environmental regulations designed to reduce carbon emissions;
- other actions taken by major crude oil producing or consuming countries;
- prices and availability of alternative fuels;
- global economic and political conditions;
- prices and availability of new technologies using alternative fuels; and
- global weather and environmental conditions.

### ***Principal shareholders and Governmental interests***

As at the date of this Base Prospectus, the Government of Sharjah holds, directly and indirectly, 37.55 per cent. and Kuwait Finance House holds 18.18 per cent. of the share capital of SIB. By virtue of such shareholding in SIB, the Government of Sharjah has the ability to influence the business of SIB through its ability to control actions that require shareholder approval. If circumstances were to arise where the interests of the Government of Sharjah conflict with the interests of the Certificateholders, the latter could be disadvantaged. The Government of Sharjah could, for example, cause SIB to pursue transactions, make dividend payments or other distributions or payments to shareholders or undertake other actions to implement governmental policy rather than to foster the commercial interests of SIB. The Government of Sharjah has publicly declared that it is exploring ways to rationalise and consolidate entities in the financial services sector based in the Emirate, which may result in the consolidation of one or more such entities.

The Government of Sharjah may, whether directly or through government-owned entities, at any time and for any reason, dispose of its investments in, withdraw its deposits from, cease to do business with or otherwise cease to support SIB, which could have a material adverse effect on SIB's business, results of operations, financial condition and prospects.

The Government of Sharjah does not explicitly or implicitly guarantee the financial obligations of SIB (including in respect of the Certificates to be issued) nor does it, like any other shareholder, have any legal obligation to provide any support or additional funding for SIB's future operations.

### ***Competition***

SIB faces competition in all of its business areas from domestic and foreign banks operating in the UAE. SIB faces competition from both Islamic banks and conventional banks.

The UAE could be viewed as an over-banked market, even by regional standards, with 21 locally incorporated banks and 27 foreign banks licensed to operate inside the UAE as at 31 March 2020 (source: UAE Central Bank), serving a population estimated to be in the region of 9.8 million people at the end of 2018 (source: Statistical Yearbook 2019 edition, United Nations Department of Economic and Social Affairs, Statistics Division). There has traditionally been little impetus for consolidation. However, the mergers between National Bank of Abu Dhabi and First Gulf Bank, which was consummated on 30 March 2017, and Abu Dhabi Commercial Bank, Union National Bank and Al Hilal Bank, which was consummated on 1 May 2019, are anticipated to stimulate further moves towards greater consolidation amongst UAE banks. In addition, in January 2020, Dubai Islamic Bank PJSC completed the acquisition of Noor Bank PJSC. Such mergers are likely lead to a significant alteration of the competitive environment with fewer, larger locally incorporated banks competing for the larger financing transactions in the region with the foreign banks, which have tended to have comparatively larger franchises, with greater infrastructure and resources with which to absorb capital costs, such as information technology system development.

Generally, the banking market in the UAE has been a relatively protected market with high regulatory and other barriers to entry for foreign financial institutions. However, should some of these barriers be removed or eased in the future, either voluntarily or as a result of the UAE's obligations to the World Trade Organisation (the **WTO**), the GCC or any other similar entities, it is likely to lead to a more competitive environment for SIB and other domestic financial institutions. Such increase in competition could have a material adverse effect on SIB's business, financial condition, results of operations or prospects and thereby affect its ability to perform its obligations under the Transaction Documents (see further "*Description of Sharjah Islamic Bank PJSC – SIB's Competition*").

### **Risk factors relating to enforcement**

#### ***UAE Bankruptcy Law***

In the event of SIB's insolvency, UAE bankruptcy law may adversely affect SIB's ability to perform its obligations under the Transaction Documents to which it is a party and, consequently, the Trustee's ability to perform its obligations in respect of the Certificates and to make payments to Certificateholders. There is little precedent to predict how claims by or on behalf of Certificateholders and/or the Delegate against SIB would be resolved and therefore there can be no assurance that Certificateholders will receive payment of their claims in full or at all in these circumstances.

## ***Enforcement risk***

Ultimately, the payments under the Certificates are dependent upon SIB making payments to the Trustee in the manner contemplated under the Transaction Documents. If SIB fails to do so, it may be necessary to bring an action against it to enforce its obligations and/or to claim damages, as appropriate, which may be costly and time consuming.

Furthermore, to the extent that the enforcement of remedies must be pursued in the UAE, it should be borne in mind that there is limited scope for self-help remedies under UAE law and that generally enforcement of remedies in the UAE must be pursued through the courts.

SIB has irrevocably agreed that each of the Master Trust Deed, each Supplemental Trust Deed, the Agency Agreement, the Service Agency Agreement and the Purchase Undertaking (the **Relevant Documents**) will be governed by English law and that any dispute arising from such documents will, unless the option to litigate has been exercised, be referred to arbitration in London under the LCIA Arbitration Rules. The 1958 New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the **New York Convention**) entered into force in the UAE on 19 November 2006. Any arbitration award rendered in London should therefore be enforceable in Sharjah in accordance with the terms of the New York Convention. Under the New York Convention, the UAE has an obligation to recognise and enforce foreign arbitration awards, unless the party opposing enforcement can prove one of the grounds under Article V of the New York Convention to refuse enforcement, or the Sharjah courts find that the subject matter of the dispute is not capable of settlement by arbitration or enforcement would be contrary to the public policy of the UAE.

How the New York Convention provisions would be interpreted and applied by the UAE courts in practice and whether the UAE courts will enforce a foreign arbitration award in accordance with the New York Convention (or any other multilateral or bilateral enforcement convention), remains largely untested. The uncertainty regarding the interpretation and application of the New York Convention provisions by the UAE courts is further reinforced by the lack of a system of binding judicial precedent in the UAE and the independent existence of different emirates within the UAE, some with their own court systems independent of the federal system, and whose rulings may have no more than persuasive force within other emirates. Although there are examples of foreign arbitral awards being enforced in the UAE under the New York Convention, there are other cases where the enforcement of foreign arbitral awards have been refused, with, for example, the relevant judge confusing the requirements for the enforcement of domestic awards with the requirements for the enforcement of foreign awards under the UAE Federal Law No. 1 of 1992 as amended, or ignoring the provisions of Article 238 of Federal Law No. 11 of 1992 (as amended by Federal Law No. 30 of 2005). Federal Cabinet Resolution No. 57 of 2018 (the **Resolution**) governs the enforcement of foreign arbitral awards. The Resolution confirms that arbitral awards issued in a foreign state may be enforced in the UAE and that the conditions for enforcement of foreign arbitral awards set out in the New York Convention take precedence over the Resolution. There remains a risk that notwithstanding the Resolution or the terms of an applicable multilateral or bilateral enforcement convention, the UAE courts may in practice still consider and apply the grounds set out in Federal Law No. 6 of 2018 (the **UAE Arbitration Law**) related to the enforcement of domestic arbitral awards (as provided in Articles 52 to 57 of the UAE Arbitration Law) to the enforcement of any non-UAE arbitral award. The UAE Arbitration Law and the Resolution are both new and it is unclear how they will be applied by the UAE courts in practice. Accordingly, there is a risk that a non-UAE arbitral award will be refused enforcement by the UAE courts.

Under the Conditions and the Relevant Documents, any dispute may also be referred by certain parties (other than SIB) to the courts in England or any other court(s) of competent jurisdiction. Where an English judgment has been obtained, there is no assurance that SIB has or would at the relevant time have assets in the United Kingdom against which such a judgment could be enforced. SIB is a UAE company and is incorporated in and has all of its material operations and assets located in the UAE. Under current UAE law, the UAE courts (including courts of Sharjah) are unlikely to enforce an English judgment without re-examining the merits of the claim and may not observe the choice by the parties of English law as the governing law of the Relevant Documents or the Certificates. In the UAE, foreign law is required to be established as a question of fact and the interpretation of English law, by a court in the UAE, may not accord with the interpretation by an English court. In principle, courts in the UAE recognise the choice of foreign law if they are satisfied that an appropriate connection exists between the relevant transaction agreement and the foreign law which has been chosen. However, even if English law is accepted as the governing law, this will only be applied to the extent that it is compatible with the laws of Sharjah, the UAE and public policy, order or morals in the UAE. This may mean that the Sharjah courts may seek to interpret English law governed documents as if governed by UAE law and there can therefore be no certainty that in those circumstances the Sharjah courts would give effect to such documents in the same manner as the parties may intend or uphold an agreement to resolve any disputes by arbitration contained in such documents. The enforcement of a foreign judgment or arbitral award may be a lengthy process in the UAE. In addition, in the event that a dispute is referred, for whatever reason, to the courts in Sharjah, the related document(s) may not be enforceable or admissible in

evidence before such courts unless translated into Arabic. In the event of a conflict between the English text and the Arabic text, the courts in Sharjah would rely on the Arabic version.

As stated above, the UAE judicial system is based on a civil code and judicial precedents in the UAE have no binding effect on subsequent decisions. In addition, there is no formal system of reporting court decisions in the UAE. These factors create greater judicial uncertainty than would be expected in some other jurisdictions.

### ***Waiver of sovereign immunity***

SIB has in the Transaction Documents waived its rights, if any, to sovereign immunity. However, there can be no assurance as to whether such waivers of immunity from suit, execution or attachment or other legal process by SIB under the Transaction Documents to which it is a party are valid and binding under the laws of the UAE and applicable in Sharjah.

### **Risk factors relating to the Certificates**

#### ***The regulation and reform of benchmarks may adversely affect the value of Certificates linked to such benchmarks.***

LIBOR, EURIBOR and other indices which are deemed to be benchmarks are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Certificates linked to such a benchmark.

The Benchmarks Regulation was published in the Official Journal of the EU on 29 June 2016 and became applicable from 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU and, as at the date of this Base Prospectus, the UK. Among other things it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based or non-UK based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU or UK supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based or non-UK based, not deemed equivalent or recognised or endorsed).

Any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, and in a subsequent speech by its Chief Executive on 12 July 2018, the FCA confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the **FCA Announcements**). The FCA Announcements indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. In the event that a published LIBOR rate or any other benchmark rate is unavailable, the rate on Certificates for which the Floating Periodic Distribution Provisions are applicable using LIBOR or such other benchmark as a reference rate will be determined as set forth in Condition 7 (*Floating Periodic Distribution Provisions*) which may result, amongst other things, in the effective application of a fixed rate for such Certificates based on the Rate for the last preceding Return Accumulation Period.

It is not possible to predict with certainty whether, and to what extent, certain benchmarks (including LIBOR) will continue to be supported going forwards. This may cause such benchmarks to perform differently than they have done in the past, and may have other consequences which cannot be predicted.

Such factors may have (without limitation) the following effects on certain benchmarks: (i) discourage market participants from continuing to administer or contribute to such benchmark; (ii) trigger changes in the rules or methodologies used in the benchmarks; or (iii) lead to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international, national or other proposals for reform or other initiatives or investigations, could have a material adverse effect on the value of and return on any Certificates linked to a benchmark.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms, investigations and licensing issues in making any investment decision with respect to the Certificates linked to a benchmark.

### ***Absence of secondary market/limited liquidity***

There is no assurance that a secondary market for the Certificates of any Series will develop or, if it does develop, that it will provide the Certificateholders with liquidity of investment or that it will continue for the life of those Certificates. Accordingly, a Certificateholder may not be able to find a buyer to buy its Certificates readily or at prices that will enable the Certificateholder to realise a desired yield. The market value of Certificates may fluctuate and a lack of liquidity, in particular, can have a material adverse effect on the market value of the Certificates. Accordingly, the purchase of Certificates is suitable only for investors who can bear the risks associated with a lack of liquidity in the relevant Certificates and the financial and other risks associated with an investment in the relevant Certificates. An investor in Certificates must be prepared to hold the relevant Certificates for an indefinite period of time or until their maturity. Application has been made for the listing of certain Series to be issued under the Programme on Euronext Dublin and Nasdaq Dubai but there can be no assurance that any such listing will occur or will enhance the liquidity of the Certificates of the relevant Series.

### ***The Certificates are limited recourse obligations***

The Certificates to be issued under the Programme are not debt obligations of the Trustee. Instead, the Certificates represent an undivided ownership interest solely in the relevant Trust Assets. Recourse to the Trustee in respect of each Series is limited to the Trust Assets of that Series and proceeds of such Trust Assets are the sole source of payments on the relevant Certificates. Upon the occurrence of a Dissolution Event, the sole rights of each of the Delegate and, through the Delegate, the Certificateholders of the relevant Series will be against SIB to perform its obligations under the Transaction Documents to which it is a party.

Certificateholders will have no recourse to any assets of the Trustee or SIB in respect of any shortfall in the expected amounts due under the relevant Trust Assets. SIB is obliged to make certain payments under the Transaction Documents to which it is a party directly to the Trustee, and the Delegate will have direct recourse against SIB to recover such payments due to the Trustee pursuant to the Transaction Documents to which it is a party.

No Certificateholder shall be entitled to proceed directly against the Trustee and/or SIB unless (i) the Delegate having become bound so to proceed, fails to do so within a reasonable period of becoming so bound and such failure is continuing; and (ii) the relevant Certificateholder (or such Certificateholder together with the other Certificateholders who propose to proceed directly against the Trustee or SIB, as the case may be) holds at least one-fifth of the then aggregate outstanding face amount of the Certificates pertaining to the relevant Series. There is no assurance that the net proceeds of the realisation of any enforcement action with respect to the Trust Assets (which will be by way of enforcing SIB's and the Trustee's respective obligations under the Transaction Documents to which they are a party) will be sufficient to make all payments due in respect of the relevant Certificates. After enforcing or realising the rights in respect of the Trust Assets of a Series and distributing the net proceeds of such Trust Assets in accordance with Condition 4.2 (*Application of Proceeds from the Trust Assets*), the obligations of the Trustee in respect of the Certificates of the relevant Series shall be satisfied and neither the Delegate nor any Certificateholder may take any further steps against the Trustee to recover any further sums in respect of such Certificates and the right to receive any such sums unpaid shall be extinguished. Furthermore, under no circumstances shall the Trustee, the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets except pursuant to the Transaction Documents (which includes the Purchase Undertaking). The sole right of the Trustee, the Delegate and the Certificateholders against SIB shall be to enforce the obligation of SIB to perform its obligations under the Transaction Documents to which it is a party.

### ***The Trust may be subject to early dissolution and, in consequence, the Certificates may be redeemed early***

In the event that the amount payable on the Certificates of any Series is required to be increased to include additional amounts in certain circumstances and/or SIB is required to pay additional amounts pursuant to certain Transaction Documents, in each case as a result of certain changes affecting taxation in the Cayman Islands (in the case of the Trustee) or the UAE (in the case of SIB), or in each case any political subdivision or any authority thereof or therein having power to tax, the Trustee may redeem all but not some only of the Certificates upon giving notice in accordance with the Terms and Conditions of the relevant Certificates.

If so provided in the applicable Final Terms, a Series may be redeemed early at the option of the Trustee. Any such early redemption feature of any Certificate is likely to limit its market value. During any period when the Trustee may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the dissolution amount payable. This also may be true prior to any redemption period. The Trustee may be expected to redeem Certificates when SIB's cost of borrowing is lower than the profit rate on the Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective profit rate as high as the profit rate on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider re-investment risk in light of other investments available at that time.

## **Risk factors relating to the Assets**

### ***Ownership of the Assets***

In order to comply with the requirements of Shari'a, an ownership interest in the Assets comprised within the relevant Portfolio will pass to the Trustee under the relevant Purchase Agreement. The Trustee will declare a trust in respect of such Portfolio and the other Trust Assets in favour of the Certificateholders of the relevant Series pursuant to the relevant Trust Deed. Accordingly, Certificateholders will, through the ownership interest of the Trustee, have an ownership interest in the relevant Portfolio unless the transfer of the Portfolio is prohibited by, or ineffective under, any applicable law (see "*Transfer of the Assets*" below).

No investigation or enquiry will be made and no due diligence will be conducted in respect of any Assets comprised within any Portfolio. Such Assets will be selected by SIB and the Certificateholders, the Trustee and the Delegate will have no ability to influence such selection. Only limited representations will be obtained from SIB in respect of the Assets of any Series. In particular, the precise terms of the Assets will not be known (including whether there are any restrictions on transfer or any further obligations required to be performed by SIB to give effect to the transfer of the Assets). No steps will be taken to perfect the transfer of the ownership interest (including registration) in the Assets with any relevant regulatory authority in the UAE or otherwise give notice to any lessee or obligor in respect thereof.

In addition, if and to the extent that a third party is able to establish a direct claim against the Trustee, the Delegate or any Certificateholders on the basis of any ownership interest in the Assets of any Series, SIB has agreed in the relevant Trust Deed to indemnify the Trustee, the Delegate and the Certificateholders against any such liabilities. In the event that SIB is unable to meet any such claims then the Certificateholders may suffer losses in excess of the original face amount invested.

### ***Transfer of the Assets***

No investigation has been or will be made as to whether any Assets may be transferred as a matter of the law governing the contracts (if any) underlying such Assets, the law of the jurisdiction where such assets are located or any other relevant law. No investigation will be made to determine if the relevant Purchase Agreement will have the effect of transferring the Assets of the relevant Series of Certificates.

Nevertheless, as indicated earlier, although, in order to comply with the requirements of Shari'a, an ownership interest in the Assets comprised within the relevant Portfolio will pass to the Trustee under the relevant Purchase Agreement, the Certificateholders will not have any rights of enforcement as against the Assets and their rights are limited to enforcement against SIB of its obligation to purchase the Assets pursuant to the terms of the Purchase Undertaking. Accordingly, any such restriction on the ability of SIB to perfect the sale of the Assets to the Trustee is likely to be of limited consequence to the rights of the Certificateholders.

By way of further assurance, SIB has covenanted in the Purchase Undertaking that to the extent that any sale and purchase or transfer and assignment of any of the Assets is not valid or effective in any jurisdiction for any reason, it will make restitution in respect of those Assets, will fully accept all or any ownership interest the Trustee may have in the relevant Assets and, if that ownership interest is disputed or challenged, will fully indemnify the Trustee for the purpose of redemption in full or in part, as the case may be, of the relevant Series of Certificates and, accordingly, the amount payable under such indemnity will equal the relevant Exercise Price (see "*Description of the Principal Transaction Documents – Purchase Undertaking*"). The Purchase Undertaking is governed by English law and contains an agreement to arbitrate (subject to the option of the Trustee and the Delegate to take proceedings before the English courts. See further "*Risk factors relating to enforcement – Enforcement Risk*").

## **Additional risk factors**

### ***Credit ratings may not reflect all risks***

One or more independent credit rating agencies may assign credit ratings to the Certificates. The ratings may not reflect the potential impact of all risks related to the transaction structure, the market, the additional factors discussed above or any other factors that may affect the value of the Certificates. A credit rating is not a recommendation to buy, sell or hold securities, does not address the likelihood or timing of repayment and may be revised, suspended or withdrawn by the assigning rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the European Union (EU) or the United Kingdom and registered under the CRA Regulation (and such registration has not been

withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by non-EU or non-UK credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered or UK-registered credit rating agency or the relevant non-EU or non-UK rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

***Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade***

In relation to any issue of Certificates which have a denomination consisting of the minimum Specified Denomination (as defined in the Conditions) plus a higher integral multiple of another smaller amount, it is possible that the Certificates may be traded in amounts in excess of such minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a Certificateholder who, as a result of trading such amounts, holds a face amount of less than the minimum Specified Denomination would need to purchase an additional amount of Certificates such that it holds an amount equal to at least the minimum Specified Denomination to be able to trade such Certificates. Certificateholders should be aware that Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

If a Certificateholder holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time such Certificateholder may not receive a definitive Certificate in respect of such holding (should definitive Certificates be printed) and would need to purchase a face amount of Certificates such that its holding amounts to at least a Specified Denomination in order to be eligible to receive a definitive Certificate.

If definitive Certificates are issued, holders should be aware that definitive Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

***Shari'a rules***

The Internal Shari'a Control Committee of SIB and the Global Shari'a Supervisory Committee of Standard Chartered Bank have reviewed the Transaction Documents. However, there can be no assurance that the Transaction Documents or the issue and trading of the Certificates will be deemed to be Shari'a compliant by any Shari'a board or Shari'a scholars or the courts in the United Arab Emirates. None of the Trustee, SIB or the Dealers makes any representation as to the Shari'a compliance of the Certificates and potential investors are reminded that, as with any Shari'a views, differences in opinion are possible. Potential investors should obtain their own independent Shari'a advice as to the compliance of the Transaction Documents and the issue and trading of the Certificates with Shari'a principles.

In addition, prospective investors are reminded that the enforcement of any obligations of any of the parties would, if in dispute, either be the subject of arbitration under English law or court proceedings under the laws of: (a) Sharjah and, to the extent applicable in Sharjah, the federal laws of the UAE; or (b) England and Wales. In such circumstances, the arbitrator or, as the case may be, judge may apply the relevant law of the Transaction Document in determining the obligation of the parties. In the event that proceedings take place in a court in the United Arab Emirates and a judge sitting in such court applies core Shari'a principles in determining the obligations of the parties, potential investors should also note that the pronouncement of the Shari'a advisors would not bind that court, and any court will have the discretion to make its own determination about whether the Transaction Documents and the Certificates comply with Shari'a principles.

## STRUCTURE DIAGRAM AND CASHFLOWS

Set out below is a simplified structure diagram and description of the principal cash flows underlying each Series issued. Potential investors are referred to the terms and conditions of the Certificates and the detailed descriptions of the relevant Transaction Documents and the terms and conditions of the Certificates set out elsewhere in this Base Prospectus for a fuller description of certain cash flows and for an explanation of the meaning of certain capitalised terms used below.

### Structure Diagram

### Payments by the Certificateholders and the Trustee

On the Issue Date of each Series of Certificates, the Trustee will use the proceeds for the relevant Series to purchase from SIB a portfolio (the **Initial Portfolio**) of: (a) real estate assets (**Real Estate Ijara Assets**) (including the related real estate *ijara* contracts and all rights thereunder; provided, however, that such real estate asset is in existence on the date on which it purchases the relevant Initial Portfolio); (b) non-real estate *ijara* assets (each such asset, a **Non-Real Estate Ijara Asset**) (including the related non-real estate *ijara* contracts and all rights thereunder; provided, however, that such non-real estate asset is in existence on the date on which it enters the relevant Initial Portfolio); (c) *ijara mousoofah fizzaimah* (forward *ijara*) real estate and non-real estate assets (including any rights under such forward lease agreements) (each a **Forward Lease Asset**) in respect of which the related real estate and non-real estate asset has been delivered to (or to the order of) the underlying lessee (together with the Real Estate Ijara Assets and Non-Real Estate Ijara Assets, each an **Ijara Asset**); (d) any asset, other than an Ijara Asset, which is an income generating asset (including, without limitation, any *sukuk* or trust certificates) that has associated with it underlying tangible assets and which is originated, held or owned by SIB in accordance with the Shari'a principles laid down by SIB's Internal Shari'a Control Committee (including any agreements or documents relating to such asset) (each such asset, an **Other Tangible Asset** and, together with the Ijara Assets, each a **Tangible Asset** or an **Asset**).

The Assets, together with any Shari'a Compliant Investments and all amounts credited to the Principal Collection Account, which comprise the portfolio from time to time are together referred to in this Base Prospectus as the **Portfolio**. The Service Agent will be appointed as service agent to service each Portfolio under the terms of the Service Agency Agreement.

### ***Periodic Distribution Payments***

Prior to each Periodic Distribution Date, the Service Agent will pay to the Trustee (by way of a payment into the relevant Transaction Account) an amount reflecting returns generated (other than returns in the nature of sale, capital or principal payments) by the relevant Portfolio (**Portfolio Income Revenues**) during the relevant Distribution Period, which is intended to be sufficient to fund the Periodic Distribution Amounts payable by the Trustee under the relevant Series and shall be applied by the Trustee for that purpose.

In the event that the Portfolio Income Revenues to be paid by the Service Agent into the relevant Transaction Account on any Distribution Determination Date are greater than the Required Amount (as defined below) (having first repaid: (a) any Liquidity Facility, and/or (b) any Service Agency Liability Amounts (as defined below) for the relevant Distribution Period) for the relevant Series on the immediately following Periodic Distribution Date, the amount of any excess shall be retained by the Service Agent as a reserve and credited to a separate book-entry ledger account (in respect of each Series, the **Income Reserve Collection Account**) maintained by the Service Agent.

If there is a shortfall on any Distribution Determination Date (after transfer of the Portfolio Income Revenues into the relevant Transaction Account as described above) between: (a) the amounts standing to the credit of the relevant Transaction Account, and (b) an amount (the **Required Amount**) equal to the aggregate of the Periodic Distribution Amounts and any other amounts payable by the Trustee in respect of the relevant Certificates on the immediately following Periodic Distribution Date (a **Shortfall**), the Service Agent shall first apply the amounts standing to the credit of the relevant Income Reserve Collection Account (if any) towards such Shortfall by transferring into the relevant Transaction Account from such Income Reserve Collection Account on that Distribution Determination Date an amount equal to the Shortfall (or such lesser amount as is then standing to the credit of such Income Reserve Collection Account). If, having applied such amounts standing to the credit of the relevant Income Reserve Collection Account (if any) and after payment to the relevant Transaction Account of all other amounts payable pursuant to any other Transaction Document, any part of the Shortfall still remains, the Service Agent may either:

- (a) provide Shari'a compliant funding to the Trustee itself; or
- (b) procure Shari'a compliant funding from a third party to be paid to the Trustee,

in each case in the amount required to ensure that there is no Shortfall and on terms that such funding is repayable from Portfolio Income Revenues in the future or on the date on which the Certificates of the relevant Series are redeemed in full (each a **Liquidity Facility**).

### ***Dissolution Payments***

On each Scheduled Dissolution Date, the Trustee will have the right under the Purchase Undertaking to require SIB to purchase all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the relevant Portfolio. The exercise price payable by SIB is intended to fund the Final Dissolution Amount payable by the Trustee under the relevant Certificates.

The Trust in relation to any Series may be dissolved prior to the relevant Scheduled Dissolution Date for the following reasons: (a) redemption following a Dissolution Event; (b) an early redemption for tax reasons; (c) if so specified in the applicable Final Terms, at the option of the Trustee (following the receipt of an Exercise Notice from SIB in accordance with the terms of the Sale Undertaking) on an Optional Dissolution Date; and (d) if so specified in the applicable Final Terms, at the option of the Certificateholders on any Certificateholder Put Option Date.

In the case of sub-paragraphs (a) to (c) above inclusive, the amounts payable by the Trustee on the due date for dissolution will be funded in a similar manner as for the payment of the Final Dissolution Amount. Upon the exercise by Certificateholders of the option described in sub-paragraph (d), the Trustee will redeem the relevant Certificates on the Certificateholder Put Option Date at the Optional Dissolution Amount (**Certificateholder Put**). Any such redemption shall be funded through the exercise by the Trustee of its right under the Purchase Undertaking to require SIB to purchase all of the Trustee's rights, title, interests, benefits and entitlements in, to and under a portion of the relevant Portfolio with an aggregate Value (as defined below under "*Overview of the Principal Transaction Documents – Service Agency Agreement*") no greater than the aggregate face amount of the Certificates to be redeemed.

## FORM OF THE CERTIFICATES

The Certificates of each Series will be in registered form. Certificates will be issued outside the United States to persons who are not U.S. persons in reliance on Regulation S.

### Global Certificates

Each Series will initially be represented by a global certificate in registered form (a **Global Certificate**). Global Certificates will be deposited with a common depository for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking S.A. (**Clearstream, Luxembourg**) and will be registered in the name of a nominee for the common depository. Persons holding beneficial interests in Global Certificates will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Certificates in fully registered form (**Definitive Certificates**).

Holders of ownership interests in a Global Certificate will not have a direct right to vote in respect of the relevant Certificates. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies

### Payments to registered holder

Payments of any amount in respect of each Global Certificate will, in the absence of any provision to the contrary, be made to the person shown on the relevant Register (as defined in Condition 1.2 (*Register*)) as the registered holder of the relevant Global Certificate. None of the Trustee, the Delegate, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to payments made on account of ownership interests in the Global Certificates or for maintaining, supervising or reviewing any records relating to such ownership interests.

Payment of any amounts in respect of Certificates in definitive form will, in the absence of any provision to the contrary, be made to the persons shown on the relevant Register on the relevant Record Date (as defined in Condition 8.1 (*Payments in respect of the Certificates*)) immediately preceding the due date for payment in the manner provided in the Conditions.

### Exchange for definitives

Interests in a Global Certificate will be exchangeable (free of charge), in whole but not in part, for definitive Certificates only upon the occurrence of an Exchange Event. The Trustee will promptly give notice to Certificateholders in accordance with Condition 17 (*Notices*) if an Exchange Event occurs. For these purposes, **Exchange Event** means that: (i) a Dissolution Event (as defined in Condition 14 (*Dissolution Events*)) has occurred and is continuing; or (ii) the Trustee has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system satisfactory to the Trustee is available. In the event of the occurrence of an Exchange Event, any of the Trustee or Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Global Certificate) may give notice to the Registrar requesting exchange.

In such circumstances, the relevant Global Certificate shall be exchanged in full for Definitive Certificates and the Trustee will, at the cost of the Trustee (but against such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient Definitive Certificates to be executed and delivered to the Registrar within 15 days following the request for exchange for completion and dispatch to the relevant Certificateholders. A person having an interest in a Global Certificate must provide the Registrar with a written order containing instructions and such other information as the Trustee and the Registrar may require to complete, execute and deliver such Definitive Certificates.

### General

For so long as any of the Certificates are represented by a Global Certificate held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular face amount of such Certificates in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes (save in the case of manifest error) shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates for all purposes other than with respect to any payment on such

face amount of such Certificates, for which purpose the registered holder of the relevant Global Certificate shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions **Certificateholder** and **holder of Certificates** and related expressions shall be construed accordingly.

Pursuant to the Agency Agreement, the Principal Paying Agent shall arrange that, where a further tranche is issued which is intended to form a single Series with an existing tranche at a point after the Issue Date of the further tranche, the Certificates of such further tranche shall be assigned a Common Code and ISIN Code which are different from the Common Code and ISIN Code assigned to Certificates of any other tranche of the same Series until such time as the tranches are consolidated and form a single Series.

Interests in a Certificate may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Certificate. No beneficial owner of an interest in a Certificate will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, to the extent applicable.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

## **1 FORM, DENOMINATION AND TITLE**

### **1.1 Form and Denomination**

The Certificates are issued in registered form in the Specified Denominations and, in the case of Certificates in definitive form, are serially numbered.

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream, Luxembourg**), each person (other than another clearing system) who is for the time being shown in the records of either such clearing system as the holder of a particular face amount of such Certificates (in which regard any certificate or other document issued by a clearing system as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Trustee, the Delegate, SIB and the Agents as the holder of such face amount of such Certificates for all purposes other than with respect to payment in respect of such Certificates, for which purpose the registered holder of the Global Certificate shall be treated by the Trustee, the Delegate, SIB and any Agent as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions Certificateholder and holder in relation to any Certificates and related expressions shall be construed accordingly.

In determining whether a particular person is entitled to a particular face amount of Certificates as aforesaid, the Trustee and the Delegate may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Each holder must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment made to the registered holder of the Global Certificate. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

## 1.2 ***Register***

The Registrar will maintain a register (the **Register**) of Certificateholders in respect of the Certificates in accordance with the provisions of the Agency Agreement. In the case of Certificates in definitive form, a definitive Certificate will be issued to each Certificateholder in respect of its registered holding of Certificates.

## 1.3 ***Title***

The Trustee, the Delegate, SIB and the Agents may (to the fullest extent permitted by applicable laws) deem and treat the person in whose name any outstanding Certificate is for the time being registered (as set out in the Register) as the holder of such Certificate or of a particular face amount of the Certificates for all purposes (whether or not such Certificate or face amount shall be overdue and notwithstanding any notice of ownership thereof or of trust or other interest with regard thereto, and any notice of loss or theft or any writing thereon), and the Trustee, the Delegate, SIB and the Agents shall not be affected by any notice to the contrary.

All payments made to such registered holder shall be valid and, to the extent of the sums so paid, effective to satisfy and discharge the liability for moneys payable in respect of such Certificate or face amount.

### 2.1 ***Transfers of interests in the Global Certificate***

Transfers of interests in the Global Certificate will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of transferors and transferees of such interests. An interest in the Global Certificate will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Certificates in definitive form only in the Specified Denomination or integral multiples thereof and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Trust Deed and the Agency Agreement.

### 2.2 ***Transfers of Certificates in definitive form***

Upon the terms and subject to the conditions set forth in the Trust Deed and the Agency Agreement, a Certificate in definitive form may be transferred in whole or in part (in the Specified Denomination or an integral multiple thereof). In order to effect any such transfer: (a) the holder or holders must: (i) surrender the definitive Certificate for registration of the transfer thereof (or the relevant part thereof) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing; and (ii) complete and deposit such other certifications as may be required by the relevant Transfer Agent; and (b) the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such regulations as SIB Sukuk Company III Limited, SIB, the Delegate and the Registrar may from time to time prescribe (the initial such regulations being scheduled to the Master Trust Deed).

Subject as provided above, the relevant Transfer Agent will, within five business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), deliver at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request a new Certificate in definitive form of a like aggregate face amount to the Certificate (or the relevant part of the Certificate) transferred. In the case of the transfer of part only of a Certificate in definitive form, a new Certificate in definitive form in

respect of the balance of the Certificate not transferred will be so delivered or (at the risk of the transferor) sent to the transferor.

No Certificateholder may require the transfer of a Certificate in definitive form to be registered during the period of 15 days ending on (and including) a Periodic Distribution Date, the Scheduled Dissolution Date, a Dissolution Date or any other date on which any payment of the face amount or payment of any profit in respect of a Certificate falls due.

### 2.3 *Costs of registration*

Certificateholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Trustee may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

## 3 **STATUS AND LIMITED RECOURSE**

### 3.1 *Status*

Each Certificate evidences an undivided ownership interest in the Trust Assets, subject to the terms of the Trust Deed and these Conditions, and is a direct, unsubordinated, unsecured and limited recourse obligation of the Trustee. Each Certificate ranks *pari passu*, without any preference or priority, with the other Certificates of the relevant Series issued under the Programme.

### 3.2 *Limited Recourse*

The proceeds of the Trust Assets are the sole source of payments on the Certificates of each Series. Save as provided in the next sentence, the Certificates do not represent an interest in or obligation of any of the Trustee, SIB, the Delegate, the Agents or any of their respective affiliates. Accordingly, Certificateholders, by subscribing for or acquiring the Certificates, acknowledge that they will have no recourse to any assets of the Trustee (including, in particular, other assets comprised in other trusts, if any), SIB (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party), or the Delegate, or the Agents, or any of their respective affiliates in respect of any shortfall in the expected amounts from the Trust Assets to the extent the Trust Assets have been exhausted following which all obligations of the Trustee shall be extinguished.

SIB is obliged to make certain payments under the Transaction Documents to which it is a party directly to the Trustee for, and on behalf of, the Certificateholders, and the Trustee and the Delegate (acting in the name, and on behalf, of the Trustee) will have direct recourse against SIB to recover such payments.

The net proceeds of realisation of, or enforcement with respect to, the Trust Assets may not be sufficient to make all payments due in respect of the Certificates of the corresponding Series. If, following the distribution of such proceeds, there remains a shortfall in payments due under the Certificates, subject to Condition 14 (*Dissolution Events*), no holder of Certificates will have any claim against the Trustee and/or its directors, officers, administrators or shareholders, SIB (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party), or the Delegate, or the Agents, or any of their respective affiliates or against any assets (other than the Trust Assets to the extent not exhausted) in respect of such shortfall and any unsatisfied claims of Certificateholders shall be extinguished. In particular, no holder of Certificates will be able to petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding up or receivership of SIB Sukuk Company III Limited, SIB (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party), the Delegate, the Agents or any of their respective affiliates as a consequence of such shortfall or otherwise.

### 3.3 *Agreement of Certificateholders*

By purchasing Certificates, each Certificateholder is deemed to have agreed that notwithstanding anything to the contrary contained in these Conditions or any Transaction Document:

- (a) no payment of any amount whatsoever shall be made by or on behalf of SIB Sukuk Company III Limited except to the extent funds are available therefor from the Trust Assets and further agrees that no recourse shall be had for the payment of any amount owing hereunder or under any Transaction Document to which it is a party, whether for the payment of any fee or other amount hereunder or any other obligation or claim arising out of or based upon any Transaction Document,

against SIB Sukuk Company III Limited to the extent the Trust Assets have been exhausted following which all obligations of SIB Sukuk Company III Limited shall be extinguished;

- (b) prior to the date which is one year and one day after the date on which all amounts owing by SIB Sukuk Company III Limited under the Transaction Documents have been paid in full, it will not institute against, or join with any other person in instituting against, SIB Sukuk Company III Limited any bankruptcy, reorganisation, arrangement or liquidation proceedings or other proceedings under any bankruptcy or similar law; and
- (c) no recourse (whether by institution or enforcement of any legal proceedings or assessment or otherwise) in respect of any breaches of any duty, obligation or undertaking of SIB Sukuk Company III Limited arising under or in connection with these Conditions by virtue of any customary law, statute or otherwise shall be had against any shareholder, officer or director of SIB Sukuk Company III Limited in their capacity as such and any and all personal liability of every such shareholder, officer or director in their capacity as such for any breaches by SIB Sukuk Company III Limited of any such duty, obligation or undertaking is hereby expressly waived and excluded to the extent permitted by law.

## 4 THE TRUST

### 4.1 *The Trust Assets*

On each Issue Date, the Seller will sell (pursuant to the Purchase Agreement) a portfolio (the **Initial Portfolio**) of certain assets (the **Assets**) specified in the Supplemental Purchase Contract to the Trustee and the Trustee will purchase the Initial Portfolio using the proceeds of the issue of the Certificates. The Trustee has entered into the Service Agency Agreement with the Service Agent as service agent of the Portfolio (as defined in the Service Agency Agreement).

SIB has entered into the Purchase Undertaking in favour of the Trustee and the Delegate to purchase all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Portfolio on the Scheduled Dissolution Date at the Final Dissolution Amount (each as defined in Condition 10.1 (*Scheduled Dissolution*)) or, if earlier, on the due date for dissolution determined in accordance with Condition 14 (*Dissolution Events*) at the Dissolution Amount specified in the applicable Final Terms. If Certificateholder Put Option is specified in the applicable Final Terms as being applicable, the Purchase Undertaking may be exercised prior to a Certificateholder Put Option Date (as specified in the applicable Final Terms) to fund the relevant Certificates being redeemed under Condition 10.4 (*Dissolution at the option of the Certificateholders*) through the purchase by SIB of the Trustee's rights, title, interests, benefits and entitlements in, to and under a portion of the Portfolio with an aggregate Value (as defined in the Service Agency Agreement) no greater than the aggregate face amount of such Certificates being redeemed.

Pursuant to the Sale Undertaking, subject to the Trustee being entitled to redeem the Certificates early pursuant to Condition 10.2 (*Early Dissolution for Tax Reasons*), SIB may, by exercising its option under the Sale Undertaking and serving notice on the Trustee no later than 60 days prior to the Tax Dissolution Date (as defined in Condition 10.2 (*Early Dissolution for Tax Reasons*)), oblige the Trustee to sell to SIB all of its rights, title, interests, benefits and entitlements in, to and under the Portfolio on the Tax Dissolution Date at the Early Dissolution Amount (Tax). If Optional Dissolution (Call) is specified in the applicable Final Terms as being applicable, SIB may, by exercising its option under the Sale Undertaking and serving notice on the Trustee no later than 60 days prior to the Optional Dissolution Date, oblige the Trustee to sell to SIB all of its rights, title, interests, benefits and entitlements in, to and under the Portfolio on the Optional Dissolution Date.

Following any purchase of Certificates by or on behalf of SIB or any of its Subsidiaries (as defined in Condition 13 (*Purchase and Cancellation of Certificates*)) pursuant to Condition 13 (*Purchase and Cancellation of Certificates*), the Sale Undertaking may also be exercised in respect of the transfer to SIB of an ownership interest (a **Cancellation Interest**) in the Portfolio with an aggregate Value no greater than the aggregate face amount of the Certificates so purchased against cancellation of such Certificates by the Principal Paying Agent. The Cancellation Interest will be calculated as the ratio, expressed as a percentage, of the aggregate outstanding face amount of the relevant Certificates to be cancelled to the aggregate face amount of the Certificates outstanding immediately prior to the cancellation of such Certificates.

Pursuant to the Trust Deed, the Trustee holds the Trust Assets upon trust absolutely for the holders of the Certificates in respect of a Series *pro rata* according to the face amount of Certificates held by each holder

in respect of that Series. Unless otherwise specified in the applicable Final Terms, the term Trust Assets means:

- (a) all of the Trustee's rights, title, interest and benefit, present and future, in, to and under the assets from time to time constituting the Portfolio for the corresponding Series;
- (b) the Trustee's rights, title, interest and benefit, present and future, in, to and under the Transaction Documents (other than (i) in relation to any representations given to the Trustee by SIB pursuant to any of the Transaction Documents and any rights which have been expressly waived by the Trustee in any of the Transaction Documents, and (ii) the covenant given to the Trustee pursuant to Clause 13.1 of the Master Trust Deed);
- (c) monies standing to the credit of the Transaction Account in respect of that Series specified in the applicable Final Terms (the **Transaction Account**) from time to time; and
- (d) all proceeds of the foregoing.

#### 4.2 *Application of Proceeds from the Trust Assets*

On each Periodic Distribution Date and on the Scheduled Dissolution Date or any earlier Dissolution Date for each Series, the monies standing to the credit of the Transaction Account shall be applied in the following order of priority:

- (a) *first*, to the Delegate in respect of all amounts owing to it under the Transaction Documents in its capacity as Delegate;
- (b) *second*, to the Principal Paying Agent for application in or towards payment *pari passu* and rateably of all Periodic Distribution Amounts due and unpaid;
- (c) *third*, only if such payment is made on the Scheduled Dissolution Date or a Dissolution Date, to the Principal Paying Agent for application in or towards payment *pari passu* and rateably of the relevant Dissolution Amount;
- (d) *fourth*, only if such payment is made on the Scheduled Dissolution Date or the final Dissolution Date, to the Service Agent to repay any amounts advanced by way of a Liquidity Facility (as defined in the Service Agency Agreement);
- (e) *fifth*, only if such payment is made on the Scheduled Dissolution Date or the final Dissolution Date, to the Service Agent in or towards payment of any outstanding Service Agency Liability Amounts (as defined in the Service Agency Agreement); and
- (f) *sixth*, only after all necessary payments above have been made in full, to SIB.

## 5 COVENANTS

- (a) incur any indebtedness in respect of borrowed money whatsoever (whether structured in accordance with the principles of the Shari'a or otherwise), or give any guarantee or indemnity in respect of any obligation of any person or issue any shares (or rights, warrants or options in respect of shares or securities convertible into or exchangeable for shares) or any other certificates except, in all cases, as contemplated in the Transaction Documents;

## 6 FIXED PERIODIC DISTRIBUTION PROVISIONS

### 6.1 Application

This Condition is applicable to the Certificates only if the Fixed Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

### 6.2 Periodic Distribution Amount

Subject to Condition 4.2 (*Application of Proceeds from the Trust Assets*) and Condition 8 (*Payment*) and unless otherwise specified in the applicable Final Terms, the Trustee shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account, a distribution in relation to the Certificates on each Periodic Distribution Date equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

In these Conditions:

**Periodic Distribution Amount** means, in relation to a Certificate and a Return Accumulation Period, the amount of profit distribution payable in respect of that Certificate for that Return Accumulation Period which amount may be a Fixed Amount, a Broken Amount or an amount otherwise calculated in accordance with this Condition 6 (*Fixed Periodic Distribution Provisions*) or Condition 7 (*Floating Periodic Distribution Provisions*); and

**Return Accumulation Period** means the period from (and including) a Periodic Distribution Date (or the Return Accrual Commencement Date) to (but excluding) the next (or first) Periodic Distribution Date.

### 6.3 Determination of Periodic Distribution Amount

Except as provided in the applicable Final Terms, the Periodic Distribution Amount payable in respect of each Certificate in definitive form for any Return Accumulation Period shall be the Fixed Amount or, if so specified in the applicable Final Terms, the Broken Amount so specified.

Except in the case of Certificates in definitive form where a Fixed Amount or Broken Amount is specified in the applicable Final Terms, the Periodic Distribution Amount payable in respect of each Certificate shall be calculated by applying the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms or calculated or determined in accordance with the provisions of these Conditions and/or the applicable Final Terms (the **Rate**) applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or
- (b) in the case of Certificates in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination

of a Certificate in definitive form is a multiple of the Calculation Amount, the amount of profit distribution payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In this Condition:

**Day Count Fraction** means, in respect of the calculation of Periodic Distribution Amount in accordance with this Condition:

- (a) if **Actual/Actual (ICMA)** is specified in the applicable Final Terms:
- (i) in the case of Certificates where the number of days in the relevant period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the actual number of days in such Accrual Period divided by the product of:
    - (1) the number of days in such Determination Period; and
    - (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
  - (ii) in the case of Certificates where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
    - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of: (aa) the number of days in such Determination Period; and: (bb) the number of Determination Dates that would occur in one calendar year; and
    - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of: (aa) the number of days in such Determination Period; and (bb) the number of Determination Dates that would occur in one calendar year; and
- (b) if **30/360** is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

**Determination Period** means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Return Accrual Commencement Date or the final Periodic Distribution Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

**sub-unit** means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

#### 6.4 ***Cessation of Profit Entitlement***

No further amounts will be payable on any Certificate from and including the Scheduled Dissolution Date or, as the case may be, the relevant Dissolution Date, as a result of the failure of SIB to pay the relevant Exercise Price and enter into one or more sale agreements in accordance with the terms of the Purchase Undertaking or the Sale Undertaking, as the case may be, unless default is made in the payment of the relevant Dissolution Amount in which case Periodic Distribution Amounts will continue to accrue in respect of the Certificates in the manner provided in this Condition.

## 7 **FLOATING PERIODIC DISTRIBUTION PROVISIONS**

### 7.1 ***Application***

This Condition is applicable to the Certificates only if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

## 7.2 *Periodic Distribution Amount*

Subject to Condition 4.2 (*Application of Proceeds from the Trust Assets*) and Condition 8 (*Payment*) and unless otherwise specified in the applicable Final Terms, the Trustee shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account, a distribution in relation to the Certificates on either:

- (a) the Specified Periodic Distribution Date(s) in each year specified in the applicable Final Terms; or
- (b) if no Specified Periodic Distribution Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Periodic Distribution Date, a **Periodic Distribution Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Periodic Distribution Date or, in the case of the first Periodic Distribution Date, after the Return Accrual Commencement Date.

In relation to each Periodic Distribution Date, the distribution payable will be equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which a Periodic Distribution Date should occur, or (y) if any Periodic Distribution Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 7.2(b) (*Periodic Distribution Amount*) above, the Floating Rate Convention, such Periodic Distribution Date: (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis*; or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month in which event: (i) such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day, and (ii) each subsequent Periodic Distribution Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Periodic Distribution Date occurred; or
- (B) the Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day.

In these Conditions:

**Business Day** means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Final Terms; and

**TARGET Settlement Day** means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (**TARGET2**) System (the **TARGET2 System**) is open.

### 7.3 *Screen Rate Determination*

If Screen Rate Determination is specified in the applicable Final Terms as the manner in which the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms or calculated or determined in accordance with the provisions of these Conditions and/or the applicable Final Terms (the **Rate**) is to be determined, the Rate applicable to the Certificates for each Return Accumulation Period will be determined by the Calculation Agent on the following basis:

- (a) if the Reference Rate specified in the applicable Final Terms is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (b) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (c) if, in the case of (a) above, such rate does not appear on that page or, in the case of (b) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
  - (i) request each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Periodic Distribution Determination Date to prime banks in the London or Eurozone interbank market, as the case may be, in an amount that is representative for a single transaction in that market at that time; and
  - (ii) determine the arithmetic mean of such quotations; and
- (d) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates quoted by major banks in the principal financial centre of the Specified Currency, selected by the Calculation Agent (at the direction of SIB, provided SIB receives notice of such direction being required by the Calculation Agent), at approximately 11.00 a.m. (local time in the principal financial centre of the Specified Currency) on the first day of the relevant Return Accumulation Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Return Accumulation Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate for such Return Accumulation Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Return Accumulation Period, the Rate applicable to the Certificates during such Return Accumulation Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Certificates in respect of a preceding Return Accumulation Period.

In this Condition the following expressions have the following meanings:

**Reference Banks** means the principal London office of each of four major banks engaged in the London or Eurozone inter-bank market selected by or on behalf of the Calculation Agent (at the direction of SIB, provided SIB receives notice of such direction being required by the Calculation Agent), provided that once a Reference Bank has first been selected by or on behalf of the Calculation Agent or its duly appointed representative, such Reference Bank shall not be changed unless it ceases to be capable of acting as such;

**Reference Rate** means (i) one of the following benchmark rates (as specified in the applicable Final Terms) in respect of the currency and period specified in the applicable Final Terms or (ii) any such Successor Rate (as defined in Condition 7.6 (*Benchmark Discontinuation*)) or Alternative Rate (as defined in Condition 7.6 (*Benchmark Discontinuation*)) as set out in these Conditions (in the case of either a Successor Rate or Alternative Rate, with any relevant Adjustment Spread applied):

#### 7.4 *Cessation of Profit Entitlement*

No further amounts will be payable on any Certificate from and including the Scheduled Dissolution Date or, as the case may be, the relevant Dissolution Date, as a result of the failure of SIB to pay the relevant Exercise Price and enter into one or more sale agreements in accordance with the terms of the Purchase Undertaking or the Sale Undertaking, as the case may be, unless default is made in the payment of the relevant Dissolution Amount in which case Periodic Distribution Amounts will continue to accrue in respect of the Certificates in the manner provided in this Condition.

#### 7.5 *Calculation of Periodic Distribution Amount*

The Calculation Agent will, as soon as practicable after the time at which the Rate is to be determined in relation to each Return Accumulation Period, calculate the Periodic Distribution Amount payable in respect of each Certificate for such Return Accumulation Period. The Periodic Distribution Amount will be calculated by applying the Rate applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or
- (b) in the case of Certificates in definitive form, the Calculation Amount;

and, in each case, multiplying the product by the relevant Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). Where the Specified Denomination of a Certificate in definitive form is a multiple of the Calculation Amount, the Periodic Distribution Amount payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

**Day Count Fraction** means, in respect of the calculation of a Periodic Distribution Amount in accordance with this Condition:

- (a) if **Actual/Actual (ISDA)** or **Actual/Actual** is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 (or, if any portion of that Return Accumulation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Return Accumulation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Return Accumulation Period falling in a non-leap year divided by 365);
- (b) if **Actual/365 (Fixed)** is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365;
- (c) if **Actual/365 (Sterling)** is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 or, in the case of a Periodic Distribution Date falling in a leap year, 366;
- (d) if **Actual/360** is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 360;
- (e) if **30/360 360/360** or **Bond Basis** is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + 30 \times (M_2 - M_1) + (D_2 - D_1)]}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30;

- (f) if **30E/360** or **Eurobond Basis** is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + 30 \times (M_2 - M_1) + (D_2 - D_1)]}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

- “D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31, in which case D<sub>2</sub> will be 30;
- (g) if **30E/360 (ISDA)** is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + 30 \times (M_2 - M_1) + (D_2 - D_1)]}{360}$$

where:

- “Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;
- “Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;
- “M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;
- “M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;
- “D<sub>1</sub>” is the first calendar day, expressed as a number, of the Return Accumulation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and
- “D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless (i) that day is the last day of February but not the Scheduled Dissolution Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30.

#### 7.6 **Benchmark Discontinuation:**

- (a) Notwithstanding any other provision of this Condition 7, if SIB determines that a Benchmark Event occurs in relation to the Reference Rate when the Rate (or any component part thereof) for any Return Accumulation Period remains to be determined by reference to such Reference Rate, then SIB may elect to apply the following provisions;
- (b) SIB shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with this Condition 7.6) and, in either case, an Adjustment Spread, if any (in accordance with Condition 7.6(b)(iii)) and any Benchmark Amendments (in accordance with Condition 7.6(b)(iv)).

Any Independent Adviser appointed pursuant to this Condition 7.6 shall act and make all determinations pursuant to this Condition 7.6 in good faith and in a commercially reasonable manner. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Trustee, SIB, the Delegate, the Agents or the Certificateholders for any determination made by it pursuant to this Condition 7.6 and the Delegate will not be liable for any loss, liability, cost, charge or expense which may arise as a result thereof.

- (i) If (i) SIB is unable to appoint an Independent Adviser or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7.6 prior to the relevant Periodic Distribution Determination Date, the Reference Rate applicable to the immediate following Return Accumulation Period shall be the Reference Rate applicable as at the last preceding Periodic Distribution Determination Date. If there has not been a first Periodic Distribution Date, the Reference Rate shall be the Reference Rate applicable to the first Return Accumulation Period. For the avoidance of doubt, any adjustment pursuant to this Condition 7.6(a)(i) (*Benchmark Discontinuation*) shall apply to the immediately following

Return Accumulation Period only. Any subsequent Return Accumulation Period may be subject to the subsequent operation of this Condition 7.6.

- (ii) If the Independent Adviser determines in its discretion that:
  - (1) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7.6(a)(iii)) subsequently be used in place of the Reference Rate to determine the Rate for the immediately following Return Accumulation Period and all following Return Accumulation Periods, subject to the subsequent operation of this Condition 7.6 in the event of a further Benchmark Event affecting the Successor Rate; or
  - (2) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7.6(a)(iii)) subsequently be used in place of the Reference Rate to determine the Rate for the immediately following Return Accumulation Period and all following Return Accumulation Periods, subject to the subsequent operation of this Condition 7.6 in the event of a further Benchmark Event affecting the Alternative Rate.
- (iii) If the Independent Adviser determines in its discretion (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (iv) If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7.6 and the Independent Adviser (in consultation with SIB) determines in its discretion (i) that amendments to these Conditions and/or any of the Transaction Documents are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the **Benchmark Amendments**) and (ii) the terms of the Benchmark Amendments, then Trustee and SIB shall, following consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate and the Periodic Distribution Amount(s)), subject to giving notice thereof in accordance with Condition 7.6(a)(v), without any requirement for the consent or approval of relevant Certificateholders, vary these Conditions and/or such Transaction Documents to give effect to such Benchmark Amendments with effect from the date specified in such notice (and for the avoidance of doubt, the Delegate shall, at the direction and expense of the Trustee and SIB, consent to and effect such consequential amendments to the Transaction Documents and these Conditions as may be required in order to give effect to this Condition 7.6).
- (v) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 7.6 (*Benchmark Discontinuation*) will be notified promptly by the Trustee (failing which, SIB) to the Delegate, the Calculation Agent and, in accordance with Condition 17 (*Notices*), the Certificateholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.
- (vi) No later than notifying the Delegate of the same, the Trustee shall deliver to the Delegate a certificate signed by two authorised signatories of the Trustee:
  - (1) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7.6; and
  - (2) certifying that the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread.

- (vii) The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate and such Adjustment Spread (if any) and such Benchmark Amendments (if any)) be binding on the Trustee, SIB, the Delegate, the Principal Paying Agent, the Calculation Agent and the Certificateholders.
- (c) As used in this Condition 7.6 (*Benchmark Discontinuation*):

"**Adjustment Spread**" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines is required to be applied to the relevant Successor Rate or the relevant Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) (if no such recommendation has been made, or in the case of an Alternative Rate), the Independent Adviser determines is customarily applied to the relevant Successor Rate or Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Reference Rate; or
- (iii) (if the Independent Adviser determines there is no such spread formula or methodology customarily applied) the Independent Adviser determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be);
- (iv) (if the Independent Adviser determines that no such industry standard is recognised or acknowledged) the Independent Adviser determines to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Certificateholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate.

"**Alternative Rate**" means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with this Condition 7.6 (*Benchmark Discontinuation*) is customary in market usage in the international debt capital markets for the purposes of determining floating periodic distribution rates (or the relevant component part thereof) in the Specified Currency.

"**Benchmark Event**" means:

- (i) the relevant Reference Rate has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered; or
- (ii) a public statement by the administrator of the relevant Reference Rate that (in circumstances where no successor administrator has been or will be appointed that will continue publication of such Reference Rate) it has ceased publishing such Reference Rate permanently or indefinitely or that it will cease to do so by a specified future date (the **Specified Future Date**); or
- (iii) a public statement by the supervisor of the administrator of the relevant Reference Rate that such Reference Rate has been or will, by a specified future date (the **Specified Future Date**), be permanently or indefinitely discontinued; or
- (iv) a public statement by the supervisor of the administrator of the relevant Reference Rate that means that such Reference Rate will, by a specified future date (the **Specified Future Date**), be prohibited from being used or that its use will be subject to restrictions or adverse consequences, either generally or in respect of the Certificates; or
- (v) a public statement by the supervisor of the administrator of the relevant Reference Rate (as applicable) that, in the view of such supervisor, such Reference Rate is no longer representative of an underlying market; or

- (vi) it has or will, by a specified date within the following six months, become unlawful for the Calculation Agent to calculate any payments due to be made to any Certificateholder using the relevant Reference Rate (as applicable) (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable).

Notwithstanding the sub-paragraphs above, where the relevant Benchmark Event is a public statement within sub-paragraphs (ii), (iii) or (iv) above the Benchmark Event shall be deemed to occur on the Specified Future Date and not the date of the relevant public statement, provided that where the Specified Future Date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed occur until the date falling six months prior to such Specified Future Date.

**"Benchmark Amendments"** has the meaning given to it in Condition 7.6(a)(iv).

- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof.

**"Successor Rate"** means a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

#### 7.7 *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of a Return Accumulation Period in the applicable Final Terms, the Rate for such Return Accumulation Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Return Accumulation Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Return Accumulation Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

In this Condition, **Designated Maturity** means the period of time designated in the Reference Rate.

#### 7.8 *Calculation of Other Amounts*

If the applicable Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the applicable Final Terms.

#### 7.9 *Publication*

The Calculation Agent will cause each Rate and Periodic Distribution Amount determined by it, together with the relevant Periodic Distribution Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Trustee, SIB, the Delegate and the Paying Agents and, if listed, Euronext Dublin as soon as practicable after such determination but (in the case of each Rate, Periodic Distribution Amount and Periodic Distribution Date) in any event not later than the first day of the relevant Return Accumulation Period. Notice thereof shall also promptly be given to the Certificateholders. The

Calculation Agent will be entitled to recalculate any Periodic Distribution Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Return Accumulation Period. If the Calculation Amount is less than the minimum Specified Denomination, the Calculation Agent shall not be obliged to publish each Periodic Distribution Amount but instead may publish only the Calculation Amount and the Periodic Distribution Amount in respect of a Certificate having the minimum Specified Denomination.

#### 7.10 *Notifications, etc. to be final*

All communications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition by the Calculation Agent will (in the absence of wilful default, bad faith or manifest error) be binding on the Trustee, the Delegate, SIB, the Agents and all Certificateholders and (in the absence of wilful default or bad faith) no liability shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions under this Condition.

Notice of any termination or appointment and of any changes in specified offices will be given to the Certificateholders promptly by the Trustee in accordance with Condition 17 (*Notices*).

## 10 CAPITAL DISTRIBUTIONS OF THE TRUST

### 10.1 *Scheduled Dissolution*

Upon payment in full of such amounts to the Certificateholders, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

### 10.2 *Early Dissolution for Tax Reasons*

The Certificates may be redeemed by the Trustee in whole, but not in part:

- (a) at any time (if the Fixed Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable); or
- (b) on any Periodic Distribution Date (if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable),

- (a) (1) the Trustee has or will become obliged to pay additional amounts as provided or referred to in Condition 11 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction (as defined in Condition 11(*Taxation*)) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Series; and (2) such obligation cannot be avoided by the Trustee taking reasonable measures available to it; or
- (b) the receipt by the Trustee of notice from SIB that: (1) SIB has or will become obliged to pay additional amounts pursuant to the terms of the Service Agency Agreement, the Purchase Undertaking and/or the Sale Undertaking as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date; and (2) such obligation cannot be avoided by SIB taking reasonable measures available to it,

**provided, however**, that no such notice of redemption shall be given unless an exercise notice has been received by the Trustee from SIB under the Sale Undertaking and no such notice of redemption shall be given earlier than 60 days prior to the earliest date on which (in the case of (a) above) the Trustee would be obliged to pay such additional amounts if a payment in respect of the Certificates were then due or (in the case of (b) above) SIB would be obliged to pay such additional amounts if a payment to the Trustee under the Service Agency Agreement was then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Trustee shall deliver to the Delegate: (i) a certificate signed by one director of the Trustee (in the case of (a) above) or two Authorised Signatories of SIB (in the case of (b) above) stating that the Trustee is entitled to effect such dissolution and redemption and setting forth a statement of facts showing that the conditions precedent in (a) or (b) above to the right of the Trustee so to dissolve have occurred; and (ii) an opinion of independent legal or tax advisers of recognised standing to the effect that the Trustee or SIB, as the case may be, has or will become obliged to pay such additional amounts as a result of such change or amendment. The Delegate shall be entitled to accept (without further investigation) any such certificate and opinion as sufficient evidence thereof in which event it shall be conclusive and binding on the Certificateholders. Upon such redemption, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof; provided, however, that no such notice of redemption shall be given unless the Trustee has received an exercise notice from SIB under the Sale Undertaking.

#### 10.4 *Dissolution at the option of the Certificateholders*

If Certificateholder Put Option is specified in the applicable Final Terms as being applicable (such option being referred to as **Certificateholder Put Option**), upon the holder of any Certificate giving to the Trustee in accordance with Condition 17 (*Notices*) not less than 15 nor more than 30 days' notice the Trustee will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, such Certificate on the Certificateholder Put Option Date and at the Optional Dissolution Amount (Certificateholder Put) together with any accrued but unpaid Periodic Distribution Amounts. - (a) enforce the provisions of the Purchase Undertaking and/or the Service Agency Agreement against SIB; and/or
- (b) take such other steps as the Delegate may consider necessary in its absolute discretion to protect the interests of the Certificateholders.

### 15.3 ***Direct Enforcement by Certificateholder***

No Certificateholder shall be entitled to proceed directly against the Trustee and/or SIB or provide instructions (not otherwise permitted by the Trust Deed) to the Delegate to proceed against the Trustee and/or SIB under any Transaction Document unless the Delegate, having become bound to proceed pursuant to Condition 15.2 (*Delegate not obliged to take Action*), fails to do so within a reasonable period of becoming so bound and such failure is continuing. Under no circumstances shall the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets (other than pursuant to the Transaction Documents) and the sole right of the Delegate and the Certificateholders against the Trustee and SIB shall be to enforce their respective obligations under the Transaction Documents.

## 17 **NOTICES**

All notices to Certificateholders will be valid if:

- (a) published in a leading English language daily newspaper having general circulation in the Republic of Ireland (which is expected to be the Irish Times), or published on the website of Euronext Dublin ([www.ise.ie](http://www.ise.ie)) or, if in either case such publication is not practicable, in a leading English language newspaper having general circulation in Europe; or

Any notice shall be deemed to have been given on the day after being so mailed or on the date of publication or, if so published more than once or on different dates, on the date of the first publication.

Until such time as any definitive Certificates are issued, there may, so long as any Global Certificate representing the Certificates is held on behalf of one or more clearing systems, be substituted for such publication in such newspaper(s) or website(s) the delivery of the relevant notice to the relevant clearing systems for communication by them to the Certificateholders and, in addition, for so long as any Certificates are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of such stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the Certificateholders on the day after the day on which the said notice was given to the relevant clearing systems.

Notices to be given by any Certificateholder shall be in writing and given by lodging the same with the Principal Paying Agent. Whilst any of the Certificates are represented by a Global Certificate held on behalf of one or more clearing systems, such notice may be given by any holder of a Certificate to the Principal Paying Agent through the clearing system in which its interest in the Certificates is held in such manner as the Principal Paying Agent and the relevant clearing system may approve for this purpose.

- 18.4 In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Delegate shall have regard to the general interests of the Certificateholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Certificateholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Certificateholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-

division thereof) and the Delegate shall not be entitled to require, nor shall any Certificateholder be entitled to claim from the Delegate or any other person, any indemnification or payment in respect of any tax consequence of any such exercise upon individual Certificateholders.

- 19.3 Each of the Trustee and the Delegate is exempted from:

- (a) any liability in respect of any loss or theft of the Trust Assets or any cash;

## DESCRIPTION OF SHARJAH ISLAMIC BANK PJSC

### Overview

Sharjah Islamic Bank PJSC (**SIB**) was originally incorporated as a commercial bank in 1975 as National Bank of Sharjah, under an Emiri decree issued by H.H. Sheikh Dr. Sultan Bin Mohammed Al Qassimi, Member of the UAE Supreme Council and Ruler of Sharjah. SIB was registered as a Public Joint Stock Company on 3 April 1976 under registration number 12088.

On 18 March 2001, a decision was made by SIB's shareholders to change SIB's status from a conventional bank to an Islamic bank, thereby undertaking to perform all of its banking activities in compliance with Shari'a rules and regulations. The conversion process was completed on 30 June 2002, making SIB the first bank in the world to convert fully from a conventional banking system to an Islamic banking system. In 2005, SIB's name was changed from National Bank of Sharjah to Sharjah Islamic Bank.

During the conversion process, SIB formed a strategic alliance with Kuwait Finance House (**KFH**), under which KFH acquired a 20 per cent. shareholding in SIB from the Government of Sharjah (the **Government**). KFH is an Islamic financial institution based in Kuwait. Through this strategic alliance with KFH, SIB benefits from KFH's product expertise and an increase in SIB's funding base.

SIB is a publicly listed company whose shares are listed on the ADX. As at 31 December 2019, SIB had 2,934,855,000 shares outstanding held by 3,026 shareholders of record, with a total issued and paid-up capital (equal to that authorised) of AED 2,934,855,000, and a market capitalisation of AED 3,375,083,250 (assuming a share price of AED 1.15). As at 31 December 2019, the Government and KFH directly and indirectly owned 37.55 per cent. and 18.18 per cent. of SIB, respectively. During the year ended 31 December 2019, SIB proposed a 5 per cent. stock and 5 per cent. cash dividend to its shareholders. As a consequence of this proposal, the total number of shares outstanding increased and, as at date of this Base Prospectus, stands at 3,081,597,750. During 2017 SIB issued a 10 per cent. stock dividend bonus issuance and an additional 10 per cent. of capital was raised in the form of an issue of AED 266,805,000 convertible sukuk (the **2017 Convertible Sukuk**). Sharjah Social Security Fund, an endowment fund established under an Emiri Decree by H.H. Sheikh Dr. Sultan Bin Mohammed Al Qassimi, subscribed to the 2017 Convertible Sukuk (in full) and subsequently converted the entire issue into the equity in SIB. By virtue of this, Sharjah Social Security Fund became the third largest shareholder of SIB holding 9.09 per cent. of the share capital. As a result of this acquisition, the Government's direct and indirect shareholding increased to 37.55 per cent. from 31.3 per cent. Other than the Government, KFH and Sharjah Social Security Fund, no shareholder held more than 3 per cent. of the shares of SIB as at 31 December 2019.

As at 31 December 2019 SIB has total assets of AED 46.4 billion. By comparison, as at 31 December 2018 and 31 December 2017, total assets of SIB were AED 44.7 billion and AED 38.3 billion, respectively. SIB had shareholders' funds of AED 7.5 billion and AED 5.4 billion for the years ended 31 December 2019 and 2018, respectively. For the purposes of reporting its risk-weighted assets in accordance with Basel III, SIB had Tier 1 capital of AED 7.1 billion and AED 5.1 billion and a total capital base of AED 7.5 billion and AED 5.4 billion as at 31 December 2019 and 31 December 2018, respectively. SIB's net profit for the year ended 31 December 2019 was AED 545.5 million (6.9 per cent. higher as compared to the net profit of AED 510.4 million for the year ended 31 December 2018).

SIB is one of the leading Islamic banks in the UAE, providing a range of retail banking, corporate banking and investment banking services, in compliance with *Shari'a* rules and regulations. As at the date of this Base Prospectus, SIB has three wholly owned and active subsidiaries: Sharjah National Hotel Corporation, Sharjah Islamic Finance Services, and ASAS Real Estate (for more information, see "- *Subsidiaries of SIB*"). As at the date of this Base Prospectus, SIB has 34 branches in five of the seven emirates, namely Sharjah, Dubai, Abu Dhabi, Fujairah and Ras Al Khaimah. SIB was awarded the Leading Emiratization Institutions award and the Most Innovative Islamic Bank of the year award in 2019, the Dubai Service Excellence Scheme award and UAE Emiratization award in 2018, as well as the Business Excellence award, the Best Emiratization and Chief Executive Officer award and the Human Resources and Development award in 2017. SIB was also awarded the Best Sukuk Structuring Islamic Bank and the Mohammed bin Rashid Al Maktoum Business Innovation Award in Financial Services category in 2018.

### General

As at the date of this Base Prospectus, SIB has ratings of "BBB+" (stable outlook) from Fitch, "A3" (negative outlook) from Moody's and "A-" (negative outlook) from S&P.

SIB operates in the UAE under a banking licence issued by the UAE Central Bank. The registered address of SIB is P.O. Box 4, Sharjah, UAE and the telephone number of the registered office is +971 6 599 8888.

### ***Strategy***

SIB's vision is, "to be the bank of choice, delivering creative solutions based on Islamic principles of partnership, trust, and fairness for all". In order to achieve this vision, SIB's primary strategic objectives are to:

- maximise value for SIB's shareholders;
- maintain a conservative attitude to risk;
- provide exceptional customer service; and
- continue to build a strong brand.

The following strategic priorities have therefore been developed to accomplish these objectives.

### ***Expand its Islamic banking activities***

Islamic banking is one of the fastest growing sectors in the finance industry and has been defined in recent years not only by strong demand but also by increasing levels of sophistication and product diversification. SIB believes that this growth presents significant opportunities and intends to continue to develop effective and innovative *Shari'a*-compliant banking products and services to offer to retail and corporate clients.

### ***Pursue expansion in the UAE and internationally***

SIB plans to expand its share of the retail and corporate banking market in the UAE, both within and outside of Sharjah in the medium term. As part of its plan to fulfil this growth strategy, SIB expects to relocate a number of branches within its retail network as well as corporate business units, in strategic locations across the country based on customer demand. Such locations are expected to be opened in industrial and free zones and in commercial areas with a high visibility, including in Sharjah, Dubai and Al Ain. These are expected to cater to the growing needs of small and medium sized businesses as well as retail customers in the targeted locations.

SIB intends to expand its small and medium enterprise business as it considers this segment to be a valuable addition to its revenue streams. SIB expects to achieve this growth through the introduction of new products to appeal to both corporate and retail customers (see, in particular, "*Activities of SIB – Retail Banking Group – Retail Positioning*" below) as well as through its branch improvement plans.

SIB expects this growth to take place in the domestic market, focusing on the areas of Sharjah, Abu Dhabi, Al Ain, Dubai and industrial free zones including Jebel Ali Free Zone in Dubai and Hamriya Free Zone in Sharjah. SIB is targeting a number of trade sectors including manufacturing, pharmaceuticals, contracting, aviation and shipping. SIB believes that it will continue to benefit from inward investment of capital from other areas of the GCC and the wider economy in the short to medium term as a result of the relative stability of the UAE economy and political environment as well as due to the anticipated commercial activity in the lead up to the Dubai Expo 2021.

Whilst SIB does not plan to establish an overseas branch network, its management monitors the market landscape closely looking for specific expansion opportunities. Any expansion overseas will likely occur through joint ventures and partnerships, with SIB seeking to capitalise on its Islamic credentials and expertise. Whilst organic growth is SIB's preferred method of expansion, it does look at opportunities for external alliances close to the UAE where SIB's management believes that cautious expansion could be feasible. SIB continues to take a cautious approach to growing economies through participation in syndicated transactions and investments in capital market instruments.

### ***Maintain a conservative attitude to risk***

As an Islamic institution, SIB maintains strict *Shari'a* controls over its business and processes. These rigorous controls have resulted in SIB applying a conservative attitude towards risk, emphasising the need to maintain high levels of liquidity and capital adequacy.

By aligning SIB's risk management function with SIB's credit division, SIB has created a risk management architecture that promotes the active management of risk. This risk management architecture combines policies and procedures that

have been both developed internally and laid down by the UAE Central Bank as the local financial regulator. Reflecting SIB's conservative attitude towards risk and risk management, SIB's internal policies and procedures, including those relating to credit approval, are often more conservative than those of other similar institutions in the UAE banking sector.

Monitoring the risks of SIB's existing investment and financing portfolio is a priority while conservative credit and risk management procedures are applied to all new facilities. By maintaining liquidity levels at a level of approximately 20 per cent. or above as at the date of this Base Prospectus, SIB believes that it has substantially mitigated many of the liquidity risks that it faces.

#### ***Maintain a strong capital adequacy ratio and low level of non-performing facilities***

SIB had a capital adequacy ratio of 22.79 per cent. as at 31 December 2019 calculated in accordance with Basel III and SIB also benefits from relatively low levels of gross non-performing loans, with AED 1,383 million (or 5.26 per cent. of all gross loans) classified as non-performing as at 31 December 2019. Comparatively, SIB maintained a capital adequacy ratio of 16.96 per cent., with AED 1,432 million (or 5.6 per cent. of all gross loans) classified as non-performing as at 31 December 2018.

#### ***Diversify revenues through its subsidiaries***

SIB continues to diversify its revenues through the incorporation of subsidiaries. As at the date of this Base Prospectus, SIB has three principal subsidiaries whose businesses include the provision of *Shari'a*-compliant financial services to clients through the DFM and the ADX, investment in the Sharjah hospitality industry and the management of real estate assets. Following its acquisition of the Sharjah National Hotel Corporation in 2006, SIB has sought to encourage and support the Sharjah hospitality and tourism industry whilst diversifying its investments and revenues (see also "*Subsidiaries of SIB – Sharjah National Hotel Corporation*").

#### **Competitive Strengths**

SIB enjoys a number of key competitive strengths, including the following:

#### ***Strong links to the Government of Sharjah and Government of Sharjah related entities***

As at the date of this Base Prospectus, the Government is SIB's largest shareholder, directly and indirectly holding 37.55 per cent. of SIB's share capital. SIB has capitalised on its close ties between itself and its largest shareholder by becoming the Government's effective bank of choice in the UAE. This close relationship has resulted in the Government and its related entities becoming the largest customer group of SIB, being accountable for AED 7.3 billion, or 27.7 per cent. of SIB's gross investments in Islamic financing as at 31 December 2019, as compared to AED 7.5 billion, or 29.4 per cent. of SIB's gross investments in Islamic financing as at 31 December 2018. Through its strong relationship with the Government, SIB believes that it will benefit from the ongoing inward investment to Sharjah through the financing of infrastructure projects. In the current macro-economic environment, Sharjah is less affected than neighbouring emirates, having less exposure to oil revenues and volatile real estate assets. In addition, with Sharjah being a smaller emirate with correspondingly more conservative development plans than some of the other emirates, the Government is not burdened with high levels of debt and retains an investment grade rating from S&P and Moody's. As such, SIB believes that its levels of exposure to the Government should be viewed as a strength, reflecting positively on SIB's reputation amongst Sharjah-based retail and corporate clients.

#### ***Extensive experience as a conventional bank prior to its conversion to an Islamic bank***

Prior to its conversion to an Islamic bank in 2002, SIB had over 25 years' experience in the conventional banking market. Unlike other Islamic banks without prior conventional experience, SIB therefore has a deep knowledge and understanding of the needs of both conventional and Islamic banking customers. SIB believes that this knowledge has enabled it to develop its *Shari'a*-compliant banking services in a way that appeals to a broader client base than other Islamic banks.

SIB's conventional experience has contributed to the development of many innovative *Shari'a*-compliant banking products that seek to replicate the salient features of their conventional counterparts. SIB's innovations include prepaid Visa cards and Mastercards and zero per cent. profit finance, each of which was the first *Shari'a*-compliant example of these products in the UAE. Through innovations such as these, SIB has been able to bridge the divide between conventional banks and Islamic banks, enabling it to appeal to both Muslim and non-Muslim clients.

### *Stable funding base*

SIB has a diversified deposit base that includes retail and corporate customers, Government bodies and public sector agencies which, taken together, are regarded by SIB as a relatively stable and a low cost source of funding. As at 31 December 2019, SIB had AED 19.0 billion of customer deposits maturing in less than three months and AED 8.3 billion of customer deposits maturing between three to 12 months, compared with AED 19.8 billion and AED 6.6 billion, respectively, as at 31 December 2018 (see also "– Risk Management – Liquidity Risk" below). The decrease in deposits maturing in less than three months is due to prudent efforts of the bank to have longer tenor deposits, in line with market trends.

SIB also had total customer deposits of AED 27.3 billion as at 31 December 2019, representing an increase of AED 0.9 billion (3.3 per cent.) as compared to 31 December 2018 (AED 26.4 billion). A breakdown of SIB's deposit base by product as at 31 December 2019 and 31 December 2018 is set out below:

### *Diversified distribution channels and accessibility to customers*

SIB distributes its products through a variety of channels which include its branch network, automated teller machines (ATMs), a direct sales force, a call centre, SMS services and internet banking. As at the date of this Base Prospectus, SIB has 34 branches in its network.

As at the date of this Base Prospectus, SIB has a nationwide ATM network consisting of 121 ATMs and with 38 sites capable of handling cash and cheque deposit facilities, referred to as "CCDM", SIB's call centre serves over 25,000 customers monthly. SIB launched its retail internet banking services in 2009 and its corporate internet banking services in 2010. The internet banking and mobile banking services were relaunched in 2016, and are regularly being upgraded further to include additional features, with a view to enhancing the customer experience, without the need for interaction at the branch level. Customers registered on internet banking and mobile banking platforms can make a number of transactions in a time and cost effective manner. These include, but are not limited to, funds transfer (locally and internationally), bill payments and enquiries.

By offering a wide range of financial products to its customers, SIB has been able to develop a diverse client base, ranging from low income to high net worth individuals. In addition, SIB utilises its strong corporate banking relations to cross sell its retail banking products to individuals within the relevant corporates.

### *Quality of service*

SIB considers quality of service as being key to maintaining client and customer satisfaction. SIB has a separate Service Quality and Business Process Engineering Division which is part of SIB's Strategic Development Division, which reports directly to the Deputy Chief Executive Officer.

The Service Quality and Business Process Engineering Division conducts service quality assessments in order to maintain compliance with established quality control systems. It carries out quality assurance visits, handles external customer complaints, conducts customer satisfaction surveys and oversees suggestion schemes. Furthermore, the unit regularly assesses SIB's competitive position in the marketplace, as well as recommending business practice improvements.

### ***Strong Islamic banking presence and Shari'a credibility***

Islamic banking is one of the fastest growing sectors in the finance industry and since its conversion to an Islamic bank in 2002, SIB has established a strong market presence in this sector. SIB offers customers a range of full service *Shari'a*-compliant banking products to retail and corporate clients. Through its retail branch network, SIB is able to maintain a high visibility, both within and outside of Sharjah, serving to develop SIB's brand for the benefit of its corporate and retail banking businesses.

SIB ensures that each of the products and services that it offers to customers are in conformity with the strict *Shari'a* supervision parameters approved by SIB's Internal *Shari'a* Control Committee (**ISCC**). Reflecting its commitment to the application of these principles, SIB has established its own *Shari'a* Control and Audit Division (**SCAD**). The SCAD's role is to ensure that *Shari'a* principles are properly applied to each of SIB's new products and services, thereby maintaining SIB's reputation as a premier Islamic bank.

### ***Experienced management team***

SIB's senior management team has extensive experience in the banking industry, both domestically and internationally. See further "*Management of Sharjah Islamic Bank PJSC*".

### ***Skilled and knowledgeable workforce***

Upon joining SIB, all new employees are required to attend a dedicated orientation programme which provides them with a comprehensive overview of each of SIB's products and services. In addition to employee initiation programmes, SIB also provides regular training to all of its staff, at each level of seniority. In order to provide more efficient training to its staff, SIB established a dedicated Learning and Communication team (**L&C**), which reviews staff performance and identifies areas for improvement. Associates in SIB's branches have specific classrooms, e-learning and computer based learning modules designed to improve their knowledge and skills in SIB's products, services, Islamic banking and customer service. This commitment to staff training has enabled SIB to develop a skilled and knowledgeable workforce, which is able to better serve the needs of its customers.

As at the date of this Base Prospectus, L&C has integrated its services with SIB's performance management system. Associates performing below SIB's standards for core or managerial competencies are enrolled in specialised courses designed to address any development issues. More than 80 per cent. of SIB's courses are provided in-house using the services of professional trainers and industry experts.

### ***Strong links with the community***

#### *Investment Banking Division*

The Investment Banking Division (**IBD**) executes SIB's investment and asset diversification strategy. The IBD offers a range of services to its clients, including financial advisory, debt/equity capital markets and direct investment activities. SIB also participates in syndicated financing transactions through the IBD for a variety of clients. SIB has also been appointed as joint lead manager and/or bookrunner in recent years with respect to a number of regional Sukuk (both public and privately placed) issuances, including issuances in recent years by, amongst others, the Government, the Kingdom of Bahrain, Dubai Islamic Bank, First Abu Dhabi Bank, Abu Dhabi Islamic Bank, Aldar Properties and Emaar Properties. In addition, the IBD runs SIB's proprietary investment portfolio that includes medium to long term investments in listed and private equity, investment funds and sukuk.

#### *Treasury Division*

The Treasury Division (**TD**) is responsible for handling SIB's liquidity position and cash flows, as well as managing the market risk for SIB. The prominent functions of TD are:

- liquidity management under money market operations across different currencies;
- reserve management in compliance with the regulatory requirements of the UAE Central Bank;
- foreign exchange cover operations to handle customer related foreign exchange requirements;
- foreign exchange & money market arbitrage transactions;
- hedging transactions through Islamic derivatives for both banks and customers;
- mobilising low cost long-term funds through a wide variety of collateralised repo transactions; and
- offering select treasury products for customers under different asset classes, such as foreign exchange (**FX**), money market and fixed income.

Due to its consistent work in the development of Islamic treasury activities and being a regular market participant, the TD enjoys a strong reputation in the market.

This reputation benefits the TD in obtaining relatively large exposure limits from other peer GCC and global financial institutions, allowing the TD to easily meet the funding needs of SIB as and when required. This facilitates the availability of short term liquidity for SIB, which can be made available to SIB from a number of counterparties in the GCC on demand and at very low profit rates. The TD plans and manages SIB's liquidity to ensure that any liquidity risk is minimised and asset liability mismatches are avoided.

The TD actively trades in the following products with its counterparties:

- interbank wakala transactions for short term placements/borrowing;
- international murabaha (commodity based transactions) for short term placements/borrowing;
- medium-term fund mobilisation through collateralised repo/murabaha transactions;
- short term placements/borrowings;
- foreign exchange activities;
- Islamic Certificate of Deposits with the UAE Central Bank;
- investment sukuk as part of liquidity management and for customers; and
- Islamic derivatives for hedging (profit rate swaps & FX forwards).

For the year ended 31 December 2019, the TD managed an average daily surplus liquidity of approximately AED 9.3 billion, with revenue generated on these funds of approximately AED 118 million. During the same period, the TD's fee-based foreign exchange business generated approximate revenues of AED 8.4 million. The TD's investments in sukuk as part of a liability management exercise also earned an income of AED 89.4 million during the year 2019. The TD also offers the following Islamic products to its retail, corporate and high net worth customers:

- wakala and murabaha deposits from customers;
- foreign exchange and leveraged foreign exchange investments;
- financing against customer wakala deposit;
- profit rate and FX hedging solutions for customers; and
- sukuk investment for high net worth clients.

The TD also works on innovative new Islamic products to meet the requirements of trade finance and retail customers.

### ***Financial Institutions Department***

The Financial Institutions Department (**FID**) manages all aspects of SIB's relationships with financial institutions and provides support to SIB's operations through the establishment and maintenance of new relationships with leading financial institutions. The FID acts as a primary point of contact for all relationship matters between SIB and its banking counterparties. In addition, the FID ensures that SIB's Nostro accounts cover all geographical areas so as to support SIB's operational and customers' needs.

### **Relationships and Strategic Alliances**

SIB enjoys close relationships with its two major shareholders, the Government and KFH. These shareholders have indicated their long term commitment to SIB and provide various forms of essential support. The Government is SIB's single largest customer, with many of the major Sharjah governmental departments being clients of SIB. In 2017, Sharjah Social Security Fund fully subscribed to a convertible sukuk and became the third largest shareholder of SIB.

## Subsidiaries of SIB

As at the date of this Base Prospectus, SIB has three wholly owned and active subsidiaries:

- Sharjah National Hotel Corporation (**SNHC**);
- Sharjah Islamic Finance Services (**SIFS**); and
- ASAS Real Estate (**ASAS**).

### *Sharjah National Hotel Corporation (SNHC)*

SIB acquired SNHC for AED 520 million from the Government in June 2006. SNHC owns three four-star hotels and resorts: the Marbella Resort; the Hotel Holiday International; and the Khorfakkan Oceanic Beach Hotel (all located in Sharjah). SIB's investment in SNHC is in line with SIB's general objective of diversifying its investments. As at the date of this Base Prospectus, SNHC is undertaking a renovation of Hotel Holiday International and Marbella Resort and is working to modernise their facilities. The Khorfakkan Oceanic Beach Hotel (**KOBH**) has been renovated into a resort and spa and was re-opened for occupancy in the first quarter of 2014. For the year ended 31 December 2019, SNHC generated revenues of AED 42.9 million and a net profit of AED 0.790 million compared to AED 47.8 million of revenues and AED 0.388 million of net loss for the year ended 31 December 2018. Revenues decreased mainly because of renovations being conducted and competition bringing room rates down. As at 31 December 2019, SNHC's total assets amounted to AED 303.3 million, compared to AED 292.6 million as at 31 December 2018. SIB's strategy is to diversify its revenues from the hospitality business especially in light of the increased focus on this sector from the Government and the incentivisation of the tourism industry in Sharjah. With increase in tourist arrivals and promotion of tourism in the emirate.

### *Sharjah Islamic Finance Services (SIFS)*

In June 2006, SIB launched SIFS to offer its customers and investors a wide range of *Shari'a*-compliant trading tools to allocate, select and manage investments and wealth through the DFM and the ADX. SIFS is based in the Al-Ghanem Business Centre at Al-Khan Street, Sharjah, where its offices provide a modern business environment for the benefit of its customers. Like SIB, SIFS also applies strict *Shari'a* principles to all of its processes, practices and products.

For the year ended 31 December 2019, SIFS generated revenues of AED 3.3 million and net profit of AED 0.91 million compared to AED 3.1 million of revenues and a net profit of AED 5.6 million in 2018. The decrease was in line with market expectations and sentiments prevailing in the DFM and the ADX. SIFS had total assets of AED 47.3 million as at 31 December 2019, compared to AED 37.2 million of total assets as at 31 December 2018.

### *ASAS Real Estate*

ASAS formerly existed as a division of SIB, but was incorporated as a subsidiary in 2011. As at the date of this Base Prospectus, ASAS is responsible for the management of SIB's real estate assets, together with the real estate assets of some of SIB's clients, including the Government. ASAS provides property management services, a market which SIB believes is expanding. As such, ASAS has a mandate to expand its business operations to each of the emirates in the UAE. It is expected that ASAS will provide investment opportunities to SIB's customers who seek to achieve returns from investments in UAE real estate assets.

ASAS was incorporated with AED 500 million of capital and since 2011 ASAS has been steadily growing its business. ASAS has now expanded into other real-estate business areas such as sales and property and facilities development and management. ASAS projects have included the ASAS Tower, the Al Nouf villas development, the Industrial Area 18 and other residential developments in Sharjah.

For the year ended 31 December 2019, ASAS generated revenues of AED 119.8 million compared to AED 183.5 million for the year ended 2018. This decrease is primarily attributable to a general slowdown in the real estate market.

### *SIB's Competition*

SIB faces competition in all of its principal business areas. In its Retail Banking and Corporate Banking businesses, SIB's principal competitors include both banks that are locally incorporated (conventional and Islamic) as well as certain foreign banks operating in the UAE. As at 31 March 2020, there were 23 locally incorporated banks and 26 foreign banks licensed to operate inside the UAE (source: UAE Central Bank). In the Islamic banking market, SIB's

direct competitors include Emirates Islamic Bank, Dubai Islamic Bank, Abu Dhabi Islamic Bank, Al Hilal Bank and Ajman Bank, all of whom are also incorporated in the UAE.

Despite the relatively high level of competition in the banking sector in the UAE, SIB expects the demand for Islamic banking services will increase in the short to medium term. SIB's objective is to participate in this growth and to increase its market share, based on its selling skills, service quality standards, strong brand, personalised customer care and continuing product development.

## **Risk Management**

The operations of SIB require continuous management of particular risks or combinations of risks. Risk management is the identification, analysis, evaluation and management of the factors that could adversely affect SIB's resources, operations and financial results. SIB's main risks include credit, operational, market, liquidity, legal, regulatory and currency risks. SIB aims to manage its exposure to these risks conservatively.

SIB continues to enhance its risk management and compliance framework and replaced its current internal risk rating system with the updated rating system from Moody's. This system provides a robust risk rating framework and toolset with qualitative and quantitative parameters and runs on an industry standard rating model covering all asset classes.

SIB's Enterprise Risk Management (**ERM**) is made up of the following divisions, all reporting to the Chief Risk Officer (**CRO**) who, in turn, reports to the Board of Directors through the Risk Management Committee:

- Investment Administration;
- Centralised Recovery & Collections; and
- Information Security & Risk Assurance.

The ERM function at SIB is not just a process for risk governance, but also provides an opportunity for utilising risk as a viable advantage in the market place through the alignment of SIB's business strategy and risk appetite statement (approved by the Risk Management Committee). SIB's various levels of risk governance, in their respective oversight and functional roles, provide full support to the risk management programme to build and promote a powerful and strategically focused integrated enterprise-wide risk management architecture and culture in SIB.

### ***Risk governance structure***

Although the ultimate responsibility for SIB's risk management lies with the Board of Directors, SIB's risk governance structure has been designed to support the Board of Directors and its committees in their oversight of the risks that face SIB in the performance of its activities. A key feature of SIB's risk governance structure is the concept of "lines of defence", whereby each of SIB's business groups take responsibility for the risks to which they are exposed.

### ***Risk management architecture***

The ERM's basic role is to ensure that SIB's risk is mitigated effectively. SIB's risk architecture is based on a three-tier approach:

#### ***Strategic Level***

Risk management functions are performed by the Executive Management and the Board of Directors through vision and strategy.

#### ***Tactical Level***

Risk management functions are handled by middle management and various units across business lines through risk based decisions.

#### ***Operational Level***

Risk management functions relating to operational risk are handled through performance measures, internal controls and risk awareness programs, as well as certain procedures and processes that cover all issues relating to other types of risk.

### ***Investment Administration***

The Investment Administration Division streamlines the IG's back office functions and processes. The division is also responsible for highlighting areas in which SIB's policies are not being complied with as well as ensuring that the conditions and covenants for each of the IG's investment accounts are monitored.

### ***Centralised Recovery & Collections***

The Centralised Recovery & Collections Division within the ERM is primarily responsible for managing SIB's receivables and reducing bad and doubtful debts by minimising potential losses arising from problem facilities. The division effectively and efficiently manages the collection and recovery functions of SIB in order to reduce portfolio losses.

### ***Information Security & Risk Assurance***

The Information Security & Risk Assurance Division within the ERM is primarily responsible for development, delivery and maintenance of the information security program that safeguards SIB's information assets and supports infrastructure against unauthorized use, disclosure, modification, damage or loss. The division supports a comprehensive bank-wide program that encompasses such functions as information security implementation, monitoring, threat and vulnerability management, incident management and similar.

The Information Security & Risk Assurance Division works with various other divisions to comply with information security policies, industry best security practices (including ISO/IEC 27001: 2013 Payment Card Industry Data Security Standard), and other regulatory requirements. Working with federal and local governments and banks customers, the Information Security & Risk Assurance Division provides support through management of information security risks and ensures SIB can provide secure and sustainable banking services meeting its own and its clients' objectives.

In line with SIB's strategy to protect its customer information and implement best security practices in the banking sector, SIB has implemented the Information Security Management System based on the ISO 27001 Standard. Subsequently SIB was awarded the ISO 27001 Certification by the accredited ISO Certification body, who assessed the implementation of SIB's Information Security Management System in accordance with its standards.

### ***Risk Management Division and Corporate Credit & Retail Credit Administration***

In addition to the divisions which form the ERM, the following divisions are also in place within SIB, which report directly to the Chief Executive Officer and Deputy Chief Executive Officer, respectively:

- Risk Management Division (**RMD**) (Credit, Compliance, Operational, Market & Liquidity Risk functions); and
- Corporate Credit & Retail Credit Administration.

### ***Risk Management Division***

The RMD serves as an independent appraisal function within SIB, monitoring the broad spectrum of risks faced by SIB, including credit, market/liquidity, compliance and operational risks, and examining and evaluating the effectiveness of and compliance with SIB's policies and procedures. The RMD reports to the Chief Executive Officer through the CRO.

In particular, the RMD's responsibilities include:

- formulating appropriate risk management charters, policies and procedures regarding those activities and units which incur significant risk, including business continuity plans. All risk management policies and procedures are approved by the Board of Directors as more particularly described in "*Management of Sharjah Islamic Bank PJSC*";
- providing meaningful direction regarding SIB's overall risk philosophy and appetite, including consideration and acceptability of new or unusual risk, ensuring strict adherence to risk management policies and procedures;

- reviewing the reliability and integrity of financial and operating information and the means used to identify, measure, classify and report such information;
- examining and evaluating the quality of the advances portfolio and the credit management process (retail, corporate, real estate financing) in individual units throughout SIB;
- identifying and dealing with special risks associated with any sort of change (including economic, industry, regulatory and operating);
- overseeing the compliance function and regulatory requirements, including AML, KYC and combating the financing of terrorism; and
- managing and monitoring the implementation of the Basel III Compliance Project.

SIB has a full-time Compliance Officer, whose role is to establish standards of ethics, confidentiality, privacy, KYC policies and other hallmarks of good governance, such as avoidance of conflicts of interest. The Compliance Officer provides training to new and existing staff in respect of these issues.

SIB's Risk Management Policy Framework (**RMPF**) has been in place since 2004, when it was developed and formulated by the Risk Management team. The RMPF is reviewed annually and is subject to additional amendments based on the dynamic conditions of the market as well as the strategies and policies of SIB. All of SIB's risk policies and processes are reviewed and approved by the Board of Directors.

Reflecting SIB's conservative attitude to risk, the RMPF is reviewed by SIB's auditors as well as by regulatory inspectors during their annual examination of SIB. SIB's management believes that SIB's policies and procedures exceed the standards set by Basel III accord directives and UAE Central Bank regulations.

SIB's risk management function broadly covers the diverse aspects of overall risk management activities, guided by well-structured and documented risk management policies, processes, internal controls and standard operating procedures. Risk management practices are embedded in all of SIB's processes and at every level, ensuring that risk management forms an integral part of SIB's day-to-day function, so as to further promote risk management as a part of business planning and decision making.

Furthermore, the RMD reviews and modifies risk management policies and procedures, as well as systems to reflect any operational changes either internally, or, in the markets in which SIB operates. Risk and controls for all functions across SIB are developed by the RMD and used by Internal Audit for assessment of compliance during an internal audit.

In relation to the introduction of the IFRS 9 accounting standards, the risk management function at SIB, along with other stakeholders such as SIB's financial control department, plays a critical role in their implementation as well as related model development. Governance structure and policy, including expected credit loss policy, is aimed at ensuring compliance with regulatory requirements such as Basel III and IFRS 9 standards (through ongoing monitoring, and reporting of Basel III ratios and IFRS 9 expected credit loss methodology on a quarterly basis).

#### Regulatory Stress Testing

Besides having comprehensive procedures for assessing material risks, SIB ensures that due importance is given to stress and scenario testing, mindful of the particular stage of the business cycle in which it is operating, using relevant procedures to undertake, review and, where appropriate, react to the results of rigorous, forward-looking stress testing. This forward-looking stress testing identifies possible events or cyclical changes in market conditions that could adversely impact SIB's earnings, liquidity or asset values.

The UAE Central Bank has recently developed a common methodology framework for stress testing and requires all UAE local banks to conduct stress tests on their entire portfolio, on an annual basis, by developing their own internal models acceptable to the Financial Stability Unit (**FSU**) at the UAE Central Bank. SIB's 2019 stress test was submitted to the FSU and was duly accepted.

### Stress Testing - Governance

As stress testing is a vital tool and critical element of risk management, the UAE Central Bank emphasises the involvement of the Board of Directors and senior management in the stress testing process and policy. Therefore, the governance and ownership of this critical exercise is influenced by the following factors:

- stress testing forms an integral part of the overall governance and risk management culture of SIB and therefore the RMD shall carry out regular stress tests, along with active participation by, and discussions with, the business units and other support functions;
- ultimate responsibility for the overall stress testing programme lies with the Board of Directors who shall, through the RMC, ensure that an efficient and effective stress testing process is in place;
- the stress testing report to the UAE Central Bank shall be approved and signed by the Board of Director's Chairman and the Chief Executive Officer (CEO) of SIB (as per regulatory requirements);
- regular maintenance and updating of the stress testing process shall be handled by the RMD, with meaningful and effective suggestions from business units and other support functions; and
- senior management involvement is critical in ensuring appropriate use of stress testing in SIB's risk governance and capital planning process, including strategic planning and development.

### Credit Division

SIB has a dedicated Credit Division which is responsible for the assessment and evaluation of all matters relating to credit risk. The Credit Division supports and challenges business proposals in accordance with SIB's cautious risk strategy and in line with the Board of Director's approved credit risk appetite levels, supported by a culture of prudent and responsible financing, a strong Islamic Financing Policy and a control framework in line with the regulations of the UAE Central Bank.

The basic functions and responsibilities of the Credit Division are:

- maintaining high quality assets through effective control and management of credit risk, minimising credit losses whilst enhancing returns, and thereby contributing to the overall success of SIB;
- monitoring credit risk through the proper evaluation of credit proposals and facilities by identifying and analysing all potential risk factors associated with requested credit facilities;
- monitoring credit exposure by limiting transactions with specific entities and continually assessing the creditworthiness of SIB's counterparties; and
- managing credit risk exposure through the diversification of lending activities to ensure mitigation against all elements of concentration risk.

In response to the COVID-19 outbreak, SIB's RMD has identified vulnerable sectors, including, but not limited to, aviation, hospitality, real estate and retail, that are significantly impacted by the developing situation, and reviews of such sectors are being conducted on a more frequent basis. Existing corporate credit lines are being reviewed and their utilisation is being closely monitored. SIB has a well-diversified financing portfolio where Government and Government-related entity financings represent more than 36 per cent. of its financing portfolio as at 31 March 2020. Consequently as at the date of this Base Prospectus, SIB's management has concluded that there has not been a significant increase in credit risk.

SIB has also been vigilant in underwriting to companies in vulnerable sectors, especially for any new-to-bank customers. Extra measures, such as requiring additional approvals for disbursements of facilities have been implemented to ensure a high level of scrutiny over the credit management process. SIB is in the process of conducting frequent reviews of the Loan to Value (LTV) ratios on the securities held against facilities, specifically securities which are illiquid in nature.

Moreover, the management of SIB has reviewed all of its credit lending policies to address consequential increases in economic risk for different sectors effected by the current economic environment.

## *Corporate Credit & Retail Credit Administration*

The Corporate Credit & Retail Credit Administration Division covers all of the administrative activities relating to approved credit proposals. The division ensures that security and collateral documentation is perfected and executed as well as ensuring the safe custody of securities in compliance with internal policies, approved terms and conditions and *Shari'a* principles.

### ***Risk Management Framework***

#### *Credit Risk*

Credit risk is the risk that a customer or counterparty to a financial asset fails to meet its contractual obligations and causes SIB to incur a financial loss. SIB is exposed to credit risk through its financing receivables, leased assets, wakalah arrangements with financial institutions and investments in sukuk. SIB's primary exposure to credit risk arises through its financing facilities to customers. In addition, SIB is also exposed to off-balance sheet credit risk through contingent liabilities it has assumed.

SIB manages its credit risk exposure through diversification of its financing activities and investments to avoid concentration of risk with individuals or groups of customers in a specific location or business. In addition, SIB manages credit exposure by evaluating the creditworthiness of each counterparty, establishing the appropriate credit limits, obtaining security where appropriate and limiting the duration of exposure. In certain cases, SIB may also close out transactions or assign them to other counterparties to mitigate credit risk. SIB has a risk rating system to provide a consistent framework for risk management. The system assigns ratings as per regulatory guidelines to a wide range of credit recipients from all corporate borrowers. The credit rating system and individual facility assessments are managed in a consistent manner to measure the level of each borrower's credit risk appropriately.

Furthermore, in order to manage credit risk, SIB sets credit policies, procedures and limits. SIB's Credit Committee provides the strategic framework for the credit limits, policies and procedures, the approval of specific exposures and work out situations, constant revaluation of the loans portfolio and the sufficiency of provisions. The credit exposure and credit policies are regularly reviewed by the Executive Committee and SIB's Board of Directors. In addition, regular audits of business units and SIB's credit processes are undertaken by the Internal Audit Division (**IAD**) (see further "*Internal Audit*").

#### *Market Risk*

Market risk is the risk that SIB's income and/or value of a financial instrument will fluctuate because of changes in market prices such as profit rates, foreign exchange rates and market prices of equity. SIB is exposed to market risk through its diverse financial instruments including sukuk, equities, investment funds and foreign currencies. Market risk is managed through market risk limits set out by SIB's Asset and Liability Committee (**ALCO**), which are approved by the Board of Directors.

The market risk limits are monitored independently by the RMD on a regular basis, and exceptions, if any, are reported to the senior management and ALCO.

In addition to its internal procedure and systems, SIB is required to comply with the guidelines and regulations of the UAE Central Bank, as well as *Shari'a* principles.

#### *Settlement Risk*

SIB's activities may give rise to risk at the time of settlement of transactions and trades. Settlement risk is the risk of loss due to the failure of a counterparty to honour its obligations to deliver cash, securities or other assets as contractually agreed.

For certain types of transactions SIB mitigates this risk by ensuring that a trade date is settled only when both parties have fulfilled their contractual settlement obligations. Settlement limits form part of the credit limits monitoring process. Acceptance of settlement risk on free settlement trades requires transaction specific or counterparty specific approvals from the ALCO.

All treasury related transactions are undertaken with counterparty banks or institutions where settlement limits are in place.

### Foreign Exchange Rate Risk

The foreign exchange rate risk is managed on the basis of limits determined by the ALCO and a continuous assessment of SIB's open position by Treasury with respect to current and expected exchange rate movements. SIB does not engage in foreign exchange proprietary trading and where necessary matches currency exposures inherent in certain assets with liabilities in the same or correlated currency.

The ALCO has set limits on positions by currency. Positions are closely monitored on a daily basis by the ERMD to ensure that the positions are maintained within established limits. In case of any limit exceptions that may arise during the course of regular transactions, the ERMD will seek clarification from the TD and will also take action to mitigate the exchange rate risks.

The exchange rate of AED against U.S. dollars has been pegged since November 1980 and SIB's exposure to foreign exchange rate risk is limited to that extent.

As at 31 December 2019, SIB had the following significant net exposures denominated in foreign currencies:

Currency	Net Position (equivalent AED thousands)	
	2019	2018
U.S. dollar .....	(2,162,185)	(1,654,089)
Sterling Pound .....	45,162	45,262
Euro .....	(1,231)	(1,413)
Bahrani Dinar .....	7,675	7,402
Saudi Riyals .....	(208,899)	(66,992)
Kuwaiti Dinar .....	1,130	717

### Profit Rate Risk

Profit rate or pricing risk, comprising market and valuation risks, are managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value. Overall pricing or profit rate risk positions are managed by the ALCO.

SIB is not significantly exposed to the profit rate risk in terms of the re-pricing of its liabilities since primarily, in accordance with Islamic *Shari'a*, SIB does not provide a contractual rate of return to its depositors, other than with respect to certain special fixed deposits.

### Liquidity Risk

Liquidity risk is the risk that SIB will encounter difficulty in meeting its obligations associated with financial liabilities that are settled by delivering cash or other financial assets. It includes the risk of the inability to fund assets at appropriate maturities and rates and the inability to liquidate assets at reasonable prices and in an appropriate timeframe and inability to meet obligations as they become due. Liquidity risk can be caused by political uncertainty, market disruptions or credit downgrades which may cause certain sources of funding to diminish.

As at 31 December 2019, SIB's financing receivables to total deposit ratio stood at 78 per cent. SIB's liquidity is managed actively by the TD. In addition, all liquidity policies and procedures are subject to review and approval by ALCO.

Liquidity in UAE dirhams is available through the sale of U.S. dollar denominated securities and subsequent sale of the U.S. dollar proceeds to the inter-bank market (or to the UAE Central Bank) on a same-day basis if required. Liquidity can be easily switched from U.S. dollars to UAE dirhams and *vice versa* due to the fixed nature and narrow spread of the foreign exchange peg.

The maturity profile of SIB's financial assets is set out below for the years ended 31 December 2019 and 2018.

\*The comparative figures for the year ended 31 December 2018 are extracted or derived from the unaudited comparative column of the 2019 Financial Statements to conform to the presentation used in the 2019 Financial Statements.

The increase in total assets from 31 December 2018 to 31 December 2019 was due to the overall expansion of the business of SIB, which is reflected in the growth in financing, investment in sukuk and liquid assets. Additionally, SIB is witnessing an increasing trend towards matching customer cash flows to loan repayments in order to reduce SIB's credit risk and to enable SIB to benefit from higher yields.

In response to the COVID-19 outbreak, SIB has taken the following actions to manage liquidity risks:

- monitoring the movements and composition of its deposits on a daily basis;
- monitoring its adherence to regulatory ratios, including the eligible liquid assets ratio (the **ELAR**) and the Lending to Stable Resource Ratio (**LSRR**) on a daily basis;
- developing contingency plans and opening up new funding lines in the treasury and inter-bank markets of other GCC countries; and
- developing stress testing scenarios to assess the impact on SIB in extreme stress.

#### *Equity Price Risk*

Equity price risk arises from the change in fair value of equity instruments. SIB manages this risk through diversification of investment in terms of geographical distribution and industry concentration.

### Operational Risk

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal process and methodologies, human error, systems or from external events. Operational risk may arise from a wide variety of causes associated with SIB's processes, personnel, technology and infrastructure, and from external factors, other than credit, market and liquidity risks, such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

SIB manages operational risk through a disciplined application and evaluation of internal controls, appropriate segregation of duties, independent authorisation of transactions and regular, systematic reconciliation and monitoring of transactions. SIB's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to SIB's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

SIB has established a framework of policies and procedures for managing functions, departments and branches which aims to minimise operational loss by requiring all units to identify, assess, control, manage and report risks. The Risk Management Committee (RMC) continually reviews the policies and procedures, identifies issues and manages operational risk to reduce the likelihood of any operational losses. Where appropriate, SIB mitigates the operational risk by way of insurance.

Compliance with policies and procedures is supported by periodic reviews undertaken by the IAD. The results of these reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Audit Committee (AC) and senior management of SIB.

In addition, SIB has also established a business continuity planning team which ensures that SIB can continue to service its customers' needs in the event of any major business disruption and minimise any operational risk.

### Legal risk

Legal risk is the risk that a customer or counterparty will commence proceedings against SIB. SIB has an internal Legal Division which is headed by the VP Legal Counsel.

The primary function of the Legal Division is to advise on all legal and litigation matters affecting SIB. In addition to the initiation of legal proceedings, the Legal Division also negotiates settlements (where appropriate) in order to increase SIB's recoveries. The Legal Division also ensures that all internal and external legal reporting requirements are complied with.

### Basel III – Capital Adequacy

In line with the implementation of Basel III, SIB is required to maintain a total regulatory capital, comprising of Tier 1 and Tier 2 capital and capital buffers, at 12.375 per cent. of risk weighted assets. SIB has complied and intends to comply with any and all externally imposed capital requirements applicable to it.

As further described in "The United Arab Emirates Banking Sector and Prudential Regulations – COVID 19", the UAE Central Bank capital buffers must be maintained in addition to the minimum CET1 requirement of 7 per cent., Additional Tier 1 requirement of 1.5 per cent. and Tier 2 requirement of 2 per cent. SIB is currently required to maintain a capital conservation buffer of 1.875 per cent. As at 31 March 2020, SIB's capital conservation buffer was 2.5 per cent. SIB may also be required to maintain a countercyclical capital buffer if so advised by the UAE Central Bank, at a level (determined by the UAE Central Bank) between 0 and 2.5 per cent. of risk weighted assets.

SIB's capital adequacy figures for the years ended 31 December 2019 and 31 December 2018 are set out in the table below (based on Basel III computation):

Under Federal Law No. (2) of 2015 concerning the UAE Central Bank, the Monetary System and Organization of Banking, banks are required to transfer 10 per cent. of profit each year into a statutory reserve until this reserve makes up 50 per cent. of capital. Distributions cannot be made from this reserve, except in special legally defined circumstances. All dividends have to be authorised by the UAE Central Bank. In addition, under the 2018 Federal Law, the UAE Central Bank may not approve proposed dividends by a UAE bank, if such bank has failed to maintain its capital adequacy ratio requirements at such time.

### *Basel III - Liquidity Risk Ratios*

SIB applies a prudent approach to liquidity risk management. SIB's Asset & Liability Management Committee oversees liquidity risk regularly. A robust funding structure supports sound liquidity risk management. SIB's approach is to ensure that it will always have sufficient liquidity to meet all liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to SIB's reputation.

As such SIB ensures ongoing compliance with the regulatory defined liquidity ratios which are implemented in line with UAE Central Bank set time lines. SIB meets and intends to continue to meet any applicable liquidity ratios or funding ratios as further described herein and in the Financial Statements.

### *Distributions of Profit*

Depending on the profitability of SIB and capital requirements, SIB's Board of Directors may propose a dividend after announcing SIB's year-end financial results. In accordance with UAE Central Bank guidelines, the proposed dividend is to be authorised by the UAE Central Bank before it is declared to the general public. Any dividend proposed by the Board of Directors must be approved at SIB's annual general meeting.

### **Corporate Governance**

SIB applies the basic principles of good corporate governance across each of its functions. In 2007, SIB established a corporate governance policy framework as well as two critical Board Committees, the AC and the RMC. Furthermore, the activities of SIB are overseen by the ISCC, thereby guaranteeing strict conformity with Islamic principles.

SIB's corporate governance structure is supported by SIB's committees and the Board of Directors, which has ultimate responsibility for representing and reporting to the shareholders. Through its own practices, the Board of Directors ensures that clear lines of responsibility and authority exist, with well-defined roles, responsibilities and appropriate internal checks and balances.

SIB ensures that it complies with all regulatory and legal requirements by implementing effective controls, procedures and policies. Strategic and business plans are in place for three year periods, and are reviewed regularly with necessary updates suggested to the management and the Board of Directors.

As part of SIB's application of good corporate governance, any potential conflicts of interest that arise are dealt with proactively. The list below sets out certain principles that are applied by SIB:

- the positions of CEO and the Chairman of the Board of Directors are held by different persons, with a clear segregation of duties and responsibilities;
- directors refrain from passing any resolutions on matters that relate to their own interests;

- there is a clear distinction and segregation of functions and duties relating to the Board of Directors and the executive management. The different functions are documented in SIB's corporate governance framework;
- the CEO attends AC meetings as a permanent invitee only; and
- the Internal Audit, Risk Management and Shari'a Control divisions are independent and have clear reporting lines.

### ***Shari'a compliance (Sharia)***

Every transaction that SIB undertakes and all products that it offers must be in strict compliance with the principles of *Shari'a*, as interpreted by SIB's ISCC. See further, "*Internal Sharia'a Control Committee*". Such compliance is monitored by SIB's Shari'a Control (**SCD**), which is entrusted with the day-to-day responsibilities of *Shari'a* control.

The management of SIB with the consent of the ISCC, nominates an employee of SIB as a secretary to coordinate with the *Shari'a* Supervisory Board. In order to assist in the liaison between the ISCC and the SCD and to improve turnaround time for the ISCC's approval, the Head of the SCD normally takes up the position of the secretary to the ISCC. All matters requiring the ISCC's approval must be delivered first to the SCD, either in a formal meeting or by circulation. However, in order to be able to offer products and undertake certain types of transactions quickly and efficiently, the SCD has the authority to draft standard contracts for the various products which have been declared *Shari'a*-compliant by the ISCC. Once these standard form contracts have been approved by the ISCC, their future use does not usually require further approval from the ISCC other than in circumstances where any material amendments are required.

### **Credit Approval Procedures**

#### ***Credit exposure***

The financing policy of SIB is guided by its Islamic Financing Policy Framework, which is reviewed from time to time in light of market conditions. At all times, SIB strictly adheres to and observes the individual and aggregate percentage limits regulating large exposures stipulated by the UAE Central Bank.

#### ***Retail banking credit approval procedures***

SIB's retail products are supported by the application of stringent credit criteria. These credit criteria are dynamic and have been reviewed following the recent financial crisis. As a conservative banking institution that applies *Shari'a* rules and principles, SIB is only prepared to extend finance to those customers that can afford it with a special emphasis on debt service ratios, which are currently capped at 50 per cent. Unlike other banks in the GCC, SIB predominantly accepts applications for credit cards and finance from those customers that credit their salary to SIB. All retail banking credit is in line with Central Bank guidelines circular No. 29/2011. Any exceptions to this rule require the express permission of SIB's Credit Committee. As such, the management of SIB believes that delinquency rates have been comparatively low in retail product categories.

SIB has regular reviews and amends its real estate financing criteria in line with the regulatory requirements of the UAE Central Bank. Furthermore, individual cases are assessed for credit worthiness, and stringent credit criteria is applied in line with regulatory limits and caps imposed by the UAE Central Bank, where applicable, with the aim of protecting the financial stability of SIB.

#### ***Corporate banking credit approval procedures***

##### ***Credit Approval Process***

SIB has a centralised credit approval philosophy with ultimate authority resting with the Credit Committee, Executive Committee and Board of Directors. SIB's credit philosophy is supported by well-defined and formulated Islamic Financing Policies, guidelines and processes for credit risk management which include credit appraisal, approval and administration. In addition to Islamic Financing Policies, credit guidelines have been formulated by SIB's Board of Directors that restrict lending in certain areas. In particular, SIB maintains a dynamic 'watch list' of countries from which no investment or lending can take place. In addition, SIB maintains sector limits in order to mitigate the effects of concentration risk and exposure to certain industries.

SIB's credit approval process consists of the following stages:

- relevant business area solicits clients, prepares the necessary documentation and submits a proposal to the Credit Division;
- the Credit Division independently reviews, evaluates and assesses the documentation and prepares a due diligence report;
- the Credit Division will then make recommendations to the Credit Committee;
- the Credit Committee makes a decision within the guidelines of the Credit Committee approval authority that have been formulated by the Board of Directors. Subsequently, proposals requiring Executive Committee or Board of Director approval (in line with the relevant credit approval authority matrix) are approved or ratified in line with the limits set out in the credit approval authority matrix;
- proposals are forwarded to the Credit Administration department for the completion of final documentation; and
- the transaction or deal is carried out by the finance operations division.

### *Credit Risk Grades*

SIB uses internal credit risk grading that reflects its assessment of the probability of default of an individual customer, and as such, has adopted a 22 grade risk rating system, on a scale of 1 to 10. These risk ratings reflect an assessment of various financial and qualitative credit characteristics, widely used by banks to facilitate their risk/return and broader portfolio allocation decisions, which vary depending on the nature of the exposure and the type of borrower.

SIB's rating methodology comprises of 19 rating levels for instruments not in default (1 to 7-) and three default classes (8 to 10). An investment grade financial asset falls within credit grades 1 to 4-. A non-investment grade financial asset falls within credit grades 5+ to 7, whereas financial assets with a credit grade of 7- are considered to be watch-list. The master scale assigns each rating category a specified range of probability of default, which is stable, over time.

Each exposure is allocated a credit risk grade on initial recognition based on available information about the customer. Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade. Risk rating an account will determine the pricing of the risk. As the rating risk increases, the pricing of the risk also increases. Some accounts may fall in a grey area between two categories of risk rating, in which case the more conservative position or rating should be adopted.

The table below provides an indicative mapping of how SIB's internal credit risk grades relate to the probability of default, and for the corporate customer portfolio, to external credit ratings.

	SIB Grade & Classification		CB UAE Classification	S & P Rating Benchmark	Fitch Rating Benchmark	Moody's Rating Benchmark	ERR Grade Scale	PD %	Grade Description

### ***Security & Collateral Management***

SIB has Credit and Investment Administration Departments, which handle the completion of documentation, securities and collateral management relating to approved facilities (Credit & Investments). Prior to the granting of a new facility, SIB ensures that necessary contracts are entered into, and appropriate securities are obtained.

SIB holds collateral and securities against financing and ijara receivables in the form of cash margins, personal guarantees, and mortgages over properties or other securities over assets. Estimates of credit risk mitigation relating to financing and ijara receivables are based on the value of collateral assessed at the time of financing, and are subsequently monitored on a periodic basis.

### ***Security procedures***

SIB has a Credit and Investment Administration Department, which handles the completion of documentation, securities and collateral management relating to approved facilities. Prior to the granting of a new facility, SIB ensures that the necessary contracts are entered into and appropriate security is obtained.

### ***Non-performing financing receivable***

The International Financial Reporting Standards (IFRS) set forth strict principles for the recognition and provisioning of impaired financing receivables. SIB has therefore established and maintained regular procedures for the recognition of actual and potential defaulted payments, identification of non-serviced, unearned or overdue profit payments and for methodical assessment of potential financing receivables losses. The credit division has responsibility for monitoring non-performing loans.

On 24 July, 2014, the IASB issued IFRS 9 Financial Instruments (IFRS 9), which replaced IAS 39 "Financial instruments: Recognition and Measurement". The new classification requirements of IFRS 9 (which from 1 January 2018 replaced the previous IAS 39 standard) cover three broad topics: (i) Classification and Measurement, (ii) Impairment and (iii) Hedging.

With respect to Impairment, the adoption of IFRS 9 had a significant impact on SIB's impairment methodology, as the IFRS impairment model is forward looking compared to the previous model based on incurred losses. SIB adopted IFRS 9 with effect from the mandatory transition date of 1 January 2018. As required under IFRS 9, SIB classifies its financial assets into three different stages (i.e. Stage 1, Stage 2 and Stage 3) which are described in note 3(b)(ii) (*Impairment of financial assets*) to the 2019 Financial Statements (incorporated by reference into this Base Prospectus).

When assessing the expected credit loss on an asset, the IFRS 9 model considers the probability of default of an asset, the expected loss given default and the exposure at default. Furthermore, IFRS 9 requires an unbiased and probability weighted estimate of credit losses by also evaluating a range of possible outcomes that incorporate forecasts of future

economic conditions, including macroeconomic factors and changes in asset credit risk profile since origination, effectively bringing together information regarding past events and past performance, current conditions and forecasts of future economic conditions.

In line with UAE Central Bank requirements, relevant IFRS and SIB's internal policies and procedures, SIB classifies those accounts which are impaired and ensures provisions are made accordingly.

In order to relieve the pressure of the COVID-19 outbreak on financial institutions, the UAE Central Bank has allowed banks to apply a prudential filter to IFRS 9 expected loss provisions. The prudential filter aims to minimize the effect of IFRS 9 provisions on regulatory capital, in view of expected volatility due to COVID-19. The filter will allow banks to partially add incremental ECL provisions back to their Tier 2 capital for the purpose of calculating capital adequacy ratios. Banks are, however, required to reverse this capital benefit in a gradual and phased manner over a period of 5 years (ending on 31 December 2024).

SIB continues to pro-actively manage credit quality and delinquencies and non-performing financing receivables across its corporate and retail portfolios. The non-performing gross financing receivables ratio, excluding impaired investment securities and legacy loans and advances, decreased to 5.1 per cent. by 31 December 2019 from 5.5 per cent. reported as at 31 December 2018. The impairment allowance on non-performing financing receivables and leased assets in respect of 2019 decreased to AED 0.81 billion compared to AED 1.1 billion in 2018. This decrease was primarily due to write-offs during the year for some customers.

For further information regarding SIB's adoption of IFRS 9, see note 3 (*Summary of Significant Accounting Policies*) to the 2018 Financial Statements (incorporated by reference into this Base Prospectus).

## ***COVID-19 Business Continuity Planning***

In light of the COVID-19 outbreak, SIB has activated its business continuity policy (**BCP**). Under the BCP, SIB uses secure remote working arrangements with dual authentication access. SIB considers that it has appropriate cyber security architecture to support its commercial assets and customers without interruption to business activities.

## **Industry Regulations and Compliance**

### ***Industry regulation and supervision***

The principal source of banking regulation in the UAE is the UAE Central Bank. The UAE Central Bank provides prudential supervision of each bank's capital adequacy, liquidity and anti-money laundering controls and its general banking activities. Monitoring by the UAE Central Bank is undertaken by way of regular inspections of banks and their records and the requirement for regular submission of data including, but not limited to, deposited funds, loans and mortgage business, liquidity status and anti-money laundering measures.

SIB submits monthly, quarterly and annual reports to the Banking Supervision and Examination Department of the UAE Central Bank. SIB's Memorandum and Articles of Association, audited financial statements, the distribution of dividends and other documents are all required to be approved by the UAE Central Bank. As a UAE company, SIB is also subject to supervision and regulation at a corporate level by both the UAE Ministry of Economy and Planning and by the local regulatory authorities within each of the emirates of the UAE in relation to branches located in those emirates. For further information, see "*The United Arab Emirates Banking System and Prudential Regulation*" below.

### ***Regulation of Islamic banks***

SIB operates under a commercial banking licence granted to it by the UAE Central Bank to undertake Islamic banking activities. The licensing of Islamic banks requires the appointment of an Internal Sharia'a Control Committee which ensures the adherence to *Shari'a* principles in SIB's operations and contracts.

### ***Internal Sharia'a Control Committee (ISCC)***

The ISCC oversees the application of different aspects of Shari'a within SIB and ensures that all transactions are in strict compliance with Shari'a principles with a specific mention to AAIOFI Sharia'a Standards. The Board of Directors is obliged to obey the fatwa (judgments) of the ISCC regardless of whether a unanimous or majority vote secured the decision. ISCC meetings are held periodically or whenever the need arises.

The ISCC structures Shari'a-compliant transactions, templates and banking products which enable SIB to follow market trends while maintaining the highest levels of Shari'a compliance. It also analyses unprecedented cases which have not been covered by an existing fatwa in order to ensure Shari'a compliance before any new products are introduced or a new procedure is implemented.

As at the date of this Base Prospectus, the members of SIB's ISCC are:

**Dr. Jassem Ali Salem Al Shamsi (Chairman)**, who heads the ISCC (formerly Fatwa & *Shari'a* Supervisory Board) of Sharjah Islamic Bank, having been appointed in March 2013. He was previously the Dean of the Faculty of *Shari'a* & Law at UAE University, Al Ain. He holds a Ph.D in Civil Law from the Ain Shams University. He has authored numerous books and research papers with a special focus on comparative studies of laws with Islamic jurisprudence.

**Dr. Ibrahim Ali Abdullah Al Mansoori (Member and Managing Director of the ISCC)**, who holds a Ph.D. in Islamic Banking & Economy. He is an associate professor in Sharjah University and Ajman University. He is the author of various studies and papers on contemporary matters relating to Islamic banking and various *Shari'a* issues. He joined SIB's Fatwa & *Shari'a* Supervisory Board in March 2013.

The ISCC previously consisted of three members. As at the date of this Base Prospectus, the ISCC consists of only two members following the resignation of one of the previous members.

### ***Shari'a Control Division***

The SCAD determines the level of compliance of SIB's activities within the requisite *Shari'a* rules approved by the ISCC. It acts as a conduit between the various divisions of SIB and the ISCC. It also solves any daily queries relating

to *Shari'a* compliance and will refer to the ISCC if necessary. In addition, it refines and improves contracts and processes underlying current Islamic products and acts together with the ISCC in creating new products.

### ***Real estate property***

As at 31 December 2019, SIB owned land and buildings classified as Investment Properties and Properties Held for Sale in the Financial Statements (which are incorporated by reference in this Base Prospectus) at a carrying value of AED 3.3 billion.

### ***Capital expenditure***

SIB does not expect to incur capital expenditure outside its ordinary course of business. For the year ended 31 December 2019, SIB incurred AED 39.4 million of capital expenditure, compared to AED 41.1 million for the year ended 31 December 2018. SIB is expected to undertake capital expenditure in 2020, principally for investment in information technology (**IT**) and improving its branch network.

### ***Compliance risk and anti-money laundering policies***

SIB has implemented detailed AML and KYC policies and procedures. The responsibility for SIB's compliance function rests with the Head of Compliance. The Head of Compliance is also SIB's nominated money laundering reporting officer (**MLRO**). As part of its AML policy, SIB conducts a KYC check, which is mandatory for all new accounts. A customer profile is created at the time of account opening and is updated as customer circumstances change and develop during their time with SIB.

The MLRO acts as the main coordinator and point of contact between SIB and the Anti-Money Laundering and Suspicious Cases Unit of the UAE Central Bank (**AMLSCU**). All financial transactions (cash and non-cash transactions) are closely monitored and suspicious transactions are reported to the AMLSCU. The MLRO ensures that all black listed names circulated by regulatory bodies are checked against SIB's customer database. If a suspicious case arises, the MLRO will investigate and undertake appropriate action including reporting the case to AMLSCU if necessary.

SIB's compliance department ensures that SIB meets each of its regulatory obligations as well as ensuring that it is up to date with all regulatory developments. SIB complies with each of the regulatory obligations imposed by the UAE Central Bank, UN and international sanctions.

All staff are required to be aware of SIB's AML policy and procedures. In addition, SIB conducts AML workshops for all of its employees.

### ***Internal Audit (IAD)***

SIB's IAD operates under a charter approved by the Board of Directors. The IAD consists of 25 members that are independent from the other operations of SIB and is led by the Chief of Internal Audit. In order to ensure independence and objectivity, in line with SIB's adoption of good corporate governance standards, the IAD reports directly to the Board of Directors.

The IAD's responsibilities are defined by the Board of Directors as part of their oversight role and as a means to provide the Audit Committee and the Board of Directors with sufficient information to reach conclusions concerning the overall control of Group assets and assurance on the effectiveness of the system of internal controls within the Group.

The IAD serves to provide independent assurance to the Board of Directors and Senior Management on the quality and effectiveness of the Group's internal controls, risk management, compliance, corporate governance, systems and processes created by the business units and support and control functions, thereby providing the Board of Directors and Senior Management with such information as may be required to protect the Group and its reputation.

### **Funding**

The Investment Group's TD manages the overall short-term and long-term liquidity of SIB, guided by the overriding principle of prudent liquidity management. The division operates under the directions and guidance of SIB's ALCO and within the ambit of *Shari'a* principles. Most of SIB's long term funding requirements are met through customer deposits, collateralised repo transactions and sukuk borrowings, while short term requirements are mostly met

through inter-bank borrowings and cross border deposits. SIB considers itself to have a good reputation among peer banks and Islamic financial institutions in the GCC region, which leads to inter-bank limits from these entities above required levels. As a contingency, the TD is also exploring new regions, such as South East Asia, for inter-bank and institutional relationships. Liquidity risks are mitigated by placing surplus funds across short-term tenors ranging from the overnight market to up to 3 month inter-bank placements, as well as placements in the UAE Central Bank's Islamic certificate of deposits (which can be converted into cash within a couple of days).

Through its IBD, SIB also raises money through the international capital markets. As at the date of this Base Prospectus, SIB has a U.S.\$500 million sukuk due to mature in September 2021 and U.S.\$500 million sukuk due to mature in April 2023. In addition, in July 2019, SIB (via SIB Tier 1 Sukuk Company) issued U.S.\$500 million Additional Tier 1 Capital Certificates with a first call date in July 2025.

## **Information Technology**

The IT division seeks to ensure that all banking systems are functioning properly, and plays an important role in driving business value by delivering key projects and initiatives which help to bring SIB to the forefront of technology adoption and competitive differentiation. SIB considers its technology to be of a high standard, and agile in delivering business, customer facing and regulatory initiatives. SIB has the IT capabilities to deliver automation and efficiency improvements for corporate and government customers and the ability to integrate directly with corporate enterprise resource planning systems for positive cheque pay validation, online pension and vendor payments.

SIB became the first Islamic bank in the Middle East to launch Samsung Pay. Samsung Pay offers banking customers a highly secure mechanism for conducting point of sale transactions without the need for plastic and also offers increased security in internet and e-commerce transactions. SIB also became only the seventh bank in the UAE (and the fifth local bank) to launch Apple Pay. This demonstrates SIB's capability to adopt and launch the latest technologies. SIB also received recognition by the UAE Central Bank for being the first bank in the UAE to initiate the new Immediate Payment Instructions (IPI) transaction (a new instantaneous funds transfer service introduced by the UAE Central Bank). SIB's capabilities with regards to digital transformation are also demonstrated by its introduction of Robotic Process Automation (RPA) technology to automate business processes which are labour intensive and prone to manual error, thereby increasing operational efficiency and reducing turnaround time. SIB has also introduced a new "talking" ATM for the blind and visually impaired. The new ATM is located at the Sharjah City for Humanitarian Services (SCHS) and features a large Braille keypad in Arabic and English and a voice-assisted interface (also in both languages) that can be heard through speakers or headphones for more privacy. It also has three security cameras, instead of one as found in regular ATMs. SIB has also successfully implemented a new automated cheque clearing (ICCS) system, facilitating shorter clearing and settlement cycles through several validations with enhanced security features. In addition, SIB launched a secure mobile stock trading platform with modern features such as real-time market feeds, online market watch, news alert, customisable dashboard and online buy/sell options.

As part of the strategic partner relationship with the Sharjah Finance Department (**SFD**), online pension, vendor payments and salary payments have been launched enabling SFD to initiate such payments from their ERP system with Straight Through processing and real-time interface with SIB's core banking platform. SIB is among very few banks globally who currently possess such technological capability to integrate with external entities in a real time in a fully automated manner.

SIB is the third bank in the region to integrate QR codes in cheques, providing an additional layer of security to eliminate cheque fraud. As part of this implementation, printing all cheque types and delivery of individual cheque books is outsourced through an external vendor. SIB was the first bank in the region to implement this technology in the context of chequebooks. The integration between SIB and the vendor for cheque printing and delivery is completely online.

With regards to enterprise risk and compliance, the IT division has been instrumental in ensuring compliance with applicable local and international regulations. In 2017, a new Moody's system for IFRS 9 was implemented successfully and the Basel III system was also successfully upgraded.

The IT division's infrastructure has also undergone transformation in order to keep up with the latest technological trends and support SIB's growth. SIB's entire network infrastructure has been enhanced. In addition to the network infrastructure, the bandwidth between SIB's facilities has been upgraded successfully with in-built redundancy and fail-safe features. SIB's SWIFT infrastructure has also been upgraded to the latest infrastructure requirements.

Consistent with its strategy to protect customer information and implement best IT security practices in the banking sector, SIB's information security was awarded the ISO 27001 Certification by "Lloyd's Register" in 2018. This accreditation indicates SIB's strong security practices related to customers, regulators, partners and other stakeholders. It also demonstrates that SIB is in line with best practices for protecting critical business information and high staff awareness. Implementing the standard has also provided a strong foundation for complying with the requirements of the UAE Central Bank's mandated National Electronic Security Authority (NESA) and Information Assurance (IA) Standard.

In recognition of SIB's digital mindset and commitment to providing innovative solutions and an enriching experience to its customers, Fintech Galaxy (the MENA region's first and only FINTECH digital crowdsourcing platform) recognised SIB as the Most Innovative Islamic Bank of the year 2019 at the FinX awards held in Dubai.

### **IT Steering Committee**

The objective of the Information Technology Steering Committee (**ITSC**) is to ensure that IT initiatives at SIB are aligned to its overall business strategy and to assess and evaluate new technologies which can bring competitive advantage to SIB in terms of revenue generation, efficiency improvement and cost savings. The ITSC is headed by the CEO and comprises of other senior members of the management including DCEO, CRO, COO and Head of IT and CIA as observer, the ITSC also invites other division heads or staff to attend the meeting as required.

### **Insurance**

SIB has various insurance policies in place, including property, motor fleet and public liability. SIB believes that these insurance policies provide it with comprehensive insurance coverage against the various risks to which SIB may be exposed.

### **Litigation**

SIB is not and has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened) in the 12 months preceding the date of this Base Prospectus which may have or have in such period had a significant effect on the financial position or profitability of SIB. Therefore no material provision has been made as at 31 December 2019 regarding any outstanding legal proceedings against SIB.

### **Fiscal Year**

The fiscal year of SIB is the calendar year ending on 31 December.

### **Auditors**

The 2019 Financial Statements and the 2018 Financial Statements of SIB have been audited by PricewaterhouseCoopers (Dubai Branch), Emaar Square, Building 4, Level 8, PO Box 11987, Dubai, UAE (**PwC**), without qualification, in accordance with International Standards on Auditing (which Financial Statements are incorporated by reference in this Base Prospectus). PwC has also reviewed, without qualification, the Q1 2020 Financial Statements in accordance with the International Standard on Review Engagements 2410, "*Review of interim financial information performed by the independent auditor of the entity*", as stated in PwC's review report appearing in the Q1 2020 Financial Statements. PwC were appointed as SIB's auditors from 1 January 2018. There is no professional institute of auditors in the UAE and, accordingly, PwC is not a member of a professional body in the UAE. All PwC professionals and partners directly involved in the audit are members of the institutes from where they received their professional qualification.

### **Recent Developments**

#### *S&P's rating*

On 26 March 2020, S&P Global revised the outlook of five UAE banks from "stable" to "negative" based on the deterioration of the operating environment caused by the COVID-19 outbreak. This change in outlook led to SIB's outlook being revised to "negative" as the drop in oil prices and lower economic activity due to the expectation that COVID-19 will lead to a rise in problem loans and the cost of risk for banks in the UAE in the next 12-24 months. The rating of SIB was affirmed at A-.

SIB also participates regularly in the Career Fairs for Nationals across the UAE. Through careers fairs and regularly networking with various universities and other educational institutions in the UAE, SIB actively recruits talented UAE nationals in a variety of business critical positions within SIB. This has enabled SIB to become a leader in meeting and exceeding nationalisation targets on a consistent basis. Through Mehnati (summer internship and training), Bedayati (mass recruitment of nationals into various positions) and Ruwaad (leadership development and succession planning programs), SIB is able to enjoy the benefits of having a skilled and motivated local workforce.

SIB considers Emiratisation as a long-term strategic investment that is demonstrated through the priority given to talented UAE Nationals in employment. With the Central Bank National Points System in place, SIB has surpassed the target set for Emiratisation in 2019 achieving 638 points against a target score of 579 points as assigned by the UAE Central Bank. ## THE UNITED ARAB EMIRATES BANKING SECTOR AND PRUDENTIAL REGULATIONS

### Summary

The UAE could be viewed as an over-banked market, see further "*Characteristics of the Banking System – Lack of Consolidation*" and "*Risk Factors – Risk Factors relating to SIB and its Business – Competition*".

As a banking regulator, the UAE Central Bank, established in 1980, has grown in stature over the years and is the governing body that regulates and supervises all banks operating in the UAE. The UAE Central Bank monitors banks through its Banking Supervision and Examination Department. It conducts reviews of banks periodically based on the risk profile of each bank. It also reviews all of the returns submitted by the banks to the UAE Central Bank.

Historically, the UAE Central Bank does not act as a "lender of last resort", instead this role tends to fall on the individual Emirs of each emirate. However, the introduction by the UAE Central Bank in 2014 of the IMLF is expected to enable non-Islamic UAE banks to use certain rated or UAE federal government entity issued assets as collateral to access UAE Central Bank liquidity overnight in order to help their liquidity management. Additionally, the UAE Central Bank's extension of the spectrum of "Eligible Collateral" under the Collateralised Murabaha Facility in March 2015 will enable Islamic banks to access central bank liquidity against collateral as is the case for conventional banks under the IMLF. See "*Recent trends in banking – Liquidity*".

### Characteristics of the Banking System

#### Lack of Consolidation

The UAE could be viewed as an over-banked market, even by regional standards, with 23 locally incorporated banks and 26 foreign banks licensed to operate inside the UAE as at 31 March 2020 (source: Central Bank, preliminary data), serving a population estimated to be in the region of 9.8 million people at the end of 2018 (source: Statistical Yearbook 2019 edition, United Nations Department of Economic and Social Affairs, Statistics Division). There has traditionally been little impetus for consolidation. However, the merger between National Bank of Abu Dhabi and First Gulf Bank which was consummated on 30 March 2017, the merger between Abu Dhabi Commercial Bank, Union National Bank and Al Hilal Bank which was consummated on 1 May 2019, and the acquisition of Noor Bank by Dubai Islamic Bank which was consummated in January 2020, are anticipated to stimulate further moves towards greater consolidation amongst UAE banks.

While such continued consolidation would reduce the level of concentration in the domestic banking sector, it would also likely lead to a significant alteration of the competitive environment with fewer, larger locally incorporated banks competing for the larger financing transactions in the region with the foreign banks, which have tended to have comparatively larger franchises, with greater infrastructure and resources.

#### Domestic Focus

The UAE incorporated banks are predominantly focused on the domestic market but a number have small operations overseas and are showing growing interest in cross-border business.

With a large number of banks, competing for a limited number of wholesale lending opportunities, most banks have turned to retail banking, a previously untapped market. However, increasing competition in this area is gradually eroding margins and encouraging a relaxation of lending criteria. As the market has been tested only to a limited extent under adverse conditions, it is difficult to predict the future likelihood of asset quality problems.

Expansion of retail operations has required heavy investment in distribution channels, particularly ATM networks, kiosks and telephone and internet banking services. As a consequence, information technology costs have been a prominent feature of many UAE banks' expenses.

## **Limited Foreign Ownership**

In 1987, the UAE federal government placed a freeze on new foreign banks opening operations in the UAE. At the same time, existing foreign banks were limited to a maximum of eight branches, which restricted their ability to develop any retail potential. However, three banks of GCC state origin, the National Bank of Kuwait, SAMBA and Doha Bank, were awarded licences by the UAE Central Bank following an agreement to permit market access to banks of GCC state origin in line with continuing efforts in regional integration.

During 2002, the Government of Dubai issued a decree establishing the Dubai International Financial Centre (**DIFC**). The DIFC, located in the Emirate of Dubai, is a free trade zone and financial services centre focusing on private banking, asset management, investment banking, re-insurance activities, Islamic finance, securities trading and back office operations. The DIFC has its own civil and commercial laws and has been granted authority to self-legislate in civil and commercial cases. The opening of the DIFC has enabled international banks to establish a presence and compete in the wholesale banking market and this has seen new entities entering the market place.

## **Exposure to the Oil Sector**

With much of the economy directly or indirectly dependent on the oil sector, UAE banks are potentially vulnerable to business erosion during long periods of low oil prices (see "*Risk Factors – Risk Factors relating to SIB and its Business - The UAE's economy is highly dependent upon its oil revenues*"). In particular, oil revenues tend to drive levels of liquidity and government infrastructure investment. Gradually, however, private non-oil sectors are gaining ground and the UAE economy is becoming less susceptible to oil price movements. In particular, Sharjah is not a large oil producer, being a net consumer of oil products (with the mining and quarrying sector accounting for 6.8 per cent. of Sharjah's GDP in 2017, according to the UAE Federal Competitiveness and Statistics Authority (formerly the National Bureau of Statistics)) and it enjoys a relatively diverse economy.

## **Islamic Banking**

*Shari'a* (Islamic) law forbids the charging of interest on any financial transaction. A number of banks have developed in the Islamic world to serve customers who wish to observe this principle. These institutions offer a range of products which, whilst broadly corresponding with conventional banking transactions, are structured in a way which avoids the application of interest. The UAE is home to numerous institutions offering Islamic banking and financial products. Such institutions include: Dubai Islamic Bank P.J.S.C., Abu Dhabi Islamic Bank P.J.S.C., Emirates Islamic Bank P.J.S.C., Al Hilal Bank P.J.S.C., Ajman Bank, SIB and Amlak Finance. The number of Islamic banks continues to increase, with both new entrants to the market and existing conventional banks recasting themselves as Islamic banks. In addition, conventional financial institutions often offer *Shari'a*-compliant products.

## **Legal Environment**

There are three primary sources of law in the UAE: federal laws and decrees; local laws; and *Shari'a* (Islamic) law. In addition, Emiri decrees can be issued by the rulers of each of the emirates which, when issued, have full legal effect and operation in such emirate. The secondary form of law is trade custom or practice. In the absence of federal legislation on areas specifically reserved to federal authority, the Ruler of a given Emirate or local government will apply his or its own rules, regulations and practices.

## **Supervision of Banks**

The UAE Central Bank's primary roles are to formulate and implement banking, credit, monetary and fiscal policy and to be responsible for ensuring price and currency stability with free convertibility to foreign currencies. It is also the "bank for banks" within the UAE, although it is not the "lender of last resort". In the event of a bank experiencing financial difficulties or a solvency crisis, rescue funds – such as long-term liquidity or equity support – have historically come from the Emirate in which the institution is based. However, in the event of a run on the currency or a major banking crisis, it is likely that the Government would ultimately stand as de facto defender of the currency and the "lender of last resort".

The 2018 Federal Law grants the UAE Central Bank powers to:

- draw up and implement monetary policy;
- exercise currency issuance;
- organise licensed financial activities, establish the foundations for carrying them on, and determine the standards required for developing and promoting prudential practices in accordance with the provisions of the 2018 Federal Law and international standards;
- set up appropriate regulations and standards for protection of customers of licensed financial institutions;
- monitor the credit condition in the UAE, in order to contribute to the achievement of balanced growth in the national economy;
- manage foreign reserves to maintain, at all times, sufficient foreign currency assets to cover the monetary base as per the provisions of the 2018 Federal Law; and
- regulate, develop, oversee and maintain soundness of the financial infrastructure systems in the UAE.

Historically, income from overseas investments has been used to fund fiscal deficits, obviating the need for the UAE Central Bank to issue government debt. However, the UAE Central Bank does issue certificates of deposit (CDs) to UAE banks, denominated in both U.S. dollars and UAE dirhams, in order to absorb excess liquidity rather than to meet a specific funding need. There is presently no active secondary market in these securities, but they can be redeemed at face value at the UAE Central Bank at any time. In 2007, the UAE Central Bank introduced an auction system which allows U.S. dollar drawings against UAE dirham CD holdings.

The UAE dirham is linked to the IMF's Special Drawing Right. However, the U.S. dollar is the intervention currency and, in practice, the UAE dirham is pegged to the U.S. dollar. This pegged exchange rate has been in place since the 1980s and has proved to be resilient both to political tensions in the region and to fluctuations in oil prices.

The UAE Central Bank is also responsible for regulating financial institutions in relation to money laundering controls and enforcing Federal Law No. 20 of 2018 regarding the procedures for Anti-Money Laundering and Combating the Financing of Terrorism and Illicit Organisations. Pursuant to this, the UAE has established the National Committee for Combating Money Laundering and the Financing of Terrorism and Illicit Organisations which is responsible for co-ordinating policies and systems on anti-money laundering and the combating of terrorism financing and assessing the effectiveness of such policies and systems and the representation of the UAE in international forums on these matters. Federal Law No. 20 of 2018 also recommends the establishment of an independent "Financial Information Unit" within the UAE Central Bank to receive and investigate reports submitted by financial institutions and corporate entities regarding suspected illicit financial activity.

Although the UAE Central Bank is responsible for regulating all banks, exchange houses, investment companies and other financial institutions in the UAE, the Dubai Financial Services Authority regulates all banking and financial services activities in the DIFC. The UAE Central Bank has also been growing in stature as a banking supervisor. However, it is hampered in its role by the level of legal autonomy afforded to the individual Emirates, which at times makes it difficult to enforce directives uniformly across the banking sector.

### **Lack of Developed Capital Markets**

The absence of mature bond or equity markets in the UAE means that banks have often shouldered the burden of long-term financing. This has tended to create a maturity mismatch in their balance sheets, as most of their liabilities are short-term customer deposits. Although the two stock markets, the DFM and the ADX (both of which were established in 2000), have grown over recent years and have benefitted from the inclusion of the UAE in the MSCI Emerging Markets Index in 2014, they continue to experience bouts of volatility.

The Nasdaq Dubai (formerly known as the Dubai International Financial Exchange) is a securities exchange located in the DIFC which commenced operations on 26 September 2005. In December 2009 the DFM announced its intention to acquire the Nasdaq Dubai, with completion of the acquisition having occurred in July 2010. The DFM and the ADX were upgraded to the MSCI Emerging Markets Index with effect from 1 June 2014, which presents an opportunity for an increase in interest and investment from international institutional investors in the UAE.

### **Government Involvement**

Most of the larger banks in the UAE have some degree of government ownership. Privatisation, though advocated in principle, has been slow to manifest in practice. The state and its related entities are together the banking sector's largest customers, in terms of both deposits and project financing.

### **Expatriate Workforce**

The UAE is reliant on overseas labour, with expatriates making up approximately 82 per cent. of the workforce according to estimates published by the Federal Competitiveness and Statistics Authority in 2016. The banking sector is no exception to this and expatriates are employed in the senior management of most of the major banks. This has brought expertise from more developed markets to the sector. However, to ensure increased representation of Emiratis in the UAE financial sector (overall as well as in critical roles) and to support their professional development, the UAE Central Bank has introduced a point based scoring system as part of its Emiratisation policy, which takes into account the employment and progression of Emirati employees in the organisation. The minimum threshold for Emirati employees for each institution is dependent on a number of factors. If UAE banks are not able to achieve their targets for recruiting and progressing UAE nationals through their organisation, they will be subject to penalties which are computed in accordance with a specific formula set out in the Emiratisation Circular.

### **Accounting Standards**

Since 1 January 1999, all UAE banks have been required to prepare their financial statements in accordance with IFRS (formerly International Accounting Standards (IAS)), which has led to a substantial improvement in disclosure standards.

### **Recent Trends in Banking**

#### ***Profitability***

The UAE continues to strive towards increasing economic diversification away from the oil and gas sector. In 2018, the non-oil and gas sector contributed 74 per cent. of the UAE's nominal GDP (*source*: FCSA, 2018 Nominal GDP). Nevertheless, with the oil and gas sector contributing 26 per cent. of the UAE's nominal GDP, the price of oil has a direct impact on government fiscal revenues and the level of investment in government projects.

The high oil prices and strong economic conditions experienced in the UAE between 2004 and 2008 allowed UAE banks to expand significantly. However, much of this growth focused on the real estate sector and equity financing which, in the context of the 2008 global financial crisis, represented a significant risk to the UAE banking system. Equity prices declined generally in the UAE from 2008 to 2011 in response to the global 2008 financial crisis. Equity prices rebounded between 2012 and 2019, with the ADX's General Index increasing from 2,630.9 at 31 December 2012 to 5,174.0 at 31 December 2019, and the Dubai Financial Market index increasing from 1,662.5 at 31 December 2012 to 2,764.9 at 31 December 2019 (*source*: Bloomberg).

During 2008 to 2010, a number of banks were also affected by the impact of mark to market accounting rules on their international investment portfolios. Additionally, during the same period, the UAE economy was negatively impacted by the global economic downturn and, in particular, by the sharp correction in the price of oil, which affected a number of key economic sectors including trade, tourism, real estate and commerce. This economic slowdown, along with reduced levels of liquidity in the market, constrained lending and resulted in the majority of UAE banks being less profitable in this period than in previous years.

With the improvement in global and regional economic growth, better liquidity conditions and higher foreign direct investment, the banking sector in the UAE has recovered well and continues to generate profits, albeit at a more moderate and sustainable pace. Regulatory developments and increased compliance requirements have also moderated growth in the profitability of the UAE banking sector.

### ***Liquidity***

The UAE Central Bank closely monitors the level of liquidity in the banking system. It also requires that banks have in place adequate systems and controls to manage their liquidity positions, as well as contingency funding plans to cope with periods of liquidity stress.

Banks must also adhere to a maximum loan to deposit ratio of 100 per cent. set by the UAE Central Bank. In this context, loans comprise loans and advances to customers and interbank assets maturing after three months.

UAE banks are mostly funded through on demand or time based customer deposits made by private individuals or private sector companies based in the UAE. According to preliminary data made available by the UAE Central Bank, resident deposits constituted approximately 88.3 per cent. of total deposits of the UAE banking sector (excluding inter-bank deposits and bank drafts but including commercial prepayments and borrowings under repurchase agreements) as at 31 March 2020. Of these, government and government-related entity deposits constituted approximately 31.5 per cent. of total resident deposits within the UAE banking sector (excluding inter-bank deposits but including commercial prepayments and borrowings under repurchase agreements) as at 31 March 2020. Non-resident sources constituted approximately 11.7 per cent. of total deposits within the UAE banking sector (excluding inter-bank deposits but including commercial prepayments and borrowings under repurchase agreements) as at the same date (source: UAE Central Bank Statistical Bulletin March 2020).

The UAE Central Bank has tightened regulations on how banks in the UAE manage liquidity through the introduction of new qualitative, quantitative and reporting requirements on liquidity risk management. In line with Basel III requirements, the UAE Central Bank has issued UAE Central Bank Notice No. 33/2015 on liquidity requirements (which was issued by the UAE Central Bank on 27 May 2015 and which entered into force with effect from 1 July 2015, replacing Central Bank Notice No. 30/2012) (the **Liquidity Notice**) and which includes a set of qualitative and quantitative liquidity requirements for UAE banks. The qualitative requirements set out in the Liquidity Notice elaborate on the responsibilities of a UAE bank's board of directors and senior management as well as the overall liquidity risk framework. The new regulations are intended to ensure that liquidity risks are well managed at banks operating in the UAE and are in line with the Basel Committee's recommendations and international best practices. These requirements include the following:

#### *Responsibilities of the board of directors:*

- to bear ultimate responsibility for liquidity risk management within the relevant UAE bank;
- to be familiar with liquidity risk management with at least one board member having detailed understanding of liquidity risk management; and
- to ensure the clear articulation of liquidity risk tolerance in line with the relevant UAE bank's objectives, strategy and risk appetite.

#### *Responsibilities of Senior Management:*

- to develop strategies, policies and practices to manage liquidity risk in accordance with the liquidity risk tolerance set by the board of directors;
- to review the UAE bank's strategy and to report to the board of directors on regulatory compliance on a regular basis; and
- to manage liquidity risk in a prudent manner using all available liquidity risk management tools.

### *Liquidity risk framework:*

The Liquidity Notice requires each UAE bank to have a robust liquidity risk framework which comprises the following elements:

- sound processes and systems to identify, measure, monitor and control liquidity risk in a timely and accurate manner;
- a robust liquidity risk management framework (which must be shared with the UAE Central Bank upon request) with limits, warning indicators, communication and escalation procedures;
- regular internal stress testing of the portfolio for a variety of scenarios (both institution specific and market-wide); results being communicated to the board of directors and the UAE Central Bank on request;
- incorporation of liquidity costs, benefits and risks into product pricing and approval processes;
- establishment of a forward-looking funding strategy with effective diversification of funding sources and tenors;
- setting of formal contingency funding plans which clearly set out strategies for addressing liquidity shortfalls in emergency situations (and which must be shared with the UAE Central Bank upon request);
- establishment of an adequate cushion of unencumbered, highly liquid assets as insurance against a range of liquidity stress scenarios; and
- a transfer pricing framework (which is commensurate with the bank's liquidity risk tolerance and complexity) developed to reflect the actual cost of funding.

The quantitative requirements set out in the Liquidity Notice are intended to ensure that each UAE bank holds a minimum level of liquid assets which allow it to sustain a short-term liquidity stress (in circumstances both specific to that bank and market wide). In particular, the requirements include two interim ratios which were intended to apply until the Basel III LCR and NSFR (each as defined below) come into effect. These include the following:

	<u>Ratio</u>	<u>Applicability Period</u>
Interim ratios:	Eligible Liquid Assets Ratio (ELAR $\geq$ 10%)	1 July 2015 until LCR implementation for approved banks
	Advances to Stable Resources Ratio (ASRR $<$ 100%)	30 September 1986 until NSFR implementation for approved banks
Basel III ratios:	Liquidity Coverage Ratio (LCR $>$ 100%)	Effective transition from 1 January 2016 for approved banks
	Net Stable Funding Ratio (NSFR $<$ 100%)	Effective January 2018 for approved banks

The UAE Central Bank's eligible liquid assets ratio (the **ELAR**) is an interim ratio which was designed to apply pending the liquidity coverage ratio (the **LCR**) becoming effective (as described below). Under the ELAR, UAE banks are required to hold an amount equivalent to at least 10 per cent. of their liabilities in high quality liquid assets (including cash held with the UAE Central Bank, the UAE Central Bank CDs and certain UAE local government and public sector entity publicly traded instruments).

The Liquidity Notice also includes the option for UAE banks to apply to the UAE Central Bank to move to assessment of bank liquidity as against the LCR (and away from assessment against the interim ELAR), with effect from 1 January 2016. Any UAE banks taking up this option were required to comply with the ELAR until 1 January 2016, after which date they are required to move to compliance with the LCR (subject to receipt of UAE Central Bank approval).

The LCR represents a 30 days stress scenario with combined assumptions covering both bank specific and market wide stresses. These assumptions are applied to contractual data representing the main liquidity risk drivers at banks to determine cash outflows within the 30 days stress scenario. The LCR requires that UAE banks should always be able to cover the net cash outflow with eligible liquid assets at the minimum LCR determined by the UAE Central Bank. The Basel III accord requires that this minimum is 100 per cent. The Liquidity Notice describes in detail eligible liquid assets for this purpose.

As part of the Central Bank's gradual implementation of the Basel III reforms in the UAE, the UAE Central Bank has introduced LCR in a phased manner, setting an initial benchmark of 60 per cent. upon commencement of LCR compliance, increasing to 100 per cent. by 2019. This graduated approach was designed to ensure that the LCR could be introduced without disruption to the orderly strengthening of banking systems or the ongoing financing of economic activity in the UAE.

The Advances to Stable Resources Ratio (the **ASRR**) was an interim ratio which applies to UAE banks until they become subject to the NSFR (as described below). The ASRR recognised both the actual uses as well as the likely uses of funds in terms of contractual maturity and behavioural profile of the sources of funds available to the bank, in order to ensure that there are limited maturity mismatches and cliff effects.

The net stable funding ratio (the **NSFR**) is a structural ratio that aims to ensure that banks have adequate stable funding to fund the assets on their balance sheets. It also requires an amount of stable funding to cover a portion of the relevant UAE banks contingent liabilities. The NSFR mirrors the Basel III NSFR standard. The NSFR identifies the key uses of funds and the different types of funding sources used by the UAE banks. It assigns available stable funding (**ASF**) factors to the sources of funds and required stable funding (**RSF**) (usage) factors to asset classes and off balance sheet contingent exposures. The assigned ASF factor depends on the terms of funding and the perceived stability of the funding sources. The assigned ASF factor will depend on the liquidity of the asset being funded under a market-wide stress. Both factors follow the Basel III NSFR standard.

#### *Interim Marginal Lending Facility*

On 15 April 2014, the UAE Central Bank introduced the Inter Marginal Lending Facility (the **IMLF**) which allows non-Islamic UAE banks to use certain rated or UAE federal government entity-issued assets to access UAE Central Bank liquidity overnight in order to help their liquidity management during times of market stress.

The IMLF will let lenders use certain assets as collateral to obtain one-day overnight loans from the UAE Central Bank. Eligible assets that can be used as collateral must be tradeable and include bonds, sukuk and securities issued by the UAE federal government or government-related entities in individual Emirates, as well as by UAE banks and corporations. Securities issued by foreign governments, banks, corporates and supranational agencies can also be used as collateral, but must carry a minimum 'A' credit rating from one of the three main international rating agencies. Banks accessing the IMLF must borrow a minimum of AED 10 million and will be charged 100 basis points over the official UAE "Repo Rate".

#### *Collateralized Murabaha Facility*

On 22 June 2011, the UAE Central Bank announced that it would be offering a Collateralized Murabaha Facility to banks in the UAE to provide a source of liquidity to banks. On 22 March 2015, the UAE Central Bank extended the spectrum of "Eligible Collateral" for the existing Collateralized Murabaha Facility to include Shari'a compliant securities, effective from 1 April 2015. Islamic banks operating in the UAE, such as SIB, can now access funds from the Central Bank on an overnight basis by posting eligible securities as collateral.

#### *Position of Depositors*

There is no formal deposit protection scheme in the UAE. While no bank has, so far, been permitted to fail, during the 1980s and early 1990s a number were restructured by the relevant government authorities. In October 2008, in response to the global financial crisis, the UAE federal government announced that it intended to guarantee the deposits of all

UAE banks and foreign banks with core operations in the UAE and a draft law guaranteeing federal deposits was approved by the UAE's National Federal Council in May 2009. In addition, the 2018 Federal Law provides that the board of directors of the UAE Central Bank may issue regulations for the protection of deposits and the rights of depositors. However, until such time as any such law or regulations are passed, there is no guaranteed government support.

### ***Prudential Regulations***

The UAE Central Bank has supervisory responsibility for banking institutions in the UAE. Supervision is carried out through on-site inspections and review of periodic submissions from the banks. The frequency of inspection depends on the perceived risk of the bank, but inspections are carried out in all banks at least once every 18 months. Prudential returns are made monthly, quarterly, semi-annually or annually, depending on the nature of the information they contain. An improved risk management framework has been implemented, aimed at providing the UAE Central Bank with more up to date information on credit, market and operational risks within the banking sector.

### ***Capital Adequacy***

All banks are required to follow the principles of the Basel accord in calculating their capital adequacy ratios. Basel II was introduced effective 17 November 2009 by way of UAE Central Bank Circular Number 27/2009. Since 1993, the UAE Central Bank had imposed a 10 per cent. minimum total capital ratio on all UAE banks. In a circular dated 30 August 2009, the UAE Central Bank announced amendments to its capital adequacy requirements, such that UAE banks were required to have a total capital adequacy ratio of at least 11 per cent., with a Tier I ratio of not less than 7 per cent., by 30 September 2009. Furthermore, the UAE Central Bank required banks operating in the UAE to increase their Tier 1 capital adequacy ratio to at least 8 per cent., with a minimum total capital adequacy ratio of at least 12 per cent., by 30 June 2010. Thereafter, through its circular dated 17 November 2009 introducing Basel II, the UAE Central Bank stated that it was expected that the main banks in the UAE would move to the Foundation Internal Rating Based approach under Basel II in due course. Through this circular, the UAE Central Bank reiterated that all banks operating in the UAE were required to maintain a minimum capital adequacy ratio of 11 per cent. at all times, increasing to 12 per cent. by 30 June 2010 and also laid out its expectations in relation to Pillar II and Pillar III of the Basel II framework. Profits for the current period, goodwill, other intangibles, unrealised gains on investments and any shortfall in loan loss provisions were deducted from regulatory capital.

Whilst the calculation of capital adequacy ratios in the UAE follows the Bank of International Settlements guidelines, claims on or guaranteed by GCC central governments and central banks are risk-weighted at zero per cent.; claims on GCC government non-commercial public sector entities are risk-weighted at 50 per cent.; and GCC sovereign debt is risk-weighted at zero per cent.

As part of the introduction of Basel III in the UAE, and pursuant to the UAE Central Bank's Regulations re Capital Adequacy (effective from 1 February 2017), the Standard re Capital Supply (effective from 31 December 2017) and the Standard re Tier Capital Instruments (effective from 31 March 2018) (the **TCI Standard**), which set out the supervisory expectations of the UAE Central Bank with respect to the relevant Basel III capital adequacy requirements and how they will be applied by the UAE Central Bank, SIB is required by the UAE Central Bank to maintain a minimum total capital adequacy ratio of 12.375 per cent. As of 31 December 2019, SIB's capital adequacy ratio was 22.79 per cent.

## ***Credit Controls***

Banks are required by the UAE Central Bank to establish credit policies and procedures commensurate with their size and activities. They must also have a proper credit assessment and approval process and adequate controls in place to monitor credit concentrations to, among others, individual borrowers, economic sectors and foreign countries.

The UAE Central Bank's Retail Circular introduced regulations regarding bank loans and other services offered to individual customers. These regulations, among other things, impose maximum loan/income and loan to value ratios for retail products. For example, the regulations require that the amount of any personal consumer loan shall not exceed 20 times the salary or total income of the borrower with the repayment period not exceeding 48 months. These regulations may be amended in the future in accordance with the Mortgage Regulations (which were published in the Official Gazette on 28 November 2013 and entered into force on 28 December 2013, superseding UAE Central Bank notice no. 3871/2012 dated 30 December 2012), which specifies that the amount of mortgage loans for non-UAE nationals should not exceed 75 per cent. of the property value for a first purchase of a home (with a value of less than or equal to AED 5 million), 65 per cent. of the property value for a first purchase of a home (with a value greater than AED 5 million) and 60 per cent. of the property value (irrespective of the value of the property) for second and subsequent homes. For UAE nationals, the corresponding limits are set at 80 per cent. in respect of a first purchase of a home with a value less than or equal to AED 5 million, 70 per cent. for a first home with a value greater than AED 5 million and 65 per cent. of the property value for a second or subsequent purchase (irrespective of the value of the property).

## ***Large Exposures***

The UAE Central Bank defines large exposures as any funded or unfunded exposures (less provisions, cash collaterals and deposits under lien) to a single borrower or group of related borrowers exceeding prescribed limits.

The UAE Central Bank published the Large Exposure Notice in the Official Gazette on 30 December 2013 and it entered into force on 30 January 2014. The Large Exposure Notice introduced limits of 100 per cent. of the bank's capital base for all lending to UAE local governments and their non-commercial entities, together with a 25 per cent. limit to any single such non-commercial entity. Exposures above these limits are subject to approval by the UAE Central Bank. Set out below is a table showing a summary of the changes introduced by the Large Exposure Notice (defined as a percentage of the bank's capital base calculated under Basel II):

	<u>Individual</u>	<u>New Limit Aggregate</u>	<u>Old Limit Individual</u>	<u>Aggregate</u>
UAE federal government and their non-commercial entities .....	Exempt	Exempt	Exempt	Exempt
UAE local government and their non-commercial entities .....	No cap for UAE local government; 25% for each non-commercial entity	100%	Exempt	Exempt
Commercial entities of UAE federal government and UAE local government .....	25%	100%	25%	None
Commercial or other (non-commercial) private sector entities and individuals.....	25% max	None	7%	None
Shareholders who own 5 per cent. or more of the bank's capital and related entities .....	20%	50%	7%	None
Exposure to bank's subsidiaries and affiliates.....	10%	25%	20%	60%
Board members .....	5%	25%	5%	25%

## ***Provisions for Loan Losses***

For UAE banks, IFRS 9 was introduced for financial reporting periods commencing on 1 January 2018, replacing IAS 39 and introducing an ECL model for the measurement of the impairment of financial assets, such that it is no longer necessary for a credit event to have occurred before a credit loss is recognised. The guiding principle of the ECL model is to reflect the general pattern of deterioration or improvement in the credit quality of financial instruments. IFRS 9

provision uses a three stage approach in recognising increased credit risk at each stage of risk (i.e., stage 1 for current facilities, stage 2 for significant increase in credit risk and stage 3 for impaired loans).

### *Establishing a Credit Bureau in the UAE*

Al Etihad Credit Bureau (the **AECB**) is a federal government company specialised in providing UAE-based credit reports and other financial information. AECB commenced operations in 2014 upon receiving formal approval from the UAE Cabinet of its regulations and its charges for producing credit reports. AECB has approached all UAE-based banks to sign data sharing agreements to enable the provision of customer credit information, with the majority having entered into such agreements and/or made successful initial data submissions to AECB by the time AECB commenced operations.

The implementation of regulations for the sharing of credit report data and the commercial operation of the UAE's first credit bureau is expected to reduce the risk involved in the origination of customer lending and banking business generally.

### **COVID-19**

In response to the COVID-19 outbreak (see "*Risk Factors – Risks relating to SIB and its business – Political, economic and related risks*"), effective from 15 March 2020, the UAE Central Bank implemented a Targeted Economic Support Scheme (the **TESS**) including a range of measures aimed at mitigating the effects of COVID-19 on the UAE economy. The TESS and other accompanying stimulus measures include (in addition to cutting interest rates as discussed in such risk factor):

#### *Targeted Economic Support Scheme*

- allowing banks operating in the UAE access to loans and advances, against collateral, extended at zero cost by the UAE Central Bank until 31 December 2020, the proceeds of which are to be used by UAE banks to grant temporary relief to private sector corporate customers and retail clients;
- whilst keeping the existing 2.50 per cent. capital conservation buffer and the domestic systemically important bank (**DSIB**) buffers in place, allowing banks to utilise 60 per cent. of their capital conservation buffer and 100 per cent. of their DSIB buffer without supervisory consequences until 31 December 2021, subject to having fully utilised the limit available under the zero cost facility of TESS;
- allowing banks that are subject to regulatory LCR requirements to fall below the regulatory LCR requirement of 100 per cent. provided that their LCR is higher than or equal to 70 per cent, while other banks are able to fall below the regulatory ELAR requirement of 10 per cent. provided that their ELAR is higher than or equal to 7 per cent., with such changes to the LCR and ELAR applicable until 31 December 2021, subject to having fully utilised the limit available under the zero cost facility of TESS; and
- expecting banks to leave unchanged and not downgrade the IFRS 9 staging and classification of customers at stage 1 who are receiving temporary relief linked to the TESS.

#### *Further measures to support the UAE economy in response to COVID-19*

- postponing the planned implementation of certain Basel III capital requirements until 31 March 2021; and
- enabling banks to apply a prudential filter to IFRS 9 expected loss provisions. The prudential filter will allow any increase in IFRS 9 provisioning compared to 31 December 2019 to be partially added back to regulatory capital. This will allow IFRS 9 provisions to be gradually phased-in over a five year period until 31 December 2024.

As at the date of this Base Prospectus, SIB has accessed support available to it through the TESS. In addition, SIB has also availed of the opportunity to apply a prudential filter to its IFRS 9 expected loss provisions. Although SIB has sought to make use of the foregoing measures made available to it by the UAE Central Bank, it has not as at the date of this Base Prospectus sought to access any of its existing capital buffers.

## OVERVIEW OF THE PRINCIPAL TRANSACTION DOCUMENTS

*The following is a summary of certain provisions of the principal Transaction Documents and is qualified in its entirety by reference to the detailed provisions of the principal Transaction Documents. Copies of the Transaction Documents will be available for inspection at the offices of the Principal Paying Agent (as defined in the Conditions).*

In particular, the Service Agent will, in relation to each Series, perform, amongst other things, the following services (the **Services**) as agent of the Trustee:

- (a) it shall service the Portfolio in accordance with the corresponding Investment Plan set out in the Schedule to the Service Agency Agreement (a copy of which will be scheduled to the relevant Supplemental Purchase Contract, which includes the annual amount of expected Portfolio Income Revenues (as defined below) of the Portfolio (the **Expected Portfolio Income Revenues Amount**)), which shall be completed at the time of issue of the first tranche of the relevant Series upon receipt from the Trustee of the relevant Supplemental Purchase Contract and the applicable Final Terms;
- (b) if the Trustee issues an additional tranche, it shall, as soon as practicable, after such issuance amend the Investment Plan for that Series to take into account the issuance of such additional tranche;
- (c) it shall ensure that, on the Issue Date of each tranche of a Series at least 51 per cent. of the Value (as defined below) of the relevant Portfolio is derived from Tangible Assets;
- (d) it shall use its best endeavours to procure that, at all times following each Issue Date of the first Tranche of a Series, at least 51 per cent. of the Portfolio Value is derived from Tangible Assets (such minimum tangibility level being the **Minimum Tangible Asset Requirement**) and in the event that, at any time, the aggregate Value of the Tangible Assets comprised within the Portfolio should fall below the Minimum Tangible Asset Requirement, the Service Agent shall use its best endeavours to acquire as soon as reasonably practicable thereafter sufficient Tangible Assets to raise such percentage to a level that is equal to or greater than the Minimum Tangible Asset Requirement at such time (whether through the substitution, or procuring the substitution by SIB pursuant to the Sale Undertaking, of Tangible Assets for other assets or the acquisition for and on behalf of the Trustee of further Tangible Assets through the reinvestment of Portfolio Principal Revenues (as defined below)). Should the Service Agent, exercising its best endeavours, fail to procure satisfaction of the Minimum Tangible Asset Requirement, it shall promptly take all such steps necessary (including, without limitation, in accordance with Clause 5.2 and seeking guidance from its Internal Sharia

Control Committee) to procure the satisfaction of the Minimum Tangible Asset Requirement. If the failure to procure satisfaction of the Minimum Tangible Asset Requirement continues for whatever reason to the extent that less than 33 per cent. of the Portfolio Value is derived from Tangible Assets at any time, it shall take any such measures that it agrees with its Internal Shari'a Control Committee provided that such measures are not prejudicial to the interests of the Certificateholders. A breach of this requirement will not, however, constitute a SIB Event;

- (e) it will at no time substitute any Asset(s) for any Asset(s) of a Value less than the Value of the Asset(s) so substituted at that time;
- (f) it shall use its best endeavours promptly to place (for and on behalf of the Trustee) all Portfolio Principal Revenues in acquiring, for and on behalf of the Trustee, further Tangible Assets and, to the extent insufficient Tangible Assets are available, to invest the cash sums representing such Portfolio Principal Revenues in Shari'a Compliant Investments (being an investment product which is structured to comply with Shari'a principles, including investment deposits with a Shari'a compliant financial institution) until it can, using its best endeavours, place those sums in further Tangible Assets and such sums and Shari'a Compliant Investments shall form part of the relevant Portfolio until they can be so placed;
- (g) it shall do all acts and things (including execution of such documents, issue of notices and commencement of any proceedings) that it considers (and without the need for the consent of the Trustee) reasonably necessary to ensure the assumption of, and compliance by each Asset Obligor with its covenants, undertakings or other obligations under the Asset Contract to which it is a party in accordance with applicable law and the terms of the Asset Contract, in each case in respect of the Assets;
- (h) it shall discharge or procure the discharge of all obligations to be discharged by SIB (in whatever capacity) in respect of any of the Assets under all Asset Contracts, it being acknowledged that the Service Agent may appoint one or more agents to discharge these obligations on its behalf;
- (i) it shall pay on behalf of the Trustee any actual costs, expenses, losses and Taxes (as defined in the Service Agency Agreement) which would otherwise be payable by the Trustee as a result of the Trustee's ownership of the Portfolio, such actual costs, expenses, losses and Taxes will be reimbursed in accordance with the Service Agency Agreement;
- (j) it shall use all reasonable endeavours to ensure the timely receipt of all Portfolio Revenues, investigate non-payment of Portfolio Revenues and generally make all reasonable efforts to collect or enforce the collection of such Portfolio Revenues under all Asset Contracts as and when the same shall become due;
- (k) it shall ensure that all Portfolio Income Revenues are received free and clear of all set-off, counterclaims deductions or withholdings for or on account of Taxes (or have otherwise been grossed up accordingly);
- (l) it shall use all reasonable endeavours to ensure that the Portfolio Income Revenues are at least equal to the Expected Portfolio Income Revenues Amount;
- (m) it shall maintain the Collection Accounts as described further under "*Collection Accounts*" below;
- (n) it shall obtain all necessary authorisations in connection with any of the Assets and its obligations under or in connection with the Service Agency Agreement;
- (o) it shall use its best endeavours to service the relevant Portfolio to ensure that the relevant Portfolio Value is, at all times, at least equal to the outstanding face amount of the relevant Certificates;
- (p) it shall use its reasonable endeavours to ensure that all Asset Obligors in respect of Tangible Assets maintain industry standard insurances, and fulfil all structural repair and major maintenance obligations in respect of the relevant Tangible Assets (each in accordance with the terms of the relevant Asset Contracts relating to the Tangible Assets); and

- (q) it shall carry out any incidental matters relating to any of the above services.

For these purposes:

**Asset** means, in relation to a Series, each asset constituting the relevant Portfolio.

**Asset Contract** means the contracts and/or other agreements and/or documents evidencing or otherwise related to or associated with an Asset.

**Asset Obligor** means any person (other than SIB or any person acting on behalf of SIB or in conjunction with SIB as part of a syndicate of financiers or investors) that is a party to an Asset Contract as a party owing obligations to SIB or any person acting on behalf of SIB.

**Shari'a Compliant Investment** means an investment product which is structured to comply with Shari'a principles and shall include any investment deposit with a Shari'a compliant financial institution.

**Portfolio Value** means the sum of: (a) the Value of each Asset comprised in the Portfolio at the relevant time; and (b) any Portfolio Principal Revenues held by the Service Agent at the relevant time.

**Value** means, in respect of any Asset, the amount in the Specified Currency (following conversion, if necessary, of any relevant amount(s) at the spot rate of exchange (as defined in the Service Agency Agreement)) determined by SIB on the relevant date as being equal to: (a) in the case of Tangible Assets which are leased on an *ijara muntahiah bittamleek* (financial lease) basis, the aggregate of all outstanding fixed rental instalment amounts payable by the lessee or other equivalent fixed instalment amounts payable by the obligor, in each case in the nature of capital or principal payments in respect of the relevant asset; (b) in the case of Tangible Assets which are not leased on an *ijara muntahiah bittamleek* (financial lease) basis, the initial agreed value or the outstanding base amounts or other equivalent of aggregate fixed instalment amounts payable by the obligor or any other amounts in the nature of capital or principal payments in respect of the relevant asset; (c) in the case of Other Tangible Assets, the outstanding capital, investment amounts or, in the case of sukuk, outstanding face amount; (d) in the case of any Shari'a Compliant Investments that form part of the Portfolio, the outstanding principal amount invested in that Shari'a Compliant Investment; and (e) in each case determined by SIB as being equal to the value of that Asset on each day on which it remains part of the relevant Portfolio.

#### ***Records and documents***

The Service Agent will undertake, in relation to each Series, that it will keep and maintain (and provide to the Trustee within 90 days of receiving a request in writing) all documents, books, records and other information reasonably necessary or advisable for the collection of all amounts due in respect of the Assets and all amounts credited to the Collection Accounts.

The Service Agent will agree in the Service Agency Agreement:

- (a) to provide the Services in accordance with all applicable laws and regulations;
- (b) to provide the Services with the degree of skill and care that it would exercise in respect of its own assets; and
- (c) to service the Assets in accordance with Shari'a principles as laid down by its Internal Shari'a Control Committee.

#### ***Service Agency Liabilities Amounts and Fees***

The Trustee and the Service Agent will agree that any Service Agency Liabilities Amounts (as defined below) incurred by the Service Agent in providing the Services in relation to a Series shall be paid by the Trustee by way of the application of amounts standing to the credit of the Income Collection Account (as defined below) by the Service Agent on the Trustee's behalf in payment of such amounts from time to time (as described below) or otherwise on the final Dissolution Date under the Programme.

For these purposes, **Service Agency Liabilities Amounts** means, in relation to each Series, the amount of any claims, losses, costs and expenses properly incurred or suffered by the Service Agent or other payments made by the Service

Agent on behalf of the Trustee in each case in providing the Services during a **Distribution Period** (being a period that corresponds with the relevant Return Accumulation Period under the Certificates), but does not include amounts in respect of any Liquidity Facilities (as defined below).

SIB shall be entitled to receive a fixed fee of U.S.\$100 for acting as Service Agent under the Service Agency Agreement. In addition, following payment of all amounts due and payable under the Certificates of each Series on the final Dissolution Date, the Service Agent will be entitled to retain any amounts that remain standing to the credit of the Income Reserve Collection Account in relation to that Series for its own account as an incentive payment for acting as Service Agent.

### ***Asset Substitutions***

In accordance with the terms of the Service Agency Agreement the Trustee and the Service Agent agree that in relation to each Series and provided no Dissolution Event has occurred and is continuing, SIB may at any time exercise its rights under the Sale Undertaking to substitute (and, upon any Asset ceasing to be an Eligible Asset (as defined in the Purchase Agreement), the Service Agent will procure that SIB uses all reasonable endeavours to so substitute) any one or more of the Assets as SIB may select in accordance with the Sale Undertaking. The new Asset(s) for these purposes will be Eligible Assets of a Value not less than the Value of the Substituted Asset(s) (as defined in the Sale Undertaking) and any such substitution shall otherwise be undertaken on the terms and subject to the conditions of the Service Agency Agreement and the Sale Undertaking.

### ***Collection Accounts***

In relation to each Series, the Service Agent will maintain three ledger accounts (such accounts being the **Principal Collection Account**, the **Income Collection Account** and the **Income Reserve Collection Account**) in its books (each of which shall be denominated in the Specified Currency) in which all revenues from the Assets (the **Portfolio Revenues**) will be recorded. The Portfolio Revenues include all rental and other amounts payable by the relevant Asset Obligor under the terms of the relevant Asset Contract, all sale proceeds or consideration, damages, insurance proceeds, compensation or other sums received by the Service Agent or SIB in whatever currency in respect of or otherwise in connection with the relevant Assets and all sums payable in respect of, or received from the liquidation of, any Shari'a Compliant Investments. All Portfolio Revenues in relation to each Series will be recorded:

- (a) to the extent that any such amounts comprise amounts in the nature of sale, capital or principal payments, expressed, whenever applicable, as an amount in the Specified Currency (following conversion, if necessary, of any relevant amounts at the spot rate of exchange determined by SIB) (**Portfolio Principal Revenues**) in the Principal Collection Account; and
- (b) to the extent that any such amounts comprise amounts other than Portfolio Principal Revenues (**Portfolio Income Revenues**), in the Income Collection Account.

Amounts standing to the credit of the Income Collection Account relating to each Series will be applied by the Service Agent on each **Distribution Determination Date** (being the Business Day immediately prior to the relevant Periodic Distribution Date under the Certificates of the relevant Series) in the following order of priority:

- (a) first, in repayment of any amounts advanced and outstanding by way of a Liquidity Facility;
- (b) second, in payment of any Service Agency Liabilities Amounts for the Distribution Period ending immediately before the immediately following Distribution Date (being the date which corresponds with the relevant Periodic Distribution Date under the Certificates of the relevant Series);
- (c) third, the Service Agent will pay into the relevant Transaction Account an amount equal to the lesser of the Required Amount payable on the immediately following Periodic Distribution Date and the remaining balance of the Income Collection Account; and
- (d) any amounts still standing to the credit of the Income Collection Account immediately following payment of all of the above amounts shall be debited from the Income Collection Account and credited to the Income Reserve Collection Account.

For the purposes of the Service Agency Agreement, the **Required Amount** will mean an amount equal to the aggregate of the Periodic Distribution Amounts and any other amounts payable by the Trustee in respect of the relevant Certificates on each relevant Periodic Distribution Date.

The Service Agent will be entitled to deduct amounts standing to the credit of the Income Reserve Collection Account at any time and use such amounts for its own account, provided that such amounts shall be repaid by it if so required to fund a Shortfall (as defined and described below).

### ***Shortfalls and Liquidity Facilities***

If on a Distribution Determination Date (after: (i) payment of the relevant amounts standing to the credit of the Income Collection Account into the relevant Transaction Account in accordance with paragraph (c) under “*Collection Accounts*” above; and (ii) taking into account any other payments made or to be made into the relevant Transaction Account pursuant to any other Transaction Document) there is a shortfall (each a **Shortfall**) between:

- (a) the amounts standing to the credit of the relevant Transaction Account; and
- (b) the Required Amount payable on the immediately following Periodic Distribution Date,

the Service Agent will pay into the relevant Transaction Account on that Distribution Determination Date from the amounts standing to the credit of the Income Reserve Collection Account (if any) an amount equal to the Shortfall (or such lesser amount as is then standing to the credit of the Income Reserve Collection Account). If any Shortfall still remains after payment to the relevant Transaction Account of the amounts credited to the Income Reserve Collection Account (as described in this paragraph) and after payment to the relevant Transaction Account of all other amounts payable pursuant to any other Transaction Document, the Service Agent may either: (A) provide Shari’a compliant funding itself; or (B) procure Shari’a compliant funding from a third party, in each case, to the extent necessary, by payment of the same into the relevant Transaction Account, on terms that such funding is repayable: (i) from Portfolio Income Revenues in accordance with the Service Agency Agreement; or (ii) on the date on which the Certificates of the relevant Series are redeemed in full, to ensure that the Trustee receives on each Distribution Determination Date the Required Amount payable by it in accordance with the Conditions of the relevant Series on the immediately following Periodic Distribution Date (such funding in relation to a Series, a **Liquidity Facility**).

### ***Payments under the Service Agency Agreement***

The Service Agent will agree in the Service Agency Agreement that all payments by it under the Service Agency Agreement will be made without any deduction or withholding for or on account of tax unless required by law and (save as set out therein and without prejudice to paragraph (h) under “*Services*” above) without set-off or counterclaim of any kind and, in the event that there is any deduction or withholding, the Service Agent shall pay all additional amounts as will result in the receipt by the Trustee of such net amounts as would have been received by it if no such deduction or withholding had been made. The payment obligations of the Service Agent under the Service Agency Agreement will be direct, unconditional, unsubordinated and (subject to the provisions of the Purchase Undertaking) unsecured obligations of the Service Agent which rank at least *pari passu* with all other present and future unsubordinated and unsecured obligations of SIB save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

### ***Purchase Undertaking***

The Amended and Restated Purchase Undertaking will be executed as a deed on 28 May 2020 by SIB in favour of SIB Sukuk Company III Limited (in its capacity as Trustee) and the Delegate, and will be governed by English law.

SIB will, in relation to each Series, irrevocably undertake in favour of the Trustee and the Delegate to purchase all of the Trustee’s rights, title, interests, benefits and entitlements in, to and under the relevant Portfolio on the relevant Scheduled Dissolution Date or any earlier Dissolution Date (other than where the Dissolution Date is a Certificateholder Put Option Date, as to which see below) for the relevant Series at the Portfolio Exercise Price, which shall be an amount in the Specified Currency equal to the aggregate of:

- (a) the aggregate outstanding face amount of the Certificates of the relevant Series on the relevant Dissolution Date;

- (b) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates of the relevant Series; and
- (c) an amount equal to the sum of any outstanding: (i) amounts repayable in respect of any Liquidity Facility; and (ii) any Service Agency Liabilities Amounts.

The Trustee will also be entitled to exercise the Purchase Undertaking following any exercise by the Certificateholders of any relevant Series of their right to require the Trustee to redeem their Certificates on a Certificateholder Put Option Date, in which case SIB will be required to purchase a portion of the relevant Portfolio (such portion to comprise the **Certificateholder Put Option Assets**) with an aggregate Value no greater than the aggregate face amount of the Certificates to be redeemed. The exercise price (the **Certificateholder Put Option Exercise Price** and, together with the Portfolio Exercise Price, each an Exercise Price) payable for the **Certificateholder Put Option Assets** will be an amount in the Specified Currency equal to the aggregate of:

- (a) the product of: (i) the aggregate face amount of the relevant Certificateholder Put Option Certificates; and (ii) the Optional Dissolution Amount (Certificateholder Put) Percentage specified in the applicable Final Terms;
- (b) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the relevant Certificateholder Put Option Certificates; and
- (c) (only where no Certificate of the relevant Series remains outstanding following the exercise of the Certificateholder Put Option) an amount equal to the sum of any outstanding: (i) amounts repayable in respect of any Liquidity Facility; and (ii) any Service Agency Liability Amounts.

If the Delegate exercises any of the options described above, an exercise notice will be required to be delivered by the Delegate under the Purchase Undertaking.

SIB will undertake in the Purchase Undertaking that, to the extent that the sale and purchase or transfer and assignment of any interest in SIB's rights, title, interests, benefits and entitlements in, to and under the Portfolio or the Certificateholder Put Option Assets (the **Relevant Asset**), as the case may be, is not effective in any jurisdiction for any reason, and as a result the Trustee or, as the case may be, the Delegate, is unable to realise in full, or does not actually receive in full, the relevant Exercise Price which is expressed to be due and payable under the Purchase Undertaking at the relevant time, it will (without double counting): (i) make payment of an amount equal to the purchase price paid by the Trustee for the Relevant Asset by way of restitution to the Trustee immediately upon request; and (ii) indemnify fully the Trustee for any shortfall between the amount received by the Trustee under (i) and the amount required for the purpose of redemption in full of the outstanding Certificates of the relevant Series. Accordingly, the amount payable by SIB under this undertaking will not exceed the relevant Exercise Price.

In addition, if SIB fails to pay all or part of any Exercise Price that is due in accordance with the Purchase Undertaking and provided that no Sale Agreement has been entered into, then SIB will agree in the Purchase Undertaking that it will irrevocably, unconditionally and automatically (without the necessity for any notice or any other action) continue to act as Service Agent for the provision of the Services in respect of the relevant Portfolio on the terms and conditions, *mutatis mutandis*, of the Service Agreement.

SIB will expressly declare in the Purchase Undertaking that:

- (a) the relevant Exercise Price represents a fair price for the purchase of all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the relevant Portfolio or the relevant Certificateholder Put Option Assets, as the case may be;
- (b) it shall irrevocably and unconditionally fully accept all or any ownership interest the Trustee may have in the relevant Portfolio or the relevant Certificateholder Put Option Assets, as the case may be, and, accordingly, shall not dispute or challenge all or any ownership interest the Trustee may have in any way;
- (c) if it breaches any declaration or undertaking set out in (a) or (b) above or if it or any administrator, liquidator or receiver of it disputes or challenges the rights, benefits and entitlements of the Trustee in, to and under the relevant Portfolio or the relevant Certificateholder Put Option Assets, as the case may be, SIB shall (as an independent, severable and separately enforceable obligation) fully

indemnify the Trustee for the purpose of redemption in full of the relevant Certificates and, accordingly, the amount payable under any such indemnity claim will equal the relevant Exercise Price; and

- (d) if the Portfolio Exercise Price or the Certificateholder Put Option Exercise Price is not paid in accordance with the provisions of the Purchase Undertaking, whether as a result of a dispute or challenge in relation to the right, title, interests, benefits and entitlements of the Trustee in, to and under the Portfolio or any of the Assets comprising the Portfolio or the Certificateholder Put Option Assets, as the case may be, or for any other reason, SIB shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the outstanding Certificates and, accordingly, the amount payable under any such indemnity claim will equal the relevant Exercise Price.

In the Purchase Undertaking, SIB undertakes that, so long as any Certificate remains outstanding, SIB will not, and shall ensure that none of its Material Subsidiaries will, create or permit to subsist any Security Interest, other than a Permitted Security Interest, upon the whole or any part of its present or future undertakings, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness or any Guarantee of Relevant Indebtedness given by it without:

- (a) at the same time or prior thereto securing equally and rateably therewith its obligations under the Transaction Documents to which it is, in whatever capacity, a party; or
- (b) providing such other Security Interest for those obligations as may be approved by the Certificateholders by an Extraordinary Resolution.

- (c) **Cross Acceleration:**

  - (ii) any such Indebtedness is declared to be or otherwise becomes due and payable prior to its specified maturity (or, in the case of a Guarantee, is called) as a result of an event of default (however described),

- (d) **Repudiation:** SIB (acting in any capacity) repudiates or challenges the valid, legal, binding and enforceable nature of any or any part of a Transaction Document to which it is a party or does or causes to be done any act or thing evidencing an intention to repudiate or challenge the valid, legal, binding and enforceable nature of any Transaction Document to which it is a party; or

- (e) **Illegality:** at any time it is or will become unlawful for SIB (acting in any capacity) to perform or comply with any or all of its obligations under or in respect of the Transaction Documents or any of the obligations of SIB (acting in any capacity) under the Transaction Documents are not, or cease to be legal, valid, binding and enforceable; or

**Subsidiary** means in relation to any person (the first person) at any particular time, any other person (the second person):

- (a) whose affairs and policies the first person controls or has power to control, whether by ownership of share capital, contract, the power to appoint or remove members of the governing body of the second person or otherwise; or
- (b) whose financial statements are, in accordance with applicable law and generally accepted accounting principles, consolidated with those of the first person.

SIB will also agree in the Purchase Undertaking that all payments by it under the Purchase Undertaking will be made free and clear of, and without any deduction or withholding for or on account of any Taxes (as defined therein) unless required by law and (save as set out therein) without set off or counterclaim of any kind and, in the event that there is

any deduction or withholding, SIB shall pay all additional amounts as will result in the receipt by the Trustee of such net amounts as would have been received by it if no such deduction or withholding had been made. The payment obligations of SIB under the Purchase Undertaking will be direct, unconditional, unsubordinated and (subject to the provisions described above) unsecured obligations of SIB which rank at least *pari passu* with all other present and future unsubordinated and unsecured obligations of SIB save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

### Sale Undertaking

The Amended and Restated Sale Undertaking will be executed as a deed on 28 May 2020 by SIB Sukuk Company III Limited (in its capacity as Trustee) in favour of SIB and will be governed by English law.

Pursuant to the Sale Undertaking and subject to the Trustee being entitled to redeem the Certificates of the relevant Series for tax reasons in accordance with Condition 10.2 (*Early Dissolution for Tax Reasons*), SIB will, by exercising its right under the Sale Undertaking and serving an exercise notice on the Trustee no later than 45 days prior to the Tax Dissolution Date, be able to oblige the Trustee to sell all of its rights, title, interests, benefits and entitlements in, to and under the relevant Portfolio at the relevant Exercise Price. In addition, if the Optional Dissolution Right (Call) is specified in the applicable Final Terms as being applicable, SIB will, by exercising its right under the Sale Undertaking and serving an exercise notice on the Trustee no later than 45 days prior to the relevant Optional Dissolution Date, be able to oblige the Trustee to sell all of its rights, title, interests, benefits and entitlements in, to and under the relevant Portfolio at the relevant Exercise Price.

For these purposes, the Exercise Price will be an amount equal to the aggregate of:

- (a) (where the Certificates of the relevant Series are to be redeemed for tax reasons in accordance with Condition 10.2 (*Early Dissolution for Tax Reasons*)) the aggregate outstanding face amount of the Certificates of the relevant Series on the relevant Dissolution Date or (where the Certificates of the relevant Series are to be redeemed in accordance with Condition 10.3 (*Dissolution at the Option of the Trustee*)) the product of: (i) the aggregate outstanding face amount of the Certificates of the relevant Series on the relevant Dissolution Date; and (ii) the Optional Dissolution Amount (Call) Percentage specified in the applicable Final Terms;
- (b) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates; and
- (c) in the case of an exercise by SIB of the Optional Dissolution Right (Call) in respect of all the Certificates or any other exercise by SIB under the Sale Undertaking, an amount equal to the sum of any outstanding: (i) amounts repayable in respect of any Liquidity Facility; and (ii) any Service Agency Liabilities Amounts.

SIB will be able to exercise its rights under the Sale Undertaking to effect the in kind substitution of Assets, subject to any substitute Assets being Eligible Assets of a Value not less than the Value of the Substituted Assets. SIB will also be able to exercise its rights under the Sale Undertaking (following any purchase of Certificates by SIB or any Subsidiary of SIB pursuant to Condition 13 (*Purchase and Cancellation of Certificates*)) to provide for the transfer, assignment and conveyance to it of an undivided ownership interest (the **Cancellation Interest**) in the relevant Portfolio calculated as the ratio, expressed as a percentage, of the aggregate face amount of the relevant Certificates to be cancelled (the **Cancellation Certificates**) to the aggregate face amount of the Certificates of the relevant Series immediately prior to the cancellation of such Cancellation Certificates, all as more particularly described in the Sale Undertaking. The Cancellation Interest will be specified in a cancellation notice and will have a Value no greater than the aggregate face amount of the Certificates of the relevant Series so purchased. Transfer of the Cancellation Interest will occur against cancellation of such Certificates by the Principal Paying Agent pursuant to the Conditions.

### Master Trust Deed

The Amended and Restated Master Trust Deed will be entered into on 28 May 2020 between SIB, the Trustee and the Delegate and will be governed by English law. A Supplemental Trust Deed between the same parties will be entered into on the Issue Date of each Series and will also be governed by English law.

Upon issue of the Global Certificate initially representing any Series, the Master Trust Deed and the relevant Supplemental Trust Deed shall together constitute the Trust declared by the Trustee in relation to such Series.

The Trust Assets in respect of each Series comprise (unless otherwise specified in the relevant Supplemental Trust Deed), *inter alia*, the Trustee's rights, title, interest and benefit, present and future, in, to and under the relevant Portfolio, its rights, title, interest and benefit, present and future, in, to and under the Transaction Documents (other than: (i) in relation to any representations given to the Trustee by SIB pursuant to any of the Transaction Documents and any rights which have been expressly waived by the Trustee in any of the Transaction Documents; and (ii) the covenant given to the Trustee pursuant to Clause 13.1 of the Master Trust Deed) and any amounts standing to the credit of the relevant Transaction Account.

If and to the extent the Trustee has exercised its rights under Condition 21 (*Further Issues*) to issue additional Certificates in respect of a Series, on the date of issue of such additional Certificates, the Trustee will execute a declaration of commingling of Trust Assets for and on behalf of the holders of the existing Certificates and the holders of such additional Certificates so issued, declaring that the additional Assets transferred to the Trustee (in respect of the issuance of the additional Certificates) and the Assets comprising the Portfolio immediately prior to the acquisition of the additional Assets (in respect of the relevant Series as in existence immediately prior to the issue of such additional Certificates) are commingled and shall collectively comprise part of the Trust Assets for the benefit of the holders of the existing Certificates and the holders of such additional Certificates as tenants in common *pro rata* according to the face amount of Certificates held by each Certificateholder, in accordance with the Master Trust Deed.

Each Trust Deed will specify that, on or after the relevant Scheduled Dissolution Date or, as the case may be, Dissolution Date of a Series, the rights of recourse in respect of the relevant Certificates shall be limited to the amounts from time to time available and comprising the Trust Assets of that Series, subject to the priority of payments set out in the Trust Deed, the relevant Certificates and the Conditions. The Certificateholders have no claim or recourse against SIB Sukuk Company III Limited in respect of any amount which is or remains unsatisfied and any unsatisfied amounts will be extinguished.

Pursuant to the Trust Deed, the Trustee will, in relation to each Series, *inter alia*:

- (a) hold the relevant Trust Assets on trust absolutely for the relative Certificateholders *pro rata* according to the face amount of Certificates held by each Certificateholder; and
- (b) act as trustee in respect of the relevant Trust Assets, distribute the income from the relevant Trust Assets and perform its duties in accordance with the provisions of the Trust Deed.

In the Master Trust Deed, the Trustee by way of security for the performance of all covenants, obligations and duties of the Trustee to the Certificateholders will irrevocably and unconditionally:

- (a) appoints the Delegate to be its attorney and in its name and on its behalf to execute, deliver and perfect all documents and to exercise all the present and future powers, trusts, authorities and discretions (including but not limited to the authority to request instructions from any Certificateholders and the power to sub-delegate and to make any determinations to be made under the Trust Deed) vested in the Trustee by the Trust Deed and the other Transaction Documents that the Delegate may consider to be necessary or desirable upon the occurrence of a Dissolution Event or a Potential Dissolution Event; and
- (b) subject to it being indemnified and/or secured and/or prefunded to its satisfaction to perform the present and future duties, powers, authorities and discretions vested in the Trustee by the relevant provisions of the Trust Deed and any of the other Transaction Documents (provided that no obligations, duties, liabilities or covenants of the Trustee pursuant to this Master Trust Deed or any other Transaction Document shall be imposed on the Delegate by virtue of such delegation) and make such distributions from the Trust Assets as the Trustee is bound to make in accordance with the Trust Deed.

The delegation made under the Master Trust Deed shall become effective from the date of the Master Trust Deed provided that in no circumstances will such delegation result in the Delegate holding on trust the Trust Assets. However, the appointment of such delegate by the Trustee is intended to be in the interests of the Certificateholders and will not affect the Trustee's continuing role and obligations as trustee.

The Trustee will undertake in the Master Trust Deed that, following it becoming aware of the occurrence of a Dissolution Event in respect of any Series and subject to Condition 14 (*Dissolution Events*) it shall: (a) promptly notify the relevant Certificateholders of the occurrence of such Dissolution Event. Subject to the Delegate being indemnified

and/or secured and/or prefunded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing, the Delegate may take all such steps as are necessary to enforce the obligations of SIB (in whatever capacity it is acting) under the relevant Trust Deed and any other Transaction Document to which SIB (in whatever capacity) is a party.

Pursuant to the relevant Trust Deed, SIB will also undertake to the Trustee that if the Portfolio Exercise Price or the Certificateholder Put Option Exercise Price is not paid in accordance with the provisions of the Purchase Undertaking, whether as a result of a dispute or challenge in relation to the right, title, interests, benefits and entitlements of the Trustee in, to and under the Portfolio or any of the Assets comprising the Portfolio or the Certificateholder Put Option Assets, as the case may be, or for any other reason, SIB shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the outstanding Certificates and, accordingly, the amount payable under any such indemnity claim will equal the relevant Exercise Price.

The Master Trust Deed specifies, *inter alia*, that in relation to each Series:

- (a) following enforcing or realising the relevant Trust Asset and distributing the net proceeds of the Trust Assets in respect of the relevant Series to the Certificateholders in accordance with the Conditions and the relevant Trust Deed the obligations of the Trustee in respect of the Certificates shall be satisfied and the right of the Certificateholders to receive any further sums shall be extinguished and neither the Trustee nor the Delegate shall be liable for any further sums and, accordingly, the relevant Certificateholders may not take any action against the Trustee, the Delegate or any other person to recover any such sum or asset in respect of the relevant Certificates or the relevant Trust Assets;
- (b) no Certificateholder shall be entitled to proceed directly against the Trustee and/or SIB, or provide instructions (not otherwise permitted by the Trust Deed) to the Delegate to proceed against the Trustee and/or SIB under any Transaction Document unless the Delegate having become bound so to proceed, fails to do so within a reasonable period of becoming so bound and such failure is continuing. Under no circumstances shall the Delegate or any Certificateholders have any right to cause the sale or other disposition of any of the relevant Trust Assets (other than pursuant to the Transaction Documents), and the sole right of the Delegate and the Certificateholders against the Trustee and SIB shall be to enforce their respective obligations under the Transaction Documents;
- (c) the Delegate shall not be bound in any circumstances to take any action to enforce or realise the relevant Trust Assets or take any action against the Trustee and/or SIB under any Transaction Document unless directed or requested to do so: (a) by an Extraordinary Resolution; or (b) in writing by the holders of at least one-fifth of the then aggregate outstanding face amount of the Certificates of the relevant Series and in either case then only if it is indemnified and/or secured and/or prefunded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing provided that the Delegate shall not be held liable for the consequences of exercising its discretion or taking any such action and may do so without having regard to the effect of such action on individual Certificateholders; and
- (d) after enforcing or realising the relevant Trust Assets and distributing the net proceeds of the relevant Trust Assets in accordance with the terms of the relevant Trust Deed, the obligations of the Trustee and the Delegate in respect of the Series shall be satisfied and no Certificateholder may take any further steps against the Trustee and the Delegate to recover any further sums in respect of the relevant Series and the right to receive any such sums unpaid shall be extinguished. In particular, no holder of the Certificates of the relevant Series shall be entitled in respect thereof to petition or to take any other steps for the winding-up of SIB Sukuk Company III Limited.

### **Shari'a Compliance**

Each Transaction Document provides that, to the extent permitted by law, each of the Trustee (to the extent it is a party to the relevant Transaction Document) and SIB (to the extent it is a party to the relevant Transaction Document), as the case may be, agrees that it has accepted the Shari'a compliant nature of the Transaction Documents to which it is a party and further agrees that:

- (a) it shall not claim that any of its obligations under the Transaction Documents to which it is a party (or any provision thereof) is ultra vires or not compliant with the principles of Shari'a;

- (b) it shall not take any steps or bring any proceedings in any forum to challenge the Shari'a compliance of the Transaction Documents to which it is a party; and
- (c) none of its obligations under the Transaction Documents to which it is a party shall in any way be diminished, abrogated, impaired, invalidated or otherwise adversely affected by any finding, declaration, pronouncement, order or judgment of any court, tribunal or other body that the Transaction Documents to which it is a party are not compliant with the principles of Shari'a.

## TAXATION

*The following is a general description of certain tax considerations relating to Certificates issued under the Programme. It does not purport to be a complete analysis of all tax considerations relating to the Certificates. Prospective purchasers of any Certificates should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes of acquiring, holding and disposing of the relevant Certificates and receiving payments under those Certificates. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.*

### United Arab Emirates

*The following summary of the anticipated tax treatment in the UAE in relation to payments on the Certificates is based on the taxation law in force at the date of this Base Prospectus, and does not constitute legal or tax advice. Prospective investors should be aware that the relevant fiscal rules and practice and their interpretation may change.*

There is currently in force, in Sharjah legislation, a general corporate taxation regime, the Sharjah Income Tax Decree 1969 (as amended). The regime is, however, not enforced save in respect of companies active in the hydrocarbon industry, some related service industries and branches of foreign banks operating in the UAE. It is not known whether the legislation will or will not be enforced more generally or within other industry sectors in the future. Under current legislation, there is no requirement for withholding or deduction for or on account of UAE or Sharjah taxation in respect of payments made under the Transaction Documents. If any such withholding or deduction is required to be made in respect of payments due by SIB under any Transaction Document to which it is party, SIB has undertaken to gross-up the payments due by it accordingly. If any such withholding or deduction is required to be made in respect of payments due by the Trustee under the Certificates: (i) the Trustee has undertaken to gross-up the payment(s) accordingly (subject to certain limited exceptions); and (ii) SIB has undertaken to pay such additional amounts to the Trustee to enable it to discharge such obligation.

The Constitution of the UAE specifically reserves to the Federal Government of the UAE the right to raise taxes on a federal basis for the purposes of funding its budget. It is not known whether this right will be exercised in the future.

The UAE has entered into double taxation arrangements with certain other countries, but these are not extensive in number.

### Cayman Islands

*The following is a discussion on certain Cayman Islands income tax consequences of an investment in Certificates to be issued under the Programme. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances and does not consider tax consequences other than those arising under Cayman Islands law.*

Under existing Cayman Islands laws, payments on Certificates to be issued under the Programme will not be subject to taxation in the Cayman Islands and no withholding will be required on the payments to any holder of Certificates nor will gains derived from the disposal of Certificates be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance or gift tax.

Subject as set out below, no capital or stamp duties are levied in the Cayman Islands on the issue, transfer or redemption of Certificates. An instrument transferring title to any Certificates, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty. An annual registration fee is payable by the Trustee to the Cayman Islands Registrar of Companies which is calculated by reference to the nominal amount of its authorised capital. At current rates, this annual registration fee is approximately U.S.\$853.66.

The foregoing is based on current law and practice in the Cayman Islands and this is subject to change therein.

### Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, as amended, commonly known as **FATCA**, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. SIB is a foreign financial institution for these purposes. A number of jurisdictions (including the UAE and the Cayman Islands) have entered into, or have agreed in substance to, intergovernmental agreements

(IGAs) with the United States to implement FATCA, which modify the way in which FATCA applies in their jurisdictions. Under the provisions of the IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Certificates, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Certificates, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Certificates, such withholding would not apply prior to the date that is two years after the publication of the final regulations defining "foreign passthru payments" and Certificates that are treated as debt for U.S. federal income purposes and that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. However, if additional certificates that are not distinguishable from previously issued Certificates are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Certificates, including the Certificates offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Certificateholders should consult their own tax advisers regarding how these rules may apply to their investment in Certificates. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Certificates, no person will be required to pay additional amounts as a result of the withholding

### **The proposed financial transactions tax (FTT)**

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Certificates (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Certificates where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate. Prospective holders of the Certificates are advised to seek their own professional advice in relation to the FTT.

## SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement (the **Programme Agreement**) dated 28 May 2020, agreed with the Trustee and SIB a basis upon which they or any of them may from time to time agree to purchase Certificates. Any such agreement will extend to those matters stated under “*Terms and Conditions of the Certificates*”. In the Programme Agreement, each of the Trustee and SIB has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue, offer and sale of Certificates under the Programme.

### SELLING RESTRICTIONS

#### United States

The Certificates have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree that, except as permitted by the Programme Agreement, it will not offer, sell or deliver Certificates: (i) as part of their distribution at any time; or (ii) otherwise until 40 days after the completion of the distribution of the Certificates comprising the relevant Series, as certified to the Principal Paying Agent or the Trustee by such Dealer (or, in the case of a sale of a Series of Certificates to or through more than one Dealer, by each of such Dealers as to the Certificates of such Series purchased by or through it, in which case the Principal Paying Agent, the Trustee or SIB shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S or pursuant to an available exemption from or in a transaction not subject to, registration under the Securities Act, and such Dealer will have sent to each dealer to which it sells Certificates during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Certificates within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the completion of the distribution of Certificates comprising the relevant Series, any offer or sale of Certificates within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Terms used in these paragraphs have the meanings given to them by Regulation S under the Securities Act.

#### Public Offer Selling Restrictions under the Prospectus Regulation

In relation to each Member State of the European Economic Area and the United Kingdom (each, a **Relevant State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Certificates which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Trustee or SIB for any such offer; or
- (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Certificates shall require the Trustee, SIB or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression **an offer of Certificates to the public** in relation to any Certificates in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for Certificates; and the expression **Prospectus Regulation** means Regulation (EU) 2017/1129.

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Certificates in circumstances in which section 21(1) of the FSMA does not apply to the Trustee or SIB; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Certificates in, from or otherwise involving the United Kingdom.

## **Cayman Islands**

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that no offer or invitation, whether directly or indirectly, to subscribe for the Certificates has been or will be made to the public in the Cayman Islands.

## **Japan**

The Certificates have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the **FIEA**). Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not, directly or indirectly, offered or sold and will not directly or indirectly offer or sell any Certificates, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan including any corporation or other entity organised under the laws of Japan), or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other relevant laws and regulations of Japan.

- (a) an “Exempt Offer” in accordance with the Market Rules (MKT) Module of the Dubai Financial Services Authority (the **DFSA**) rulebook; and
- (b) made only to persons who meet the Professional Client criteria set out in Rule 2.3.3 of the DFSA Conduct of Business Module of the DFSA rulebook.

## **Kingdom of Saudi Arabia**

No action has been or will be taken in Saudi Arabia that would permit a public offering of the Certificates. Any investor in Saudi Arabia or who is a Saudi person (a **Saudi Investor**) who acquires any Certificates pursuant to an offering should note that the offer of Certificates is a private placement under Article 9 or Article 10 of the “Rules on the Offer of Securities and Continuing Obligations” as issued by the Board of the Capital Market Authority resolution number 3-123-2017 dated 27 December 2017 as amended by the Board of the Capital Market Authority resolution number 1-104-2019 dated 30 September 2019 (the **KSA Regulations**), made through a person authorised by the Capital Market Authority to carry on the securities activity of arranging and following a notification to the Capital Market Authority under Article 11 of the KSA Regulations.

The Certificates may thus not be advertised, offered or sold to any person in Saudi Arabia other than to “sophisticated investors” under Article 9 of the KSA Regulations or by way of a limited offer under Article 10 of the KSA Regulations. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Certificates by it to a Saudi Investor will be made in compliance with Articles 9 and 10 of the KSA Regulations.

Each offer of Certificates shall not therefore constitute a “public offer”, an “exempt offer” or a “parallel market offer” pursuant to the KSA Regulations, but is subject to the restrictions on secondary market activity under Article 15 of the KSA Regulations. Any Saudi Investor who has acquired Certificates pursuant to a private placement under Article 9 or Article 10 of the KSA Regulations may not offer or sell those Certificates to any person unless the offer or sale is made through an authorised person appropriately licensed by the Capital Market Authority and: (a) the Certificates are offered or sold to a Sophisticated Investor (as defined in Article 9 of the KSA Regulations); (b) the price to be paid for the Certificates in any one transaction is equal to or exceeds Saudi Riyals 1 million or an equivalent amount; or (c) the offer or sale is otherwise in compliance with Article 15 of the KSA Regulations.

## **Kingdom of Bahrain**

Each Dealer has represented, warranted and undertaken, and each further Dealer appointed under the Programme will be required to represent, warrant and undertake, that it has not offered or sold, and will not offer or sell, any Certificates, except on a private placement basis, to persons in the Kingdom of Bahrain who are “accredited investors”.

For this purpose, an “accredited investor” means:

- (a) an individual holding financial assets (either singly or jointly with a spouse) of U.S.\$1,000,000 or more excluding that person's principal place of residence;
- (b) a company, partnership, trust or other commercial undertaking which has financial assets available for investment of not less than U.S.\$1,000,000; or
- (c) a government, supranational organisation, central bank or other national monetary authority or a state organisation whose main activity is to invest in financial instruments (such as a state pension fund).

## **State of Qatar**

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold, and will not offer or sell at any time, directly or indirectly, any Certificates in the State of Qatar (including the Qatar Financial Centre), except (i) in compliance with all applicable laws and regulations of the State of Qatar; and (ii) through persons or corporate entities authorised and licensed to provide investment advice and/or engage in brokerage activity and/or trade in respect of foreign securities in the State of Qatar. This Base Prospectus (i) has not been, and will not be, registered with or approved by the Qatar Financial Markets Authority, the Qatar Central Bank, the Qatar Stock Exchange or the Qatar Financial Centre Regulatory Authority and may not be publicly distributed in the State of Qatar (including the Qatar Financial Centre); (ii) is intended for the original recipient only and must not be provided to any other person; and (iii) is not for general circulation in the State of Qatar (including the Qatar Financial Centre) and may not be reproduced or used for any other purpose.

## **Singapore**

Each Dealer has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge that this Base Prospectus has not been and will not be registered as a prospectus with the Monetary

Authority of Singapore. Accordingly, each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not offered or sold any Certificates or caused the Certificates to be made the subject of an invitation for subscription or purchase and will not offer or sell any Certificates or cause the Certificates to be made the subject of an invitation for subscription or purchase and has not circulated or distributed, nor will it circulate or distribute, this Base Prospectus or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Certificates, whether directly or indirectly, to any person in Singapore other than: (i) to an institutional investor (as defined in Section 4A of the Securities and Futures Act (Chapter 289 of Singapore) (as modified or amended from time to time, the **SFA**)) pursuant to Section 274 of the SFA; (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA; or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provisions of the SFA.

Where the Certificates are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities or securities-based derivatives contracts (each term as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Certificates pursuant to an offer made under Section 275 of the SFA except:
